WILSON RECEIVES NOTE FROM ALLIES

Paul Deschanel Is Formally Made Head of French Republic

Inauguration Ceremony—Power Handed Over by M. Poincare After His Notable Term—Formal Reception Follows Ceremony

Paris, Feb. 18.—Paul Deschanel to-day became tenth President of the French Republic, succeeding Raymond Poincare, who laid aside the robes of office after one of the most critical periods in the history of the country. The formal transfer from the old to the new regime occurred at the Palace of the Elysee this afternoon.

The inauguration of the French President is a formal ceremony and the number permitted to witness the transfer of authority is limited to the Presidents of the Senate and the Chamber of Deputies, committees from each house and members of the Cabinet.

Premier Millerand, shortly before the hour set for the ceremony, drove to the Palais Bourbon, where, as President of the Chamber, M. Deschanel has maintained his residence, and called for the President-elect. Entering a state carriage and escorted by a regiment of cuirassiers and preceded by a flag-bearer, they drove to the Palace, where the ceremony was to take place.

While the crowds massed along the route on both banks of the Seine were cheering M. Deschanel as he passed with his escort, the members of the Cabinet and the officials of the Senate and the Chamber assembled around M. Poincare in the Palace to greet the new President.

With the arrival of M. Deschanel at the Elysee the formal transfer of power took place.

At City Hall.

On the conclusion of the formality President Deschanel and ex-President Poincare were driven through the crowded streets to the City Hall, where they were received by the President of the Municipal Council, the Prefect of the Department of the Seine and the President of the General Council.

Greetings were extended to the President and the retiring Executive and a formal reception followed at which Paris society was liberally represented.

Cabinet.

Paris, Feb. 18.—Premier Millerand to-day offered President-Elect Deschanel the resignation of the Cabinet, as is customary on the accession of a new President. M. Deschanel refused to accept the resignation and asked the Premier to remain in office.

A sweeping grant of amnesty will be granted by President Deschanel. Civil and military offenders will be included, the only exceptions being persons convicted of treason against the state.

A Farewell.

All members of the diplomatic corps who came in contact with President Poincare during his term were received at the Elysee Palace in a private farewell audience at 11 o'clock this forenoon.

On Commission.

Paris, Feb. 18.—(Havas)—Raymond Poincare, who to-day retired from the Presidency of the French Republic, may succeed Charles C. A. Jonnart as president of the French delegation on the Reparations Commission.

DISPUTE ON WHEAT PRICE UNSETTLED

Ottawa Has Not Come to Agreement With Greece Yet

Ottawa, Feb. 17—(Canadian Press.)—The dispute which has arisen over the price of wheat sold by the Canada Wheat Board to the Greek Government shows no signs of being immediately settled. It was stated about a week ago that Lloyd Harris, who acted prominently in connection with the sale of the wheat, was coming to Ottawa for a conference with the Government, but Sir George Foster, Acting Prime Minister, to-day refused to discuss the matter in any way and stated that he had no knowledge of Mr. Harris's movements or intentions.

Canadian wheat growers, it is understood, are interested to the extent of from $1,000,000 to $3,000,000, as Mr. Harris's statement was to the effect that the Greek Government was charged $3 a bushel when it was agreed it should be given the same rate as Belgium, which was $2.47 a bushel. Earlier reports were to the effect that Sir George Foster had the matter in hand.

RANEY TO BE OPPOSED

Toronto, Feb. 18.—Lieut.-Col. Robert Pritchard, of Fergus, last night announced in this city that he would oppose Hon. W. E. Raney, Attorney-General, in East Wellington, as an Independent candidate in protest against an outsider being presented to represent the constituency in the

ARMIES EXCHANGE JUNIOR OFFICERS

British, French and American Armies Along Rhine Adopt Scheme

Coblenz, Feb. 18. — An arrangement has just been completed between the commanders of the American and French armies of occupation for the regular exchange of junior officers for training in the military methods of the other nation. Three American officers will join a French unit in the Rhineland to-morrow for three weeks' service, and French officers of the same rank will join the Americans for the same period.

A similar agreement between British and American armies on the Rhine has been concluded, and the exchange will begin soon.

SENT BY BANKERS TO THE ORIENT

Thomas W. Lamont, of Morgan Firm, New York, in Vancouver

Vancouver, Feb. 18.—That the American banking group for China, including some of the leading bankers in Chicago, had asked him to go to the Far East to discuss with Japanese banking group the detailed workings of the consortium organized at Paris last May for an international partnership to assist China in establishing her great public and Governmental enterprises, and to report on commercial, financial and political conditions in China, was the statement made here to-day by Thomas W. Lamont, of the firm of J. P. Morgan & Company, New York. Mr. Lamont and party will sail for the Orient to-morrow.

GERMAN AGENTS IN ITALY LOOKING FOR TRADE RENEWAL

Rome, Feb. 18.—(Havas)—Eight German representatives have arrived here to confer with the Italians relative to a renewal of trade relations between the two countries, according to The Italia Nauva.

HENRY MORGENTHAU URGES STATES TO BEAR WORLD SHARE

New York, Feb. 18.—A warning the United States will be involved in another European war within ten years unless she accepts her share of the responsibility of putting Europe and Asia on their feet again was uttered here to-night by Henry Morgenthau, former Ambassador to Turkey, in an address before the students of Columbia University.

FOOD CARD PLAN IS RESORTED TO AGAIN IN ITALY

Rome, Feb. 18.—Owing to the high rate of exchange, the difficulty of securing transport and the scarcity of supplies, the Council of Ministers has decided to establish card systems for the necessaries of life, under the same conditions as during the war. Cards, therefore, will be required for bread, rice, macaroni, lard, fats and coal.

Many Would Flee From Sebastopol if They Could

Constantinople, Feb. 16, via London, Feb. 18 (Associated Press)—The situation in Southern Russia is so uncertain that the Allied officials are fearful of a general Bolshevik triumph, more, however, from internal dissensions than from the entrance of Red forces from the outside.

General Schilling is at Sebastopol commanding the Volunteer forces which are holding the Crimean isthmus. The surrounding lagoons are frozen hard, however, and it is feared the Bolsheviki may approach on the ice.

Sebastopol harbor is cluttered with useless shipping. Ten thousand persons are registered as wishing to get away, while 11,000 more are on ships from Odessa without adequate food or medicine. Typhus is raging among the refugees.

It is impossible to take away the population, as the commanders of Allied warships in the harbor apparently lack authority for such action.

An agreement has been reached between General Denikine and the Cossack supreme council. The Terek Cossacks are giving their wholehearted support, but the Don and Kuban Cossacks are making reservations which weaken the anti-Bolshevik strength and make the Crimean situation doubtful.

Fierce Fighting.

London, Feb. 18.—Fierce fighting between Bolshevik troops and separate enemy groups in the Tiraspol and Odessa regions is reported in an official statement issued by the Soviet Government at Moscow to-day. The statement continues: "We have entered Ovidiopol (on the Black Sea southeast of Odessa). We have evacuated Pogaevskaya, twenty versts from Novo Cherkask, under enemy pressure.

"In the direction of Krasnovodsk we have captured the island of Cheleken. The oil wells were found undamaged. Much booty was captured."

No More Westward.

Vladivostok, Feb. 16.—As the result of negotiations between General Krakowitski, commander of the Zemstvo army, and M. Matsudaira, representing Japan, instructions have been sent to the Japanese general in command to cease sending Japanese troops from Vladivostok westward. This move is interpreted here as indicating that Japan desires to avoid a conflict with the Russians.

BOLSHEVIK ELECTION.

London, Feb. 18.—A Moscow wireless message says that the election of the Moscow Soviet began last Monday under the banner and slogans of the Bolshevik party. Bolshevik candidates were being elected in all regions.

SIR ROBERT BORDEN ON WAY TO STATES FROM BRITAIN NOW

London, Feb. 18.—(Canadian Press)—Sir Robert Borden sailed to-day for New York, where he is to meet Lady Borden. During the two weeks that the Prime Minister was in London the weather was very fine and he was not bothered with business matters. His health, the Canadian Press is informed, is much improved since leaving Ottawa, and he now intends going to the Southern States to continue his holiday.

NEW MUNICIPAL ACT IMPROBABLE

Attorney-General Comments on Situation Following North Vancouver Convention

It is highly improbable that there will be a new Municipal Act passed during the present session of the Legislature. This was the inference conveyed this morning during a conversation with the Attorney-General, in which Mr. Farris reviewed the negotiations carried on between the municipalities and the Government. He referred to the convention at Penticton in 1919, when the Union of British Columbia Municipalities adopted the principle of control by a Local Government Board. Secretary McDiarmid, of the Union, at that time went ahead with the drafting of the Municipal Act, which was brought before the select committee on municipal affairs last year.

It will be remembered that only the more urgent amendments to the Municipal Act were passed last session, following recommendations made to the Legislature by the select committee. But a new Act was promised for this year. However, it was pointed out, since that time the Convention of Municipalities had been held at North Vancouver, and the decision regarding a Local Government Board of Control was reversed.

Asked regarding his stand on this matter, Mr. Farris stated that while the Government was strong for a Local Government Board, still it was not desired to weaken the effectiveness of that method by forcing it upon the municipalities, especially after their recent stand on the matter at the North Vancouver convention. He said that it was altogether probable, therefore, that a canvass would be made to ascertain the opinions of the municipalities, with a view of bringing in a new Act next year.

THREE PERISHED IN PROVIDENCE, R. I.

Guests at Hotel Lost Lives As Result of Fire To-day

Providence, R. I., Feb. 18.—Three guests lost their lives in a fire which virtually destroyed the Lorraine Hotel here to-day.

Samuel Warwick, of Harrisville, was so badly injured by jumping from a window that he died later at a hospital. Two bodies were found in the ruins.

The remainder of the seventy-eight guests of the hotel were driven into the street, partly clad, and were taken care of in nearby hotels and restaurants.

So far the cause of the fire has not been learned. The property loss is estimated at $200,000.

NEEDY VIENNESE SMASH UP COFFINS TO GET FIREWOOD

Vienna, Feb. 17.—Via London, Feb. 18.—Systematic vandalism and robbery in cemeteries has led to demands for police protection. Newspapers say graves and vaults have been despoiled, articles of the slightest value taken and coffins smashed for firewood.

WOLF KILLED IN DULUTH; ONE TAKEN IN TRAP

Duluth, Minn., Feb. 18.—For a week a pack of wolves invaded nightly the western end of Duluth and not until last night did trappers and scores of people "lying out" for the pack succeed in killing one, wounding another and trapping a third of the pack of twelve.

NOW REPORTED HELD IN JAIL AT BAKU; A. F. KERENSKY

KERENSKY NOW IN PRISON AT BAKU

Reported to Have Been Seized by Caucasian Leaders

London, Feb. 18.—Alexander Kerensky, former Russian premier, whose regime was overthrown by the Bolsheviki in November, 1917, has been imprisoned in the Caucasus, according to a Central News dispatch from Copenhagen quoting the Esthonian newspaper Varanias.

The message declares that Kerensky recently proceeded to the Caucasus on board a British steamship for the purpose of inducing the population to promise their support to the Russian democratic Centre Party. The Caucasian leaders, however, gave him a cold reception, it is asserted, and on his arrival at Baku he was arrested and thrown into prison.

WIRES IDLE AS TRIBUTE TO DEAD

The Canadian Press Service Pauses During Funeral of Late E. F. Slack

Montreal, Feb. 18.—Citizens of every rank and profession, with journalists predominating, paid their last respects to the late E. F. Slack, managing director of The Montreal Gazette Publishing Company and president of the Canadian Press, Limited, at his funeral, which took place this morning. The service was held at Mr. Slack's late residence, Grosvenor Avenue, Westmount, and was conducted by Rev. M. H. Little, of the Church of the Advent.

Floral tributes were sent by newspaper confreres in all parts of Canada.

Interment took place in Mount Royal Cemetery.

At 10 o'clock, the hour for the beginning of the service, the Canadian Press suspended operations from Halifax to Victoria for two minutes.

SARNIA MERCHANTS PROSPER GREATLY

American Vaccination Order and Exchange Rate Are Aiding Them

Sarnia, Ont., Feb. 18.—With the continued enforcement of the vaccination order by the United States health officials on the American side of the St. Claire River and the present rate of discount against Canadian funds, Sarnia merchants, aided also by the "buy-in-Canada" campaign, are already reaping a great benefit. Thousands of dollars which formerly would have gone across the river are now being spent in Canada.

Aroused by the action of the American Senators who wish to deprive Canada of her vote in the League of Nations, members of the war veterans' organizations here stated last night that at the next meeting of their associations they would make a motion to have the co-operation of all citizens in opening a movement to continue the "buy-in-Canada" campaign and that every possible effort would be made to have Canadians buy on this side of the line

GREAT INDIAN SNIPER FROZEN TO DEATH IN ONTARIO

Moraviantown, Ont., Feb. 18.—George Stonefish, Canada's most noted Indian sniper for three years in France, credited with having killed more than 100 Germans, was found frozen to death Monday night near his home on the reserve here.

NO EARLY SUGAR SHORTAGE RELIEF

No Immediate Prospect of Adequate Supply Throughout Canada

Ottawa, Feb. 18.—There is no immediate prospect of relief from the sugar shortage throughout Canada. It has been learned that the February output of the domestic plants is much below normal. Some of the plants are still closed to permit of alterations in machinery made necessary by the change from beet to cane milling, and the dock strikes in Cuba still are interfering with the importation of raw sugar. Some local stocks in Canada are reported, but these should be shortly disposed of and the production in the Dominion brought to normal when the mills are ready for operation and the raw product is available, although there will be no Canadian sugar available for export during March it is said definitely by the Department of Trade and Commerce.

In Alberta.

Calgary, Feb. 18.—The sugar shortage in Alberta has virtually reached the famine stage, with scarcely any substitutes available and no possibility of relief this week. Sugar in small quantities is available in some of the small centres, but most of the districts in Southern Alberta are without it.

Calgary is almost sugarless. Distributors are entirely out of white sugar. The supply of brown sugar is also at the vanishing point, and corn syrup, which not any too popular for sweetening, is the only substitute in quantity.

A. B. COPP NOMINATED.

Moncton, N. B., Feb. 18.—Westmorland County Liberals, in convention here Tuesday, unanimously nominated A. B. Copp, M. P., of Sackville, for the next federal contest. Mr. Copp accepted.

PROHIBITION PUTS MAGISTRATE OUT OF JOB IN STATES

Mineola, N. Y., Feb. 18.—Police Justice George A. Little announced to-day that he had resigned because prohibition prevented him "from making a living."

Since the ban on liquor went into effect last month, his revenue from the office dwindled more than 50 per cent, the justice said.

MILETNIK VESNITCH IS ASKED TO FORM JUGO-SLAV CABINET

Paris, Feb. 18. — Dr. Miletnik Vesnitch, the Minister of Jugo-Slavia at Paris, has been asked to form a new Cabinet at Belgrade, it was announced to-day.

THREAT OF GENERAL STRIKE BY THE COAL MINERS OF FRANCE

Paris, Feb. 18.—Threats of an early general miners' strike are made by members of the coal miners' union because of dissatisfaction over the action of the Chamber of Deputies yesterday in voting adversely on a proposal for pensions for coal diggers.

Government to Ask House to Pass Labor Legislation

Ottawa, Feb. 18 (Canadian Press)—The Government has decided to introduce certain labor legislation at the coming session of Parliament. The precise nature of it is not known, but Senator Robertson, Minister of Labor, stated to-day that it would include four amendments to the Industrial Disputes Act, a statute which has been more or less under fire of late. There also will be an amendment to the Technical Education Act.

The Minister stated that the Government has under consideration some proposed legislation dealing with questions discussed at the International Labor Congress at Washington. Asked whether this would include an eight-hour bill, he said he would not commit himself.

It is understood that the question of labor legislation based on the conclusions arrived at in Washington has not yet been decided by the Cabinet.

Reply From Allies Received in States But Not Made Public

Not Even a Summary of Allied Leaders' Statement on Adriatic Situation Will Be Given at Present by American Government

Washington, Feb. 18.—The reply of the Allied Supreme Council at London to President Wilson's note on the Adriatic situation was received to-day at the State Department from Ambassador Davis and was decoded as fast as it came in.

It was announced officially that the reply would not be made public at this time, and it was indicated that not even a summary of it would be given out. Publication of the reply has been left by the Council to President Wilson, according to London dispatches, but the Council expected to give the press a summary of its contents.

While waiting for the note to be decoded, officials noted from the London dispatches that the reply was said to be a modification of the original one prepared last Saturday.

STATE INSURANCE PLAN NOW URGED IN MANITOBA PROVINCE

Winnipeg, Feb. 18.—State insurance for Manitoba was the recommendation made yesterday by experts called in by the Government to assist a joint commission which has been considering suggested amendments to the Workmen's Compensation Act.

AIR FORCES ARE USED FOR DEFENCE

Mesopotamia and Persia Situation Cause British to Try Plan

Washington, Feb. 18.—Great Britain relies largely on her air forces for the defence of Persia and Mesopotamia, according to official advices received here. Winston Churchill, British War Minister, recently informed Parliament that air bases had been established at Bagdad and Karachi, the latter a port on the Arabian Sea and the terminus of an important railroad.

Military experts here attach great importance to this announcement because it is an innovation in military strategy in two important particulars. It is the first time, authorities say, that air forces have been relied upon to so large a degree purely for defence. Also the impossibility of conducting operations in desert regions has been overcome by carrying on the operations in the air.

Communication

The British maintain communication between Aleppo, near the Mediterranean Sea, and Bagdad and between Bagdad and Karachi. Much of this is an impenetrable desert, including the Arabian Desert and the Great Salt and Dasht-I-Lut Deserts.

British authorities have feared that Bolshevik troops, which have penetrated Turkestan, might enter Afghanistan and attack Persia from the flank. It is believed that the aerial forces have been organized partly to meet this threatened danger.

WINDOWS SMASHED.

Tulle, France, Feb. 18.—Ths vicar of the village of Aix, near here, denounced modern dancing and balls during his sermon Sunday morning and on Monday night the windows of his church were smashed. It is alleged that young people of the town are guilty of the offence.

Lumber Shortage Said to Be Threatened On Prairies

Ottawa, Feb. 18.—(Canadian Press.)—The Board of Commerce has been asked to consider the problem of a threatened lumber shortage in Manitoba, Saskatchewan and Alberta, caused by the steady shipment of the Canadian supply to the United States. American firms are said to be conserving their own supply and buying up a large part of the visible supply in Western Canada for their present use.

H. W. Whitla, K. C., counsel for the Board of Commerce in Winnipeg, telegraphed this morning to the Board of Commerce here, as follows:

"The Chief Inspector of Crown Timber Agencies reports that a serious shortage is being created in lumber supplies in the three prairie provinces by United States concerns buying up large available stocks for shipment South. The United States firms are holding American lumber from their own markets for a rise in prices and are dealing largely in the Canadian supply. An immediate investigation will demonstrate this.

"Please advise what steps, if any, should be taken by me. My informant states the result will be extremely serious unless the movement is checked."

The Board of Commerce is considering the matter to-day.

London, Feb. 18.—The reply of the Supreme Allied Council to President Wilson's note relative to the Adriatic settlement was coded and forwarded to Washington by the American Embassy here. Announcement was made that the question of making public the text of the reply would rest with Mr. Wilson.

It is understood the communication objects to reopening of the Adriatic question. It is said to declare that, circumstances existing when Premiers Lloyd George, Nitti and Clemenceau framed the virtual ultimatum to Jugo-Slavia in January could not be ignored, and the President, it is asserted, is told the decisions reached last December, to which Mr. Wilson adhered in his note, will be carried out if Mr. Wilson will indicate the way this may be done.

Not Identical.

While reports emanating from Paris to the effect that the Council modified and softened the tone of the first draft of this reply to Mr. Wilson are denied, it is said the message actually sent to Washington is not identical with the one agreed upon by Premiers Lloyd George and Millerand at their first meeting subsequent to the arrival of the American President's memorandum.

APPEAL DISMISSED.

Ottawa, Feb. 18.—In the Supreme Court Tuesday afternoon, at the close of the arguments, judgment was rendered dismissing, with costs, the appeal of the Western Trust Company versus Rowland.

FINANCIAL POSITION OF PROVINCE HEALTHY

Surplus For Nine Months' Period Better Than Expected

Legislative Press Gallery,
February 17.

Following up the interesting statement to The Times of a surplus of $1,043,000 of revenue over current expenditure on the operations of the fiscal year 1918-1919, which Hon. John Hart, Minister of Finance, was able to make when presenting the Public Accounts, the Minister yesterday afternoon was able to show a more striking position as regards the nine months of the present fiscal year, which ended with the close of 1919.

Not only has the revenue come in so well that the receipts for nine months exceed what was expected for twelve months, but they show a surplus of $1,462,042 over both current expenditure and capital expenditure for the three-quarters.

The estimated revenue for the twelve months ending March 31 next, is $10,209,960.13. The actual revenue received up to December 31 was $10,609,454.34 or $400,000 greater than the whole year. The estimated expenditure for the whole year on current account is $11,071,113.01, and on capital account $2,242,190 or a total estimated expenditure of $13,313,303.01. For the nine months current expenditure amounted to $7,806,406.43, and capital expenditure to $1,841,006.05 or a total actual expenditure of $9,147,412.48.

There is thus a surplus on the nine months' operations of $2,803,047 91 of revenue over current expenditure, and a surplus of $1,462,041.86 over all expenditure, current and capital. There is in the Canadian Bank of Commerce to-day to the credit of the consolidated revenue fund approximately $1,645,000.

In submitting the Comptroller-General's report, Mr. Hart outlined certain statements contained therein. He said that illness in the department had prevented the earlier tabling of the report, and its presentation, he hoped, would relieve the feelings of the Leader of the Opposition.

NATIONAL RAILWAYS TO BE IMPROVED

Increased Efficiency and Betterment of Equipment Forecast by Hanna

Toronto, Feb. 18.—Increased efficiency and betterment of equipment on the existing lines are planned in an extensive Spring programme being prepared for the Canadian National Railways, according to President D. B. Hanna. Complete details may not be made public until they are laid before Parliament at the coming session, he intimated. Beyond stating that there would certainly be no curtailment of last year's appropriations, Mr. Hanna refused to make any other than a general statement in connection with the future plans of the system.

According to Mr. Hanna, judicious cuts in the American purchases had left the Canadian National Railways in a position where they were little affected by the adverse rate of exchange.

HIGHER PRICES IN THE UNITED KINGDOM

London, Feb. 18.—Actual and prospective increases in prices announced yesterday include one penny to twopence increase on cigars and an ounce of tobacco, and a halfpenny increase on a package of 10 cigarettes. Sewing cotton was increased 2¾ pence a reel.

The recent increase in the price of petrol, which caused a one-day strike of taxicab drivers, is expected to bring an announcement of higher fares.

In consequence of the increase in railway freights, the belief is growing that parcel post charges will be raised in the near future.

The postal employees are demanding higher wages, involving an aggregate of about £11,000,000 yearly, and it is expected that a halfpenny extra will be placed on letter postage.

For Colds, Grip or Influenza and as a Preventative, take LAXATIVE BROMO QUININE Tablets. Look for E. W. GROVE'S signature on the box. 30c. tf

SPANISH VILLAGE GOT INTOXICATED

London, Feb. 18.—Virtually the entire male population of the village of Lagranaw, near Ferrol, Spain, was in a state of helpless intoxication for three days recently, according to a Madrid dispatch.

"Owing to stormy weather," it says, "a number of cases of spirits laden on incoming vessels had been washed overboard. The male population of the town immediately rushed to the beach and began a free-for-all spree. As a result there were 540 patients ranging from eixteen to seventy years of age, in the hospital. It was necessary to enlist the services of a detachment of soldiers to get them there."

BRITISH LABORITES AND ELECTION OUTLOOK

London, Feb. 18.—The Westminster Gazette, Liberal, says that responsible Labor leaders are agreed that a general election at the present time would not be in the best interests of the party, and that every month the election can be delayed within the next two years is likely to benefit it. It is added that the extreme section represented by such men as Smillie, the miner's leader, is coming also to this view.

WANT PAPER BARRED.

Fredericton, N. B., Feb. 18.—New Brunswick Orangemen are objecting to the circulation throughout the Canadian mails of The National Hibernian, which is published at St Louis, Mo., on the grounds that it carries advertisements and appeals for subscriptions for the bonds of the "Irish Republic."

UNIONIST CAUCUS.

Ottawa, Feb. 18.—It is altogether likely that a Unionist caucus will be held here during the first week in March, although the date has not been definitely fixed. Sih George Foster will preside, as it is not likely that Sir Robert Borden will have returned to the capital by that time.

HEART SO BAD
WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorf, Ont., writes: "I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ONE DAY CANDY SALE
DOLLAR DAY

All candies and chocolates, with the exception of packet goods, will be reduced 10c per lb. FORWARD MOVEMENT SUCCEEDS IN DUNCAN

Duncan, Feb. 18.—The financial returns for the Church Forward Movement in Duncan have been simply amazing. St. John's, with a small congregation from about 100 homes, had a quota of $2,250, which was considered very large, but over $2,800 has been subscribed and a belated $200 is expected to come in to swell the total to $3,000. St. Peter's has oversubscribed its quota, having collected over $2,000. St. Mary's, Somenos, has given over $900. All Saints and Crofton combined to raise $1,600.

The Presbyterian Church has gathered in over $1,200 and the Methodists of the district over $1,800.

The renewed zeal in church work and the increased attendance at all the churches have also been a splendid response to the call of the leaders.

MANITOBA'S LIST OF LIQUOR CONVICTIONS

Winnipeg, Feb. 18.—Six hundred and ten convictions were obtained during 1919 for infraction of the Manitoba Temperance Act, according to he report of J. E. Maclean, Administrator of the Act. In 1918 there were 357 convictions. The fines amounted to $105,465, as compared with $57,859 in 1918.

The report shows that two persons were sentenced to imprisonment without fines, seven convictions reported against four veterinary surgeons, twenty-eight against twenty seven doctors, eight charges against doctors dismissed and one conviction quashed by the Court of Appeal.

GROWING OF SEEDS IN COWICHAN AREA

Duncan, Feb. 18.—The Crosland Brothers, growers of sweet pea seed for half a dozen of the leading seed houses of England and Ireland, have their ground in shape for sowing, which will begin about the end of this month. Contracts have been received, and seed for sowing sent out by these firms of the very newest and most rare varieties. The Croslands will put in six acres of this seed and have sublet contracts to seven or eight local growers, who will put in about four acres more. The quality of the Vancouver Island seed is so good that an unlimited number of contracts could be received by responsible growers. The Croslands do not sublet except to growers within easy reach for supervision.

PRISONERS ARE TO SEE MAN HANGED

Chicago, Feb. 18.—Prisoners in the Cook County jail will be permitted to witness executions despite protests by women's organizations, public officials and others, Sheriff Peters announced yesterday. Jack O'Brien will be hanged Friday for the murder of a policeman and the prisoners in surrounding cells will look on, the sheriff said.

"The mere hanging of a particular individual is not meant to punish him alone," said Sheriff Peters, "but the real object is to punish the criminal class. If capital punishment means anything at all it is a deterrent to further crime and an example to others. The very classes it is intended to reach are those confined in the jail.

FINANCES OF FRANCE.

Paris, Feb. 18.—Hopeful signs that France will soon be able to balance its normal budget are seen by La Liberte in the announcement that the receipts from indirect taxation during January exceeded the estimated returns by 237,000,000 francs.

F. K. LANE'S FUTURE.

Los Angeles, Feb. 18.—Franklin K. Lane, retiring Secretary of the Interior, will become an executive of the Pan-American Petroleum and Transport Company and the Mexican Petroleum Company when he relinquishes his official position.

PILES Do not suffer another day with Itching, Bleeding or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you; 60c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 3c. stamp to pay postage.

Good Coal

By that we mean coal that is high in heating power and low in ash—slow burning but moderately quick to light. That is the kind of coal we are supplying to several hundred householders in the city.

Prompt delivery is a feature of our coal service that you will like.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat If You Feel Backachy or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

TEXTBOOK NO GOOD.

Fredericton, N. B., Feb. 18.—All fraternal organizations here are joining in a protest against the continuance of Myers' history as a textbook in the schools of New Brunswick as a result of the recent revelation that in its latest edition the historian fails to make any mention of Canada's part in the late war.

"DOLLAR DAY" AT MALLEK'S

The prime purpose of a Dollar Day is to clear out all the odds-and-ends and left-overs which may be in the store at the end of the season, and, in most cases, they are priced in single articles or groupings and sold at one dollar.

In our business, the merchandising of Women's High-Grade Ready-to-Wear, there are but few articles which can be sold for such a small amount as one dollar. In order to enter into the spirit of the occasion, however, we make the following

Startling Reductions

Pure Wool Caps and Scarfs, all colors.. Regular $2.00 and $2.50 each. Dollar Day, each $1.00
A Few Black Silk Waists. Regular $4.95. Special Dollar Day, each $1.00
Rubberized Tweed Raincoats. A few only. Regular $8.75. Dollar Day Special at..... $5.00
Regular $15.00 Tweed Coats. Dollar Day Special at..... $5.00

Winter Suits Half Price

Six only Winter Suits in Velvet, Broadcloth or Serge, some fur trimmed, others plain. These beautiful suits will be sold at HALF PRICE.

For Thursday, Dollar Day Only

Most of our Spring Garments have arrived—the largest and most complete stock in the city, and as a Special Dollar Day treat we will make the following special reductions:

New Spring Suits at $5.00 Off
New Spring Coats at $3.00 Off
New Spring Dresses at $2.00 Off
New Spring Skirts at $1.00 Off

721 Yates Street **Mallek's** Telephone 1901

Beginning February 21st, This Store Will Close at 6 p.m. on Saturdays

Brown and Field-Mouse

The new shades in Ladies' Footwear for Spring. Every woman who is interested in extra smart footwear should make a special effort to see these to-day as the quantity is limited.

Ladies' Brown Boots with field-mouse tops, made on the new Cascade last, with hand-welted soles and medium Louis heels. This is one of the most stylish boots we have ever shown.

All Field-Mouse Boots

This boot is the field-mouse shade throughout, with the full Louis heel and in style there is no footwear to surpass it. They are very beautifully made and the shade is ideal for Spring wear.

Owing to our placing our order for the above lines extra early the present showing is not only an advanced one, but entirely exclusive.

Wm. Cathcart & Co., Ltd.
621 Fort Street Pemberton Building

Save $10.00 on Your New Spring Suit

Some men and women prefer an imported tweed, others an imported worsted, while most everybody likes a suit of serge. You have your choice of all here.

Prices from as low as $37.50

SEVEN MEN OF AMERICAN NAVY LOSE THEIR LIVES

Washington, Feb. 18.—Five enlisted men were drowned in the sinking of a naval barge yesterday off the Cuban coast, the Navy Department was advised to-day, and two others lost their lives in the capsizing of a motor dory from the United States steamship Hovey last Sunday at Harwich, England. No details of the sinkings were given out but Admiral Knapp said a court of inquiry would investigate the sinking of the dory.

SPANISH CABINET SUPPORTED ON VOTE

Madrid, Feb. 18.—(Havas).—The Spanish Government was given a vote of confidence yesterday, the result being 120 to 3. The result of this victory, however, was called into question by the fact that all Catalonian members and the followers of former Premiers Romanones and Dela Cerva left the room before balloting began.

RAILWAY EMPLOYEES IN STATES CONFER

Washington, Feb. 18.—A meeting of the heads of the fifteen railroad employees' organizations had been called for to-night to consider the conference report on the pending railroad bill with a view to determining what effect the bill as amended will have on the recent agreement between President Wilson and union officials regarding demands for wage increases.

Inflammatory Rheumatism Cured by B.B.B.

Rheumatism is a constitutional disease, caused by the uric acid in the blood. It manifests itself by pain and lameness attacking the muscles and joints of the body, which often swell and become hot and inflamed.

Anyone who has suffered month after month, and perhaps year after year, with rheuatism, and who has tried remedy after remedy in the hope of relief, and without success, should not give up hope.

Burdock Blood Bitters, by invigorating the digestive organs and eliminating the uric acid from the system will give prompt and permanent relief.

Mrs. D. Barry, Purlbrook, Ont., writes: "I feel it my duty to let you know of the great benefit my husband derived from using your Burdock Blood Bitters. He had been suffering for the past two years with inflammatory rheumatism. He tried many medicines but got no better. A friend advised him to take B. B. B. He did so, and after taking five bottles he felt like a new man, and was able to go to work the same as ever."

Burdock Blood Bitters has been on the market for over forty years. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

GREAT NEW COTTON AREA IN AUSTRALIA

Lindsay, Explorer, Finds Big Agricultural Tracts in Northern Territory

Melbourne, Feb. 17.—David Lindsay, the explorer, has discovered large tracts of new agricultural lands in the Northern Territory of Australia which previously had been marked on the maps as desert land.

The explorer reports that water is freely obtainable at a shallow depth, and that cotton can satisfactorily be grown. He asserts that cotton already is now growing wild over scattered areas.

David Lindsay, the famous Australian explorer, was born in Goolwa, South Australia, of Scottish parents, on June 20, 1856. He was educated at private schools and entered the Survey Department of South Australia in 1872. After being the Junior Surveyor of the Northern Territory and in control of Public Works until 1882, he explored Arnhem Land, in the Northern Territory, in 1883, and the northwest of South Australia in 1884. Later he continued to explore and survey from the Southern boundary to the Gulf of Carpentaria, and rode across Australia from north to south with only a small black boy as companion. For two years he surveyed explored and prospected in the MacDonnell Ranges, Central Australia. He was the leader of the Elder Scientific Exploring Expedition and he crossed the great Victoria District, 550 miles in thirty-five days.

It was on the latter trip, which was accomplished with the utmost hardship in 1890, that he discovered and reported the existence of a great auriferous area in Western Australia which, when prospected more thoroughly, turned out to be a great goldfield. He stayed in the goldfields until 1895, assisting in the exploration and exploitation of the great mineral belt. Since that time he has been intimately associated with the development of the mining industry in various states of Australia.

He was a member of the Commonwealth Royal Commission to advise as to railways and new ports to develop the Northern Territory in 1913. He has written a book called "Journals of Exploration."

LABORITES AGAINST MR. LLOYD GEORGE'S BILL FOR IRELAND

London, Feb. 18. — The British Labor Party delegation which visited Ireland recently has reported in favor of withdrawing the Government's Irish bill and settling the Irish question from an entirely different standpoint, it is said.

The delegation is said to have come to the opinion that the problem is as much an industrial as a political one, and that it should be solved by taking both of these factors into consideration.

The labor correspondent of The Manchester Guardian says the report will declare strongly against the establishment of two Legislatures, dividing the North from the South and West of Ireland. The deputation during its tour found little, if any, support for the proposal from any section of opinion.

The same correspondent suggests that the report will summarize the Labor Party's policy as one trusting the Irish people with responsibility for good order, resting upon a democratically elected Parliament within the widened borders of the constitution.

IMPERIAL VETERANS' PRESIDENT GIVES OUT ELECTION STATEMENT

Vancouver, Feb. 18.—Claiming he was properly elected Dominion president of the Imperial Veterans of Canada and that F. J. Crossfield, candidate of the British Columbia executive, was constitutionally ineligible for the office, Major T. B. Thomas, whose election by the Winnipeg convention evoked a protest from the Vancouver branch, has issued a statement. He states that the convention objected to electing a man who was not present and was a member of the executive ex-officio.

ACTION AGAINST A PAPER CONCERN

Ottawa, Feb. 18.—The Government has acceded to the request of the Board of Commerce that action be taken against Price Brothers, a pulp and paper manufacturing firm, and Colonel C. M. Biggar, formerly Judge Advocate-General, has been appointed to represent the Crown in the prosecution.

The action arises out of the refusal of Price Brothers to obey an order of the Board to supply newsprint paper to The Montreal Star, The Montreal Herald and Poirrier Bassett & Company, of Montreal.

WILL USE AEROPLANES.

Toronto, Feb. 18.—Aeroplanes are to be used in the exploration of the James Bay District during the coming Summer in a search for oil. The formation is said to resemble the Ontario oil district and many claims have been staked. The aeroplanes will be used to carry food to prospecting parties.

HIS HEARING RESTORED.

The invisible antiseptic ear drum invented by Mr. A. O. Leonard, which is in reality a miniature megaphone, fitting inside the ear and entirely out of sight, is restoring the hearing of literally hundreds of people in New York City. Mr. Leonard invented this remarkable drum to relieve himself of deafness and head noises, and it does this so successfully that no one could tell that he is a deaf man. This ear drum is effective when deafness is caused by catarrh or by perforated, partially or wholly destroyed natural drums. A request for information addressed to A. O. Leonard, 501, 70 Fifth Avenue, New York City, will be given a prompt reply.—Advertisement.

FOOD PROBLEMS N IN NEWFOUNDLAND

St. Johns, Nfld., Feb. 18.—Owing to a railway tie-up due to the severity of snowstorms in January, inland settlements are faced with a serious shortage of foodstuffs and feed for cattle and horses. Lumbering camps are hard hit by the loss of work due to the scarcity of food and other essentials.

WILL BE DROPPED.

Brockville, Ont., Feb. 18.—(By Canadian Press).—The appeal against the election of G. Howard Ferguson, former Minister of Lands, Forests and Mines in the late Conservative Government of Ontario, has been postponed until after the next sesion of the Ontario Legislature.

This probably means that the proceedings will be dropped.

They're Here! They're Ready!

AS USUAL.

Mr. Bowser's speech in the Legislature yesterday was precisely what everybody familiar with his conception of his functions as Leader of the Opposition expected it would be. That is to say, it assailed the Government's policies, record, methods, manners, aspirations and intentions from end to end, albeit it overlooked the personal appearance of the Ministers and the way they wear their clothes. The Opposition Leader could see nothing creditable in the Administration or any of its works, not the faintest glimmer of an achievement for which the Premier and his colleagues deserved anything but the severest condemnation of the electorate and their early political decapitation.

There was not a solitary constructive idea or the semblance of an idea in the speech from first to last, not the slightest suggestion of a remedy for the mistakes, or corrective for the sins of commission or omission, with which Mr. Bowser so freely charged the Government. The financial policy was all wrong, the railway policy was all wrong, the agricultural policy was all wrong, the public works policy was all wrong, and so on for two hours and a half, the speaker not even respecting the remains of issues dead and buried long ago, in which the public no longer is interested. This, of course, as we have pointed out, is all in accord with Mr. Bowser's conception of his functions as Leader of the Opposition. It has not yet occurred to him that the public is entitled to expect something else, that it is entitled to expect from one who has been in public life as long as he some kind of a contribution at least to the solution of the pressing problems of the day. And it is entitled to draw from his failure to do anything but scold like a fish-wife and in other respects fill a role which, if it has to be filled at all, should have been filled by a back-bencher, the inference that Mr. Bowser is lacking in constructive ideas. Undoubtedly criticism is good for all Government, but criticism, which is merely wild-eyed, is useless. It rectifies no mistakes. It does not help the country. It is only a waste of time.

Mr. Bowser, of course, is open to deadly reprisals. He is the most vulnerable figure in the public life of this country and probably in Canada. In every attack upon Government policy he drags a skeleton from his own political record before the public view. The Dominion Trust with its trail of death and ruin, the Kitsilano deal, the P. G. E. scandal, his disregard of the requirements of the laws he was sworn to maintain when he was Attorney-General, the cynical complication of his public duty with his private practice, are but a few items of the chapter of administrative enormities which caused the electors to put him out of office and nearly out of public life. It is a hard record to live down. Certainly it cannot be forgotten or forgiven by the electorate as long as the Leader of the Opposition furnishes no indication in his speeches that he would not do the same things again if he were in office.

IF THE TREATY WERE WITHDRAWN.

President Wilson might withdraw the Treaty of Versailles and the pact by which Great Britain and the United States guarantee France against unprovoked attack by Germany, but this would not dispose of them finally as far as the republic is concerned. It would merely postpone further action until a new President and a new Congress were installed. Meanwhile the United States would remain at war with Germany, for in view of the presidential election next Fall it is unlikely the Administration would care to chance a separate peace with its adversary, the terms of which might be excellent campaign material for its opponents. Indeed, the Treaty of Versailles might fare better in the Senate under different administrative auspices than it is faring now, and its withdrawal, therefore, would not be an unmixed calamity. In any case the Supreme Council of the Allies should proceed to the settlement of the question before them on the basis of what they believe to be the course best calculated to maintain peace in Europe, even if this involves the fulfillment of the threat with which President Wilson has accompanied his latest note across the Atlantic.

INTERNATIONALIZED.

The internationalization of the Dardanelles is another thing that is long overdue. If Great Britain and France had insisted upon that course in 1878 the pathway of history since then would have been vastly different from what it turned out to be. At that time, however, European diplomacy for the most part was directed towards the isolation of Russia from the open sea, and the keys to her southern outlet were placed in Turkey's keeping, notwithstanding the patent fact that Turkey was less worthy of trust, if anything, than Russia. As a menace Russia was vastly over-rated as developments showed, her system of Government being a source of such serious fundamental weakness that she was incapable of carrying on a great war unaided without precipitating a revolution. She would have been less of a menace at Constantinople than Turkey has been.

The internationalization of the Dardanelles and, we presume, of the Bosphorus, will insure a great future for Odessa and other outlets of the extremely rich sections of southern Russia on the Black Sea. These in time are bound to become the terminii of ships from all parts of the world and to attain the commercial importance of Liverpool or Hamburg. In the variety and extent of its resources the country behind them probably is unequalled anywhere else in the world.

WHY HE IS BITTER.

A review in The New York Times of the volumes of memoirs published by Admiral von Tirpitz recently included this paragraph:

"Of course, Admiral von Tirpitz does not admit that Germany was in the least to blame for bringing on the World War. In his view Germany was an innocent victim of a malevolent and envious conspiracy against her in which England was the chief criminal. It would be difficult to believe, if these two volumes did not present evidence of the fact upon almost every page, that any human being could be so filled with hatred, anger, resentment, contempt, spite, and malice toward other human beings as he is toward England and the English. Opprobrious epithets roll from his pen whenever he has occasion to mention the land or its people. So intense is his feeling that it seems almost to indicate a psychopathic condition. But since almost his whole nation has been—perhaps still is—similarly afflicted, that conclusion would be too charitable to be warranted."

It is not hard to imagine the spirit in which von Tirpitz wrote those portions of his memoirs that were completed after the humiliating surrender of the navy he had created. Nor is it hard to understand his intense hatred of Great Britain in view of his realization that British sea power was the rock upon which the ambitious plans of himself and his pan-German colleagues were irretrievably wrecked. Von Tirpitz's memoirs furnish convincing testimony to Britain's part in winning the war in the bitterness in which he refers to her.

A New York paper publishes a picture of Mrs. Leeds, the rich American widow, who married a brother of ex-King Constantine and says she is the first lady of millions from the republic to marry into one of the royal families of Europe. This is a mistake. The lady merely married into an ex-royal family.

Mr. Bowser was pleased to sneer at M. A. Macdonald's appeal for a higher standard of public life. Well, we fear we never will have from the Leader of the Opposition a homily on this subject. If that standard went a very few pegs higher he would be left out in the cold.

An eminent medical authority in New York is quoted as declaring that a specific medical cure for cancer, tuberculosis and pneumonia never will be discovered. How does he know that? Indeed, the world is so young in the development of medical science, as it is in most other human activities, that such a prophecy seems absurd. Medical science, like every other science, is at the beginning of its course, not at the end.

Mr. Bowser spoke in the Legislature yesterday for two and a half hours, a period sufficient to accommodate the combined speeches of Mr. Lloyd George, Mr. Asquith and Mr. Balfour on one occasion on which they debated the Parliament Bill, the Budget, Tariff Reform and Home Rule for Ireland. The art of condensation certainly requires cultivating in Canada and if some experienced British parliamentarian would come over and give a few lessons on this kind of public speaking he would confer an everlasting benefit upon the country. Mr. Bowser's remarks yesterday, for example, could have been compressed within the space of, say, twenty minutes or half an hour and neither the Legislature nor the Province would have been anything the loser, especially if he had devoted half of that time to constructive criticism. No speech in our Legislature should take over an hour to deliver, at the outside, and only on rare occasions should that limit be reached.

It is said that only twelve people are capable of understanding Prof. Einstein's thesis on the law of relativity. In that case, why not let them enjoy the secret unmolested? Some day the professor may give us a new angle on the high cost of living and everybody will be in on it.

MAKING HISTORY.

(From The London Chronicle.)

Senator Henry Cabot Lodge, rival in power to the President of the United States, is busy making history. Only two years ago he was making it in a different way. Then he was swamped by congratulatory messages from every state because he had "struck the first blow in the war" by knocking down a pacifist in the Senate corridor. "Knock 'em all down!" was one of the messages. Senator Lodge is now accused of trying to live up to that message too literally.

LET HIM ALONE.

(Ottawa Citizen.)

Philadelphia man says he is willing to be shot in a rocket to Mars, provided the scientists can prove that they can hit the mark by making just one bullseye before he is sent on his way. We don't care for this bombardment stuff. The Martians may have our range even now, and if we start something we may find ourselves hustling around for a megaphone large enough to shout "kamerad" a few million miles. Anyway, if the Philadelphia man fell ten thousand miles short, or a trifle like that, he would drop onto something somewhere that would make just as good newspaper stuff. Mars may be a tough old fellow and as he seems to be asleep, we would earnestly urge the practice of the old saw about unknown canines being allowed to slumber on.

DOMINION NAVIES.

(From The London Daily News.)

The navy of the future is to be more and more a police force, we hope, and in that view it seems pure gain that the Dominions should raise and control their own. The Admiralty is to be congratulated on the substitution of Lord Jellicoe's tour for a policy which they have tried to push for ten vain years. The daughter nations are of age and conscious of it. Those who knew the colonial troops' blend of jealousy of their individuality with devotion to the common cause will realize what a hard row the statesman has to hoe who wants to control navies raised and manned by Canadians or Australians through the wireless installation in Whitehall.

ACCUSED INDIAN READY FOR HEARING

Himadan, Charged With Gun-a-Noot, Surrenders at Hazelton

Hazelton, B. C., Feb. 17.—Himadan, known also as Peter Wales, at 2 p. m. to-day went to the Hazelton lockup with George M. Beirnes and Stuart Henderson and surrendered on the warrants out against him for the murder of Alexander McIntosh near Two Mile, and Max Leclair, on the Kispiox Road. Both bodies were found in the forenoon of June 19, 1906, thirteen years and eight months ago.

Himadan, whose sister is the wife of Gun-A-Noot, took flight the same day. A price has been on his head since that time. Until to-day Himadan did not visit the haunts of civilization. Stuart Henderson will defend him, as he did Gun-A-Noot at his trial.

Peter at one time had four children, but his wife and one child died. He would have given himself up a week ago, but owing to the sickness and death of Peter's mother at Kiskelas, fifty-five miles north of Hazelton, last week, Peter only arrived South yesterday and gave himself up to Beirnes when the case had been fully discussed with the lawyer.

The evidence against Peter is very slight, if there is any. In fact, it is a question if the case can go beyond a preliminary hearing.

The Attorney-General has been notified, and it is understood here, although not positively known, that a lawyer and magistrate will be sent from Prince Rupert.

This will be the wind-up of the most talked-of cause celebre in Northern British Columbia.

ALBERTA LEGISLATURE STARTS A SESSION

Edmonton, Feb. 18. — Completion of three new schools of agriculture, provision for the commencing of work on a number of public institutions of an educational character, and large additional expenditures for telephone extensions in the Province, were among the announcements contained in the speech from the throne read before a notable gathering by Lieut.-Governor Brett at the opening of the third session of the Fourth Legislature of Alberta yesterday afternoon. Other subjects touched upon included exploitation of natural resources, organizing and promoting the health of the people, amending legislation to the Irrigation Act and complimentary reference to the visits of the Prince of Wales and the Duke and Duchess of Devonshire.

BOSPHORUS TO BE AN INTERNATIONAL WATERWAY SHORTLY

London, Feb. 18.—The Allied Supreme Council decided yesterday afternoon that the Bosphorus should be internationalized the same as the Dardanelles, the decision regarding the Dardenelles having been made at yesterday forenoon's session of the Council.

The preliminary consideration of the Turkish question was completed yesterday, and the drafting of the treaty will be started immediately.

Many details yet remained to be cleared up, as had been forecast, and the Council also must await the reports of the commission appointed yesterday to investigate certain phases of the peace problem.

SEATTLE MAYORALTY.

Seattle, Feb. 18.—Hugh M. Caldwell, former army major and Corporation Counsel, and James Duncan, secretary of the Seattle Central Labor Council, and one of the leaders in the general strike here a year ago, were nominated yesterday to contest Seattle's mayoralty in the election March 2. Mayor C. B. Fitzgerald, present incumbent was eliminated from the race in yesterday's primaries.

Three of the city's four daily newspapers supported Fitzgerald in the campaign.

BOLSHEVIKI SAY VOLUNTEERS BEATEN

London, Feb. 18.—The Russian volunteer army has been pushed back to the Sea of Azov, with its troops completely disorganized and typhus raging among them, according to a Bolsheviki wireless dispatch last evening from Moscow.

London, Feb. 18.—Revolution has broken out in Vladivostok, Nikolsk, Yenishiesk and Blagovestchensk, and all authority is in the hands of the Provisional Government, whose programme is in favor of union with Soviet Russia, according to a Soviet wireless communication from Moscow.

The dispatch added that Red troops had entered Tiraspol, seventy-five miles northwest of Odessa.

PARAGUAY NOW IS MEMBER OF LEAGUE

Only 1,000,000 Population, But Same Voting Rights as Canada

Ottawa, Feb. 18.—(Canadian Press)—Official notification was received by the Government yesterday that four additional countries have joined the League of Nations—Persia, Chile, Paraguay and Argentina. At the time of the Paris Peace Conference, the four were included among states not represented at the Conference but invited to join. They were named in the annex to the covenant.

Admission of the South American countries is regarded here as of particular significance in view of the stand taken by the Canadian Government in respect of Canada's status and voting rights in the League. Paraguay, for instance, is a country of only 1,000,000 population as compared with over 8,000,000 in Canada, but Paraguay will now have the same voting rights in the Assembly as the Dominion. Before the admission of Paraguay a number of Central and South American states with even smaller populations had voting rights equal with Canada. They, however, were signatories of the Treaty of Versailles, and along with Canada were counted among the original members of the League.

According to advices received by the Government, there is a strong sentiment throughout the Dominion in favor of insistence on full Canadian rights in the League.

Mr. Meighen, Minister of the Interior, is to speak in Winnipeg on the league to-night. It is expected he will further outline Canada's stand.

HOOVER TO BE GIVEN MEDAL IN NEW YORK

New York, Feb. 18. — Herbert Hoover will be presented with a gold medal by the Civic Forum to-night, having been selected by its national council as "the American who has given the most distinguished service within the past two years." Only three other persons have been similarly honored by the Forum—Thomas A. Edison, General George Goethals and Alexander Graham Bell. Charles E. Hughes will make the presentation.

BY-ELECTION SOON IN ARGYLLSHIRE

Fest in Scottish Riding; Labor Minister's Insurance Scheme

London, Feb. 18.—(Canadian Press)—A writ for a by-election in Argyllshire was moved for in the House of Commons yesterday. The vacancy occurred through Sir William Sutherland, the Prime Minister's private secretary, being made a Junior Lord of the Treasury. No opposition is expected.

Labor Minister Horne has introduced an employment clause in his bill which proposes to extend insurance on a contributory basis to substantially the whole employed population of the United Kingdom between the ages of seventeen and seventy.

The right of private members to two nights a week after Government business is disposed of has been restored, and last night Premier Lloyd George initiated a debate on housing with a motion expressing apprehension at the slow progress of building under the Housing Act.

BOLSHEVIKI AND UKRAINE.

London, Feb. 18.—According to a dispatch to the Central News from Helsingfors, Russian newspapers received in the Finnish capital say the Bolsheviki have proclaimed an independent republic in that part of the Ukraine they occupy, and the formation of "an eternal brotherly union with Soviet Russia."

The Bolshevik leader Petrovsky has been proclaimed President of the republic, says the dispatch.

W. G. McADOO NOT CANDIDATE IN U. S.

New York, Feb. 18.—William Gibbs McAdoo announced to-day that he would not permit his name to be used on Presidential primary ballots in the various states and that he advocated the sending of uninstructed delegates to the Democratic National Convention. The former Secretary of the Treasury said he believed the highest constructive leadership can best be obtained if the national interest "is not submerged in a contest of individual candidacies."

AERIAL DEFENCE ROUSES AVIATORS

Will Discuss Air Policy As Set Forth by the Air Board

The flying activities of the local branch of the Aerial League of Canada during the past season are beginning to bear fruit. From Montreal comes the request of a Canadian Aerial Transportation Company for information on the conditions prevailing on the coast for aviation.

This company has been supplied with all the information it asked by the local aviators—as to the flying conditions prevailing on the Island, the facilities for landing grounds, the possibility of trade extension by aerial enterprise and kindred matters.

During the past season requests have been dealt with by the local members of the League from numerous aircraft manufacturers in the Old Country, many of whom have since signified the possibility of their opening plants in Canada. When it comes to the case of the Eastern versus the Western possibilities for commercial aviation in the Dominion—the arguments advanced by the flying activities of the Victoria branch of the League are found to be given favorable consideration.

During the last ten months the Pathfinders I. and II. have flown a total number of some 400 hours, carried 300 passengers and have the proud record of a casualty sheet clear of any entry. The machines of the Victoria organization have flown in all weather and have made several night flights. Visits have been made and returned between here and the American side. Data has been compiled for the Air Board, the Dominion Meteorological Bureau and many departments of the Provincial and Dominion Governments.

Future of Force.

Backing this splendid record for conservative and safe flying the members of the local branch are now taking up the discussion of the Air Board regulations for the provision of commercial and civilian flying in Canada. Under the existing scheme of affairs there has been no provision made for the establishment of a Canadian Air Force, either under the militia system or as a permanent body.

This phase of the question has been challenged by the Aero Club of Canada and the assistance of every flying organization in the Dominion is to be enlisted to see if the Air Board authorities cannot be made to reconsider the action or lack of action of which it has been responsible in this respect.

The question of some form of Canadian Air Force for defence purposes is to be taken up at a general meeting of the League next Thursday night at the Arcade clubrooms. As the Air Board regulations stand now, Canada has no "professional" aviators, and the only provision made for wartime is that the Government may call upon civilian and commercial pilots for defence purposes. This scheme would not appear to be in accordance with the supreme attention the Old Country is giving to aviation matters. Great Britain today has a large Air Force on standing and permanent lines, a numerous list of Government aeronautical schools of instruction, and a commercial air force using types of machines that may be in twenty-four hours commuted into war machines of the latest and most capable type.

The question of the Army and the Navy, in the Old Country, has now been transferred to that of the Air Force, Army and Navy and the very detailed and adequate provision made for the flying services would seem to suggest that it is recognized as being the "seeing" member of the two older services.

Taking the Canadian aviation policy, in so far as it has been announced at all, the local members of the League, in conjunction with every other flying association in the Dominion, will endeavor to secure some re-adjustment of the aerial scheme on more up-to-date lines.

FINDS SIMILAR PROBLEM IN VALLEY

Fraser Valley Municipalities Will Send Deputation on Taxation Issue Here

Problems of municipal finance will be taken up with the Provincial Cabinet at a meeting to be held in Victoria towards the end of this month, when every municipality of the lower Fraser Valley is expected to be represented by one or more members of each municipal council and school board.

This question was fully discussed by the reeves of the municipalities in attendance at a recent gathering in New Westminster, when it was intimated that the Government planned a change as to the financing of paved roads. Hitherto it has been the Government's plan to take over the maintenance of the main trunk roads and build permanent work where deemed necessary, the funds coming out of the Provincial Treasury. For secondary trunk roads it was up to the Provincial Government and the municipality involved to come to a fifty-fifty agreement before any such work could be started.

According to Ex-Reeve Paterson, a change is contemplated whereby the municipalities will be forced to bear fifty per cent of the cost of the main trunk roads, a burden which most if not all the rural districts will be unable to carry. It was explained by Reeve Sullivan of Surrey that on account of a shortage of cars existing at Blaine, Wash., during the past few months, American lumber concerns had found it expedient to ship shingles by motor truck to Cloverdale, where cars were available for loading on the B. C. E. R. Such a practice had practically wrecked the Pacific Highway, and Surrey had no redress in the way of taxing the owners of such motor trucks, the Province securing $10 each as a license fee.

The school question is also found to be an acute one in practically every rural municipality, estimates this year being in many cases double those of last year. It was pointed out by one of the reeves attending that while the owner of property is taxed for school purposes, a man may reside in a municipality, owning no land, pays $2 road tax and yet have several children attending school which cost the municipality $40 for each child's education annually.

Ex-Reeve Alex. D. Paterson, who was elected president of the Reeves' Association of the Fraser Valley, is making arrangements for the visit to Victoria. Reeve John A. Williamson, of Delta is secretary of the recently formed organization.

Is Your Blood Starving For Want of Iron?

Modern Methods of Cooking and Living Have Made an Alarming Increase in Iron Deficiency in Blood of American Men and Women

Why Nuxated Iron so Quickly Helps Build Up Weak, Nervous, Run-Down Folks—Over 3,000,000 People Annually Taking It to Increase Their Strength, Power, Energy and Endurance.

"Is your blood starving for want of iron? If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally starve for want of iron—iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood, and who never suspect the cause of their weak, nervous, run-down state. Lack of sufficient iron in the blood has ruined many a man's nerves and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life.

"I strongly advise those who feel the need of a strength and blood-builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package."

In commenting upon the value of Nuxated Iron as a means for creating red blood, strength and endurance, Dr. George H. Baker, formerly physician and surgeon, Montreal Memorial Hospital, New Jersey, says:

"What women need to put roses in their cheeks and the spring-time of life into the step is not cosmetics or stimulating drugs, but plenty of rich pure red blood. Iron is one of the greatest of all strength and blood-builders and unless this iron is obtained from our food it must be supplied in some form that is easily assimilated if we want to possess power, energy and endurance. I have found nothing in my experience so effective for helping to make strong, healthy red-blooded men and women as Nuxated Iron.

MANUFACTURER'S NOTE: Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

Great Future for Agriculture in Prince George Country

By W. N. Campbell, Son of Rev. Dr. Campbell, of Victoria, and a Graduate of the Ontario Agricultural College, in The Prince George Citizen.

It has been said that agriculture is the basic science upon which rests the superstructure of all our economic wealth. The manufacturers, transportation companies and commercial enterprises are all necessary in the work of laying the foundation for a new country, but the farmer alone adds to the common wealth; his calling is a co-operative triumph of Nature and science.

The success of agriculture is absolutely necessary for this section of British Columbia. In a few short years at the best the logging camps and sawmills in the vicinity of this city will be but an old-timer's tale. The pulp enterprises for our section of the Province have not yet materialized, but await the advent of capital.

The Influx

Just at present, and according to all reports, in the early Spring this district will see a great influx of real farming people from the prairies and also to a very great extent from across the line. To these people, coming into a practically pioneer farming country, discouragement may stand ready to take the place of optimistic courage so it behoves everyone with the country's well-being at heart to see that these farmer folk do not get what is known in the language of the street as a "bum steer."

There is no doubt that this country will be a great mixed farming section, but the wonderful little valleys like those of the Mud and Willow will develop in a few years' time into dairying districts of the first order. These nearby valleys are splendidly watered with streams and brooks in abundance, a condition of affairs called for by the dairy farmer. The soil is rich, containing a large amount of virgin humus. This loam has been found very rich indeed in nitrogen. Most of the upland country near us has been swept with fire many times, the result being that the humus on the top has in many cases been burnt almost completely away, with the exception of from one to three inches of the famous chocolate loam of the country. This land, however, can be built up by sowing a good catch of a legume crop, such as clover, and turning it under to a depth of eight inches. The valley land can be made to grow alfalfa, a good yield being from one and a half to two tons per acre, being harvested twice and used for pasture to a certain extent. A good nurse crop for alfalfa in the district surrounding us has been found to be oats.

Dairy Farming

To conduct a successful dairy farm in any country it is almost essential that the farmer has a silo capable of supplying a green food for his herd throughout the Winter. A silo means a large outlay for the newly-settled farmer, as there is the cost of the cutter and blower to be considered. Of course, we are at a little disadvantage here. We cannot raise corn to any considerable amount anyway, but we can grow many other crops that can be used just as well. The silo has certainly solved a problem in dairy farming—the furnishing of a cheap, succulent feed ready for use at any time throughout the year. One warning should be given: Do not feed frozen silage, and do not feed until after milking, as it is apt to taint the milk with a disagreeable odor. However, the dairy farmer making a start in this country, while awaiting the advent of the silo, can always raise and feed root crops, and he will find that his cows are in much better condition than if given dry feed all winter. Mangels and sugar mangels are best by far because of the heavy yield, though not as rich in sugar as sugar beets. These last have many disadvantages in handling, however. Do not feed turnips; they taint the milk very badly. Again a warning, do not feed frozen roots as the result is sometimes fatal.

The settler will want to seed down pastures for his herd. No feed for cows is so cheap as good pasture. Instead of allowing his slashed and burnt off lands to grow a crop of weeds, it could be seeded down to grass and clover between the stumps and made into a good pasture. Divide your slashing by a rail or stump fence and keep changing from one to the other as the pasture gets eaten. There is no reason for allowing a pasture to be tramped and eaten without rest. Here is a good mixture for a permanent pasturage suitable for our climate: Orchard grass, 4 lb.; red top grass, 3 lb.; English clover, 4 lb.; red clover, 3 lb. and Alsike 3 lb. per acre.

If your land doesn't happen to be in the moist valleys, but situated on our upland or bench country, I would recommend the substitution of "tall oat grass" for "red-top grass" and instead of "red clover," alfalfa. This last legume is going to be the great bench land crop for this north country.

Cattle Suitable.

As to breeds. Of course no one expects this district to suddenly become a dairying country. Dairy farming demands a well-developed country-side as to roads, etc., but I am taking up this phase of farming in relation to settlement in this country, because I believe more attention can be given even now to this branch of livestock. It takes a long time to build up a really good herd, as all who have ever had anything to do with stock know.

The Holstein-Friesian, or Holstein, as they are generally known, is, of course, the most popular dairy breed in British Columbia. This breed possesses the highest average milk yield of any of the dairy breed, but the percent of butter fat is lowest. It is a fine, big-framed cow. We must travel far and hunt long before we find a breed to beat the old "black and white." To my mind, however, the ideal breed for a country such as this is the Ayrshire. They are always uniform in milk production, and what is far more to the point in our district, they are good rustlers, able to give a good rich yield on rough pasturages such as we have in many cases. Its milk is a little richer in fat than the Holstein. Another thing in favor of this breed for a new country is that for beef purposes they cannot be beaten amongst the dairy breeds. In New Zealand, a country very much like our own Province, it is the most important dairy breed.

The Jersey is too well known to need any description from me. The percent of butter fat for this breed is the highest of any, the average being a little over 5 per cent. The yield of milk is, however, much lower than other breeds. They are far too delicate as calves to construct a dairy of.

The Guernsey is the other well-known Channel breed. It is very much like the Jersey in characteristics. It is, however, much larger and of coarser bone than the Jersey. The milk is of a far more yellow shade than any of the other breeds, due to the large size of the fat globules. Other dairy breeds are the dual purpose dairy Shorthorn and the Red Poll. These have very little interest ofr us as a dairly breed.

Just a word in closing in relation to the building up of a dairy herd. It is a well-known fact that a herd must be kept up mainly by home-bred stock. For this reason every dairy herd should own a good registered bull with first-class dairy records behind him. In addition, of course, he must be a good individual himself.

A herd is just what a breeder makes it, after all. Let the breeder take as his maxim, "breed, weed and feed," and he will soon own a herd he will be proud of.

GOLD STRIPE No. 3

The book that carries a direct appeal to the heart of every British Columbian.

The great heart-throbbing story of the "boys who went"—an inside story of the war from a British Columbia standpoint.

Brimful of human interest—for Father—for Mother—a war record every British Columbia child will read with interest and treasure for years to come.

Magnificent illustrations — full-page color reproductions—many pages of cartoons—half-tones and black-and-white sketches of war scenes—war leaders.

The entire net profits of this publication go to the Amputation Club of B.C., for the relief of those maimed and crippled during the Great War.

On Sale at All Book Stores

WOMAN PREACHER LEAVING CITY TEMPLE FOR OTHER SERVICES

Miss Maude Royden, the London Daily Chronicle learns, is shortly to resign her pastorate at the City Temple, in order to co-operate with Dr. Percy Dearmer in the direction of a series of Sunday Fellowship services on new lines.

The intention is to appeal to the great body of people who do not go to church, "who do not even know their way about the Prayer-book," as the promoters put it. It is hoped that young people will be specially attracted.

Underlying the organization of these services is the idea of providing a centre for discussion and worship where people will be more free "to discuss, confer, and thus seek the truth together than they are in an ordinary church."

Wider scope for the ministry of women may, it is expected, result from the experiment, and it is also desired to bring into the service of religion all that is lovely in music and the other arts.

It is hoped to start the Sunday Fellowship services at the beginning of March. At present lack of a hall or theatre in which the enterprise can be started is the initial difficulty to be got over.

Well-known people who have agreed to form an advisory committee include the Bishop of Kensington, Miss Lena Ashwell, Mrs. Creighton, Mrs. Fawcett, Miss E. Picton-Turbervill, Dr. Jane Walker and the Rev. W. Temple, D. D.

AMATEUR NURSES NEEDED.

The Oak Bay Friendly Aid requires the assistance at once of ladies to assist in nursing several urgent cases where the whole families are sick. The supply of professional nurses is entirely inadequate to take care of the calls on them. Will any persons who will give even a part of their time to relieve the distress please communicate with Mrs. F. D. Goepel, 1257 Hampshire Road, telephone 1900R. Soups and other like foods and also old clean linen is asked for.

"Della," began Mrs. Newlywed, timidly, "I don't suppose—er—that you would—er—object to my getting an alarm clock?"

"Not at all, ma'am," replied the sleepy cook; "them things never disturb me at all."

IN WOMAN'S DOMAIN

Social and Personal

Mr. and Mrs. E. H. Mitchell have paid a week-end visit to Vancouver.

☆ ☆ ☆

Mr. and Mrs. N. D. Sanford, of Regina, are registered at the Empress Hotel.

☆ ☆ ☆

Mr. and Mrs. P. McPherson, of Winnipeg, are staying at the Empress Hotel.

☆ ☆ ☆

Mr. and Mrs. R. J. Lydiatt, of Calgary, are at the Hotel Vancouver, and will visit Victoria and Portland before returning East.

☆ ☆ ☆

Miss Hazel Fleener and Mrs. Fleener have returned to Kaslo from Victoria, where they have been visiting Mr. and Mrs. R. F. Green, Rupert Street.

☆ ☆ ☆

Miss A. Wright, of Cumberland, will spend some time in Vancouver, after which she will come to Victoria, where she will train for a nurse.

☆ ☆ ☆

Mrs. Wm. Allison, of Victoria, has left to spend some weeks with Portland friends after being the guest of her mother, Mrs. A. H. McBride, at New Westminster.

☆ ☆ ☆

Owing to the prevalence of influenza the committee of the Victoria branch of the Engineering Institute of Canada have decided that the reception arranged for February 23 will not be held.

☆ ☆ ☆

The annual meeting of the Lady Aberdeen Chapter, I. O. D. E., will take place in the rooms, Jones Building, on Friday at 3 p. m. All members are requested to be present. Tea will be served after the meeting.

☆ ☆ ☆

Mrs. J. J. Johnston accompanied her husband to Victoria yesterday when he headed a deputation, as Mayor of New Westminster, to the Provincial Executive on civic affairs. They will return to the mainland to-day.

☆ ☆ ☆

It is announced by Mr. and Mrs. W. H. R. Lumber, 616 Gorge Road, that their daughter Maude Leona, is engaged to Dr. Esmond Leslie Pottinger, only son of Mr. and Mrs. D. R. Pottinger, 413 Vancouver Street. The wedding will take place at 2 o'clock at St. Andrews Presbyterian Church on March 3.

☆ ☆ ☆

A quiet wedding was solemnized yesterday at St. Mark's Church, Kitsilano, Vancouver, yesterday morning, when Miss Myra King Ellison, daughter of Mr. and Mrs. Price Ellison, of Vernon, and sister of Mrs. A. H. Sovereign, of Vancouver, was united in marriage to Howard C. De Beck, barrister of Vernon. The ceremony was performed by Rev. A. H. Sovereign.

NOT AFRAID OF HAMMER AND SAW

Proficiency in Carpentry Is Shown at Cheshunt College, England

How proficient girls can become in carpentry was shown a London Daily Chronicle representative who visited the college for working women at Cheshunt, an adjunct to the Browning Settlement, Walworth, London.

In the basement the carpentry class was seen at work, in a pleasant room a professional upholsterer was teaching students how to renew shabby furniture, and in the spacious garden others were digging or chopping up a felled tree for fuel.

"Of course girls can use joiners' tools if they are taught to," said Miss Lilian M. Chandler, the principal, as she opened the tool-box, in which the students keep the implements for repairing feats on the furniture and fittings of the college.

Genius for Sawing.

In the box were full sized calipers, saws, chisels, hammers, planes, a brace-and-bit, and so on.

"One of our girls has developed a positive genius for sawing," said Miss Chandler. "She steadies the bench with her knee in the approved style, has the steady, regular stroke of the professional, and can saw for an hour at a time without getting tired."

A spare attic is to be furnished by the students with products of the carpentry class. The girls will also clean and distemper the walls, do the necessary white-washing, and stain the floor.

The college has been established in two of seven houses with a Cranford aspect, which stands in the pleasant high street of Cheshunt and which were a gift to the Browning Settlement.

Mothercraft Lessons.

In one of the houses a sister scheme—a home for delicate children—has been set going, and the students have under their observation the little inmates as living illustrations to their lessons in mothercraft.

The making of happy homes, by widening the outlook and perfecting the abilities of the women who must make them, is the idea which pervades all the doings at The Greenhow.

One of the rooms, with its pleasant old-world air, has been furnished by Mrs. Barrett Browning, Robert Browning's daughter-in-law, as a library.

Here are pieces of well-made furniture with an air to them and, says Miss Chandler, the students love that room particularly, and will take away with them when they leave The Greenhow a tradition of the enduring beauty of simple, well-made things.

Household tasks are shared, and studies are arranged with an eye to a possible business career. Fifty pounds is the cost of a year of this pleasant preparation for a smoothly-running home life. Public men and associations have already arranged for several bursaries which are to be allotted to girls who would be likely to benefit by the special scope of the college.

V. O. NURSES GUARD HEALTH OF SAANICH

Work Done Throughout Municipality Reported at Annual Meeting

A little of what Victorian Order Nurses are doing in Saanich to better the well-being of residents in sparsely settled districts of the Municipality, came out last night at the annual meeting of the Saanich branch of the V. O. N. at the Tolmie School.

Here is a list of some of the work done by two Victorian Order nurses, assisted by two probationers since last August, as related last night in the report of Miss Jessie Forshaw, district superintendent:

Total cases nursed during the year, 572; medical cases, 436; surgical, 55; gynecological, 8; obstetrical, 32; infants from obstetrical cases, 29; prenatal cases, 19; chronic cases, 14; tubercular, 8; infectious, 255; grand total number of visits, 3,522; casual visits, 203; prenatal visits, 107; visits to schools, 73; social service visits, 180; child welfare visits, 127; collection visits, 46; cases requiring more than one visit, 525; general fees amounted to $381.55; Metropolitan fees, $572; grand total amount from fees, $953.35; 58 night calls, 29 operations, 27 confinements, 341 Metropolitan visits; cases operated on at the health centre, 20; students trained during the year, 3.

Mrs. V. S. MacLachlan, president, and R. R. F. Sewell, treasurer, were re-elected by acclamation. Other officers elected are: C. B. Jones, vice-president; Mrs. Raven, honorary secretary: These with a representative of the Saanich Council and the School Board will form the directorate.

Means for increasing membership and funds were discussed by Nurse McRae, the Rev. C. R. Littler, James Owens, Hector S. Cowper, M. Hancock, Mrs. Raven and M. Raven.

Financial Showing.

Treasurer Sewell's annual statement is:

Receipts, from February to December 1919, were: Saanich School Board, $800; Saanich Council, $2,100; headquarters Victorian Order of Nurses, $2,000; miscellaneous grants from Women's Institutes, Cottage Gardners' Association, 140.29; Metropolitan Insurance fees, $572; nursing fees collected, $331.55; membership fees, $32; cash on hand February 1, 1919, $41.74.

Expenditures, February to December 31, 1919: Nurses salaries, $1,809.60; auto expenses (including new car), $1,444.80; telephone, $89.68; health centre furnishings, $5,811.72; drugs, $60.56; health centre running expenses, $901.59; miscellaneous, stamps, stationery, etc., $29.23; rent, $290.02; cash on hand, December 31, 1919, $390.40.

Assets: Two motors, $1,200; furniture, $976.86; cash bn hand, $800.40. Total, $3,067.26.

Liabilities: Bills unpaid, $1,196.87; balance assets over liabilities, $1,860.39. Total, $3,067.26.

MISS THOMPSON IS MARRIED TO MR. HUGHES

A pretty wedding took place yesterday when Miss Margaret Gertrude Thompson was married to Harry S. Hughes. Miss Thompson was attended at St. Michael's Church, Saanich, by Misses K. Fraser, B. Thompson, and L. Bissett, all nieces of the bride. C. D. Vincent accompanied the groom. Both groom and best man were in naval uniform. Rev. William Barton, of North Saanich, officiated.

The bride was given away by Dr. R. L. Fraser. She wore a dress of charmeuse satin, with silver lace, and pearl ornaments. The train was weighted with orange blossoms. To match orange blossoms were the decorative feature of the hat. She carried a bouquet of white orchids and pink rose buds, with maiden hair fern.

The bridesmaids, who were prettily garbed, carried old-fashioned bouquets of violets, pink rose buds, and maiden hair fern, tied with purple cord.

Mrs. Butterfield, the organist, played suitable selections.

NEW OFFICERS OF COLLISHAW CHAPTER

The Colonel Ray Collishaw Chapter, I. O. D. E., held the annual meeting for the election of officers Monday night, and the transaction of general business including the receiving of the secretary's and treasurer's reports. The officers elected were as follows: Hon. Regent, Miss L. Caldwell; Regent, Mrs. R. T. McPhee; 1st vice-Regent, Miss S. Hardy; 2nd vice-Regent, Miss J. Pollard; secretary, Miss Elizabeth Waugh; Echoes secretary, Miss L. Stewart; educational secretary, Mrs. W. W. Lewis; treasurer, Miss Teague; standard-bearer, Miss Edna Cunningham; councillors, Mrs. F. S. Cunliffe, Miss Jean Patterson, Miss F. Cook, Miss Cissily Freeman, Mrs. J. B. Hodgins, Miss Sampson, Mrs. Shirass, Miss M. Freeman, Mrs. Gill and Miss Caldwell.

Miss M. E. Livingstone

THE BETTER WAY TO TAKE CARE OF FLOORS

AN O-Cedar Polish Mop will free you from the hardest of all house-work—the dusting, cleaning and polishing of floors. With this Mop you dust, clean and polish, all at one operation. The O-Cedar Polish Mop collects all the dust—and at the same time gives the floor a high, dry, lasting polish.

The O-Cedar Polish Mop makes it easy to clean those "hard-to-get-at" places. No more moving heavy furniture—no more climbing to dust the tops of doors—the O-Cedar Polish Mop relieves you of all this back-breaking work. The satisfaction it gives, is due to the O-Cedar Polish with which it is treated—a Polish unequalled for cleaning and beautifying all furniture and wood-work.

O-Cedar Polish Mop—round or triangle—price $1.50. The handle—54 inches long—is 25c. extra. O-Cedar Polish, 25c. to $3.00 sizes. Both at your Hardware or Grocery Shop.

CHANNELL CHEMICAL COMPANY, LIMITED, TORONTO

WOULD SUBSTITUTE INCOME TAXATION

Board of Trade to Discuss Demerits of War Profits Tax

The adjourned monthly meeting of the Victoria Board of Trade is called for Friday next at three o'clock. Two questions of considerable importance are on the agenda paper. The first is in connection with the Business Profits War Tax Act, which expired on the last day of the old year. A resolution asking for the re-enactment of the measure will be considered along with an amendment to a contrary effect. The amendment cites reasons why the Act should not be revived.

The Council of the Board of Trade had the matter under consideration recently and resolved in favor of allowing the measure to lapse, placing in its stead a scale of graduated taxation. The proposed scale of taxation would be based upon straight incomes. This was one of the matters under discussion recently at the conference of the Provincial Boards of Trade, when it was decided that the question should be relegated to the local Boards of Trade for final discussion.

Another question to be taken up at the meeting on Friday is the provision by the Federal Government of a Purchasing Board. A bill was brought down in the House at the last session providing for the course. A resolution will be considered by the local Board urging that this bill be re-introduced and passed.

The War Profits Act and the Purchasing Board matter being of general interest the secretary has requested that a large attendance be on hand on Friday.

CONSIDER SHORTAGE OF LUMBER IN CITY

To discuss the difficulty of securing lumber with which to carry on building operations in the city, a public meeting will be held in the City Hall next Tuesday afternoon. The meeting has been called by the Victoria Real Estate Exchange. It is probable that, as a result of the gathering, a deputation will be sent to interview the lumbermen of the city with a view to inducing them to lower the price of lumber for local consumption. Mayor Porter will preside.

I. W. W. TRIAL.

TAX EXEMPTION SHOULD BE WELCOME

Dr. McIntosh Says Government Should Meet Request For Soldiers' Exemption

Legislative Press Gallery,
February 17.

Continuing the debate on the Hawthornwaite resolution this afternoon, Dr. J. W. McIntosh, Leader of the Soldier Party, stated that Premier Oliver was unjustly robbing the returned men of the credit due them in initiating community settlement projects in this Province, and also the undertaking of industrial enterprises. He referred to the report of the select standing committee of last year on soldier rehabilitation matters, and said apparently the Premier had forgotten all about this report. It had been allowed to stand for a year with nothing done, and now the matter was again being shelved.

He characterized the Premier's address on the resolution as an "able brief," but said it was inadequate. The doctor was of the opinion that the people of British Columbia were anxious to pay their debt to the soldiers and the soldiers' dependents, and that it was a privilege and not a duty to step in and relieve them of this burden of taxation. He maintained the Premier's statement with regard to their being inequities in the proposed arangement was all wrong, referring to the fact that the Government was granting a rebate of $500 to men taking up land, when as a matter of fact many of these men were not at all needy. There was inequality, he averred.

"These taxes piled up while the men were fighting the country's battles in Flanders," said the colonel, "and the least you can do is to wipe them off."

The Premier had suggested the withdrawal of the resolution, stating that some arrangement might be made with the Soldiers' Aid Commission. The doctor thought this only a promise, which might not be worth much to the returned men. Further, he said, the Government secured considerable prestige after passing the report of the select committee of last year, but this prestige had not been earned, since nothing had been done, he said.

"Here is one more chance for the Government to make good," he concluded, "not from duty but as a privilege."

FOUR PRESBYTERIAN CHURCHES GET QUOTA

Four Presbyterian churches went over the top of their quota to-day in the Forward Movement drive, according to an announcement from Thos. S. Baynes, campaign director, this afternoon.

St. Andrew's Church, under Dr. Clay, heads the list of $10,000.

Other Presbyterian churches which have passed their objectives are: St. Paul's, Victoria West, $3,150; Knox, $910; Mount Tolmie, $650.

Up to noon $3,000 had been collected in the drive of the First Presbyterian Church for $8,000, James Lowden announced this afternoon. Only a few canvassers have yet reported.

ROYAL VICTORIA

Aesop was a wise old fable writer, but when he wrote the fable of the fox and the grapes he had never seen a Kentucky fox, nor had he seen the picture, "In Old Kentucky," featuring Anita Stewart, which will be shown at the Royal Victoria Theatre again to-day. If he had we never should have been indebted to him for the fable which has become a classic.

For in Aesop's fable the fox could not quite reach the grapes, after which he pulled the old saw that they were sour anyhow. If it had been a Kentucky fox, he would not have stopped with just reaching for the grapes. He would have shinnied up the vine after them. For Kentucky foxes actually can climb. You will see this done in the picture "In Old Kentucky," and it is an actual occurrence. Chased by dogs in a great fox hunt, this fox takes refuge in the lower limbs of a tree, to which he scrambles without much difficulty, just out of reach of the hounds.

DOMINION

Appearing in the stellar role of "The Career of Katherine Bush," a splendid Paramount-Artcraft Special picturization of Elinor Glyn's famous novel of the same name, which is showing at the Dominion Theatre, Catherine Calvert, the beautiful and talented star, has one of the strongest roles of her screen career.

In this picture, which was directed by R. William Neill, Miss Calvert is seen as Katherine Bush, an ambitious young woman who begins her career as a typist and succeeds in wedding the Duke of Mordryn, a member of the British Parliament, after a turbulent courtship. The photoplay fairly bristles with action and the various situations are unusually thrilling and appealing.

Miss Calvert is an actress of exceptional dramatic force and beauty. She has appeared in numerous photoplays and her stage career has been quite successful. Her husband was the late Paul Armstrong, a well-known playwright, and she appeared in several of his plays in New York with great success. She is a finished artist and her character portrayals are truthful, sincere and effective.

The continuity of "The Career of Katherine Bush" was written by Kathryn Stuart, a well-known scenarist, and her work is said to have been finely performed, the result being a picturization of remarkable attractiveness. The cast assembled by Director Neill is one of the finest ever employed in a photoplay. The principal players include John Goldsworthy, Fred Burton, Craufurd Kent, Mathilda Brundage, Helen Montrose, Ann Dearing and Augusta Anderson.

VARIETY

An automobile horn that plays a Japanese musical motif, or theme, has been recently sprung on the Pacific Coast motion picture colony by Sessue Hayakawa, the Japanese star, whose Haworth production, "The Man Beneath," is at the Variety Theatre this week. The weird strains of this theme intoned by the siren-horn on Payakawa's big touring car can be heard for miles in the open. "I am very fond of my native music," said Hayakawa when seen during the production of "The Man Beneath," his most recent production, "and sometimes get lonesome for the songs of my childhood. The theme which I use on my siren is a fragment of an ancient Japanese melody, a love-lay indited by the Mikado Temmu in the seventh century and still sung in Japan."

COLUMBIA

One of the many recent picture plays is entitled: "Enlighten Thy Daughter," which is the attraction at the Columbia Theatre this week. It points out the pitfalls of life. It goes into details that are not only intensely interesting and dramatic, but which are of extraordinary value to uninformed girls. It shows how a young girl can love, not wisely but too well. And the victim of the story, when she is about to die in her wretchedness, says to her mother: "It is all your fault. Why didn't you tell me?" As the Rev. Thomas B. Gregory, in his description of the play, says: "This girl told her mother God Almighty's own truth."

ROMANO

Dulcie despaired ever of distracting Orrin from the stage favorite who monopolized his attentions and his affections, so Fate directed that she slip when walking with him and sprain—and display—a beautiful foot and ankle. And then the war was on between Dulcie and Dawn, and of course Dulcie won, after she had proved the other girl a beautiful impostor. This remarkable antic of Cupid is delightfully portrayed in the Vitagraph picture, "Miss Dulcie From Dixie," which is the attraction in the Romano Theatre to-day. The picture is adapted from the widely read novel of the same name by Lulah Ragsdale, and was directed by Joseph Gleason. In the supporting cast are Charles Kent, Arthur Donaldson, James Morrison and Julia Swayne Gordon.

PANTAGES

One of the genuine comedy features of the current bill of Pantages vaudeville is the offering of the well known character comedian, Ed Blondell, assisted by Miss Lela Bliss. "The Boy From Home" is the title of their sketch, which is the story of a country boy who found himself unexpectedly in the highly luxuriant atmosphere of a city dweller. Ed's country boy delineation is a vaudeville classic and the comedy of the offering is wholesome and satisfying. The headliner of the bill is the production of a dozen Southern darkies who are seen in the syncopations of the melodies for which their clime has become noted. The act is full of life of the jazzy kind, and is well received by the audiences. The Superlative Three are nifty dressers and splendid harmony singers; The Act Beautiful is a posing offering of rare delight, and Mary Ann is a sweet young girl who makes her way into the hearts of the audience with song and manner.

— Economic — Life-Saving Plans

By W. L. Edmonds, in The Toronto Globe.

An outstanding feature, varying only to the extent with which it was dealt with, of the annual addresses delivered during the last week or two by the executive heads of Canadian banks was the emphasis laid upon the necessity of employing a larger measure of co-operative effort on the part of Capital and Labor in respect to the production of merchandise. Coming from men whose fingers are continuously on the pulse of industry, their counsel is well worthy of attention. They speak as experts who understand the beating of the industrial pulse.

"The economic problem demands," wrote Mazzini over half a century ago, "first and foremost, an increase of capital and production." That this advice is applicable to the conditions obtaining in Canada to-day can be no doubt. It is the root matter of our necessities.

The Still-Increasing Debt.

Canada's financial problems are greater to-day than they have ever been. The net public debt at the end of December was $1,838,131,058, compared with $1,330,228,898 the corresponding month of 1918, and $336,000,000 at the end of the fiscal year 1914. By the end of March, when the present fiscal year closes, the net will probably be approximately $2,000,000,000. Naturally, there has also been a marked increase in the annual interest charges which the country is compelled to pay on the money it has borrowed. Without taking into account those entailed in the loans floated at home during the last five years, the interest charges on foreign borrowings now amount, according to an estimate made by Sir Edmund Walker, to $190,000,000 annually, of which $125,000,000 is payable in Great Britain and in Europe, and $65,000,000 in the United States. The General Manager of the Bank of Montreal recently estimated the total at a round $200,000,000. Five or six years ago Sir George Paish, during the course of an address before the Canadian Club of Toronto, estimated the total at $130,000,000.

Production Decreasing.

And yet, in spite of the need of greater production, it is estimated that the quantity output of the factories of the Dominion is little, if any, larger than it was immediately preceding the outbreak of the war, due not to the want of demand, for that is much in excess of the supply, but to the scarcity of labor and the general unrest obtaining among industrial workers.

True, all clearing-house and trade returns show higher figures in money, but as Sir Edmund Walker pointed out in his annual address to the shareholders of his bank, "these generally represent transactions based on smaller quantities of merchandise." Those who fail to recognize this are, to quote the same authority, "living in a fool's paradise."

While the low and high prices ruling on the British pound sterling and the American dollar respectively may not be directly related to the measure of production that the Dominion is experiencing, but are the effect of external trade conditions and the credits which are being accorded France, Belgium, Greece, Roumania, and to some extent Great Britain, for the purchase of manufactured goods, yet the remedy for the modification of the abnormal rates of exchange obtaining undoubtedly lies in an increase in the output of the factories and farms of the country. The more we produce, the more merchandise we naturally have both for the home and the foreign trade. And it follows that the more we have for the home trade, the less do we need to import—a very necessary thing just now, and particularly as far as imports from the United States are concerned — while, on the other hand, by increasing our export trade we assist in the liquidation of the heavy interest charges on foreign borrowings. Increased production is, likewise, the only factor that will give prices a downward turn.

In view of its wide-reaching effects upon the financial and industrial life of the country, it is anything but surprising that so many financial leaders should, in these critical times, lay such emphasis as they are doing upon the importance of co-operative effort on the part of Capital and Labor for the specific purpose of increasing the output of farm and factory. As one of them aptly put it: "If the call is to man the lifeboat, we do not wait for academic discussion before the boat is launched on its life-saving mission, and too much argument between Capital and Labor is madness in view of what we seek to save."

CONDITIONS OF WORK THROUGHOUT CANADA

Employment Service of Dominion Shows January Conditions Better

The Employment Service of the Department of Labor reports that returns from the Dominion and Provincial offices of the Employment Service of Canada for the week ended January 10 show an increase in placements as compared with the returns of the preceding week. During the week the 92 offices reported that they had referred 6,699 persons to regular positions, and that 5,808 of these had received employment. This represents an increase of 1,679 placements as compared with the preceding week, when 4,129 persons were placed. In addition 1,047 casual jobs were supplied, as compared with 954 during the week ended January 3. The placements for the week were distributed as follows: Prince Edward Island, 9; Nova Scotia, 118; New Brunswick, 222; Quebec, 479; Ontario, 2,301; Manitoba, 592; Saskatchewan, 479; Alberta, 625; British Columbia, 983.

During the week 14,020 applicants were registered, of whom 794 were women and 13,226 were men. This repsents an increase of 1,830 in registration when compared with the 12,140 applicants of the week preceding. The number of vacancies notified by employers during the week totalled 6,942, of which 995 were for women workers and 5,947 for men. This shows an increase of 2,243 when compared with the 4,699 vacancies notified during the wee kended January 3, and represents in some measure a recovery from the decline due to the annual stock-taking period. The number of applicants unplaced at the end of the week totalled 24,244, while the number of vacancies remaining unfilled was 11,902. The increase in the number of unplaced applicants represents largely registration in connection with the Federal Emergency Appropriation Act. Of the placements in regular employment 463 were women and 5,345 were men. The number of returned men reported as plated was 2,344.

Of the placements in regular employment nine were reported by Prince Edward Island offices, three within the Province and six in other Provinces, as compared with a total of thirteen the preceding week; 118 by Nova Scotia offices, 115 within the Province and three in other Provinces, as compared with a total of 115 the previous week. New Brunswick offices reported 222 placements, 219 within the Province and three in other provinces, as compared with 147 the preceding week. Placements reported by the Quebec offices totalled 479, of which 433 were within the Province and fortysix in other Provinces, as compared with a total of 328 the week previous. Ontario offices reported 2,301 placements, 2,287 of which were within the Province and fourteen in other Provinces. This compared with a total of 1,454 placements made during the preceding week. The Western Provinces reported placements as follows: 592 by Manitoba offices, 442 within the Province and 150 in other Provinces, as compared with a total of 502 the previous week; 479 by Saskatchewan offices, 427 within the Province and fifty-two in other Provinces, as compared with 377 the preceding week; 625 by Alberta offices, all within the Province, as compared with a total of 493 the previous week. Placements reported by the British Columbia offices totalled 983, all within the Province, as compared with 700 during the week ended January 3, 1920.

AUCTION-GOLF

A TOPPING DAY'S SPORT AT ST. ANYWHERE.

By L. Godfrey-Turner in The London Daily Chronicle.

Do you play auction? Then you must come for a day's golf at St. Anywhere's. It is really a magnificent course. Although it was only opened six months ago, there are already 22 tables in the card room; and soon there will be more—perhaps 30, for plans were passed at the last meeting for the extension of the room by taking in the shed which some silly ass of a builder put up for the repairing of clubs.

Old Buggins is a fine player. Such a style. Never seems, to be off his game. Bit of luck sometimes, of course. But, then, he's rich, and the rich never seem to lose. You should know him. He's a bit vulgar, perhaps; but he has not been rich long, and I don't think his valet has begun to assert himself yet.

Excellent Cusine, Finest Wines.

The grub is another feature. One hears a lot about the chef at St. Somewhere's, but he's not a patch on ours—not even a darn. I forget what we give him. Something enormous. But he's worth every hundred quid of it, anyhow. And as to wines, you couldn't pay more for them if you were posing as an American millionaire at the Ritz or Claridge's. They are simply heavenly. So are the cocktails. Max is an artist in cocktails—(he is from Switzerland, of course)—and one of the sights of the club is to see him mixing them against time. He's hot stuff, is Max.

The Labor Question.

What do the caddies say? Well, there's not many caddies to say anything—only about 40, anyway. Shortage of labor, you know. Men wanted for all sorts of bally things now, they tell me. Agriculture, house-building, and all that sort of rot. They don't get the tips they used to, of course, but they manage to make up pretty well, I hear, with their unemployment pay. Hard on the country? Hang it all, man, they'd be no good in the cardroom, and we'd certainly not fancy them as waiters.

Came along to-morrow with me. Don't worry about Buggins if you think he might be likely to get on your nerves. He's not everybody's taste. But he's a new auction-golf type, and rather interesting. The grub I know you'll like—and the cocktails—and the fine cardroom. Yes you might as well bring your clubs. You never know.. And they'll be taken great care of for you while you're there.

WILL ISSUE DATA ON MINERAL SUPPLY

Monograph on Manganese Ores Has Been Prepared

The Mineral Resources Committee of the Imperial Institute, of which Viscount Harcourt has succeeded the late Viscount Rhondda as chairman, has arranged for the issue of a series of Monographs on the Mineral Resources of the Empire, of which one on zinc ores has already appeared. Others on manganese ores and tin ores are now being published by Mr. J. Murray. The Monograph on manganese ores has been prepared under the direction of the Committee by A. H. Curtis, B.A., F.G.S., and that on tin ores by G. Davies, M.Sc. (Lond.), F.G.S., of the staff of the Imperial Institute. In each case the book is arranged in three chapters.

The first gives a brief survey of the occurrences of the ores and of the characters and uses of the metals. The second chapter deals fully with the sources of the supply within the Empire, and the third describes shortly the deposits in foreign countries. The Monographs conclude with a bibliography of the principal publications of the subjects dealt with. The Monographs are published at 3s. 6d. net. Owing to its extensive employment in the manufacture of iron and steel, manganese was in great demand during the war.

World Supplies.

Unfortunately, there was a serious shortage of manganese ores, as supplies from the Caucasus, the chief producer, was shut off, and shipping facilities restricted the amount available from India, which ranked second to Russia as a producer of manganese ores. At the present time the output from India is increasing, and Brazil has enormously enlarged its production, but in view of the disturbed conditions still prevaling in Russia, there is likely to be a continued shortage of the ore there for some time to come, particularly of the higher grades now required by metallurgists and in chemical industries. Several additional sources are indicated as possible contributors to the world's supply in the future.

The Empire is favorably situated as regards supplies of tin ore, and at the present time between 50 and 60 per cent of the world's output is obtained from British countries. Moreover, it holds a controlling influence in the industry of tin smelting and refining.

Federated States' Output.

The Federated Malay States is the most important tin producing area in the world, and most of its output, together with ore from Siam, the Dutch East Indies, South Africa and other countries, is smelted in the Straits Settlements. Bolivia and the Dutch East Indies are the chief foreign producers of tin ore. Owing to the war the German tin smelting industry has practically ceased, and another result of the war has been the establishment of a tin smelting industry in the United States, which country consumes 40 per cent, or more, of the world's output of tin. Among British sources of supply of tin in the future, Nigeria is specially referred to.

ADVISES AMERICANS TO LOOK SOUTHWARD

New York Review Points Way to Latin Americas

The dominant need of the moment —the husbanding and careful distribution of American credit for the reconstructive necessities of the world—is emphasized in the current issue of "American Goods and Foreign Markets," the semi-monthly review of the Guaranty Trust Company of New York on foreign trade. This need, says the review, is thrown into sharp relief by the recent action by the Federal Reserve Bank of New York in raising the rediscount rate on commercial paper to 6 per cent., the heavy over-subscription of the $25,000,000 Belgian loan, further marked declines in foreign exchange, and the bid for North American capital made by the Latin American countries at the second Pan-American financial conference. The review goes on:

The Latin American Field.

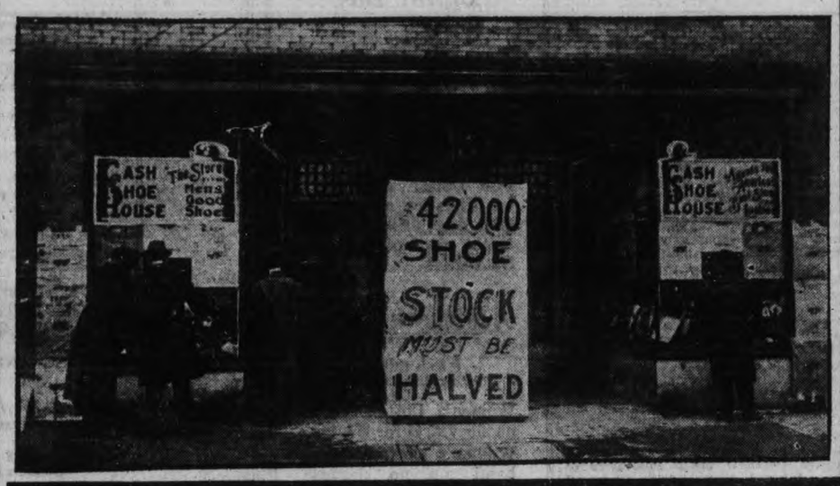

"The entry of Latin America into the field as a prospective borrower, only adds completeness to the picture. Our attention has been centered chiefly on European needs and prospects, with the expanding prospect in Asia as a rather alluring background. Now our most immediate neighbors have placed before us their programmes of new construction and internal improvements of all sorts. These countries in the past have looked largely to Europe for funds. Heavy investments of British and German funds in Latin America, followed by close shipping relations, and the establishment there of large buying market for British and German goods, illustrated very effectively the immediate result of organized investment. But Europeans credit facilities are now strained to the limit by domestic needs. If the United States conserves its credit resources carefully, it will be able to take advantage of the needs of Latin America, to extend and improve shipping facilities, as the Latins themselves request, and to build on this foundation the substantial trade which the quality of our manufactures merits. Here as elswhere the task is to maintain in New York a free gold market, and, within the limits of good banking practice, a free credit market.

Combining For Foreign Trade.

"A more detailed but equally essential demand of the present situation is the adequate combination of American exporters for effective selling in foreign markets. The Webb-Pomerene law has released this country from previous legal restrictions, and made possible forms of combination quite as effective as those hitherto adopted in Germany, England, and elswhere. More than one hundred organizations of American exporters have filed papers with the federal trade commission since the passage of the Webb law, indicating their intention of combining in this way. They will achieve a double result. First, they will be able to compete with European selling organizations in Latin America, the Far East and other outside markets. Second, they will be able to oppose a united front to all attempts of European buying combinations to depress American export prices through playing one American concern against another."

POTASH DEPOSIT TO BE EXAMINED

Mining Engineers Will Leave For Kyuquot Sound This Week

The presence of potash in alunite deposits at Kyuquot Sound has received considerable attention following the remarks of Premier Oliver last fall. A company with offices here contemplates extensive developments in the district.

Announcement is made that an official investigation has been ordered by Hon. William Sloan, Minister of Mines, into the character of the deposits. W. M. Brewer, mining engineer for the western district, and P. B. Freeland, mining engineer for the southern district, will leave on Friday for the West Coast, for the purpose of making a thorough inspection of the deposits. It is the intention to take fairly large samples away for the purpose of analysis, to ascertain if potash exists in commercial quantities.

Keep Your Throat Germ Proof

Infectious diseases are almost always contracted through the throat. Keep your throat germ proof by the frequent use of Meridac Antiseptic Solution. May be used either as a gargle or spray.

VICTORIA SHUNTED AGAIN

Does Not Receive Any Mention in Official Programme of Prince's Tour.

Either some one in the C.P.R. did not consider the welcome accorded H.R.H. the Prince of Wales by Victoria of sufficient consequence or importance or some of its officials in London are unaware that there is such a community as the capital of British Columbia, as it failed to include the name in the souvenir programme which was issued when the special films were shown in the Old Country recently. The names of all the cities and small towns from Halifax to Vancouver are given but Victoria was omitted. Penticton, Kelowna, Kamloops, Revelstoke, Vernon, Nelson, Balfour, Golden and Vancouver all have their appointed place in the Bristol programme, but the capital is shunted out of the limelight.

The film which was taken by the C.P.R. to reveal to the English people the triumphant tour of the Prince, is 7,798 feet in length. Some explanation of the omission should be forthcoming.

HARRIS OPENS FIGHT FOR NON-GLARE LAW

Other Organizations Telegraph, Backing His Campaign

Motorists headed by Charles L. Harris, Secretary of the Island Automobile Association, were working at the Parliament Buildings to-day to secure the passing by the British Columbia Legislature of a law against glaring headlights.

"This matter has already been taken up by us," telegraphed the Vancouver Automobile Club. "We thoroughly endorse reasonable protection and preventive legislation, and much appreciate your personal appearance before the executive. We support the enactment based on the California law."

"We strongly endorse the non-glare law which the Automobile Association is endeavoring to have passed at this session," telegraphed the Nanaimo Automobile Association.

It was also announced that Mayor Johnston of New Westminster is to join with Mr. Harris and take a leading part in the fight for the law. Mr. Johnston is now in the city.

"Our best bet is you," is the message the Hoosier Motor Club sends to Mr. Harris from Indianapolis.

Another message has come from the Detroit Automobile Club.

INCREASE IN CITY TAXES IN PROSPECT

Rate Probably Will Have to Be Raised Unless Government Aid Secured

Unless the Provincial Government finds itself able to allow the city considerably increased sources of revenue it is almost certain that the tax rate in Victoria will be increased substantially this year.

While the City Council has not had an opportunity of giving the year's finances any attention yet, the provisional estimates for the annual expenditure are so large that they will force a material advance in the tax rate unless outside aid is secured.

The School Board estimates alone will raise the rate over two mills. The provisional estimates which the Council will consider when it convenes in special session to-morrow night are practically the same as those of last year, but before the Council is finished considering them they may be entirely altered. It is possible that they will be augmented somewhat by increases in civic salaries. A number of aldermen are known to favor such increases and there is little doubt that this matter will raise a sharp issue in the Council. On the other hand, it is probable that the Council will exercise the utmost economy in every direction possible.

Local improvement adjustments as provided for by the Local Improvement Commissioners form another difficulty which faces the Council. Under the recommendations of the Local Improvement Commissioners, the city must take upon its shoulders probably $2,000,000 of the burden imposed by local improvement taxes on property owners on various streets in the city. And the city must commence to pay off this sum this year. It is out of the question to attempt to raise this year's payment out of general taxes, so that borrowing, in all probability, will be necessary. The city must retire a number of local improvement debentures this year, and it is probable that the Council will not go further than to float other debentures as these are retired for the purpose of paying off the local improvement relief. Any further measure, the aldermen have been told, would be impossible.

And while it is faced with these expenditures, the Council has before it a recommendation of the 1919 Council that it cut the tax rate down to twenty-five mills this year from the twenty-six mill rate of last year. The aldermen of this Council, most of whom were in the 1919 Council which made this recommendation, are wondering how they are going to carry out their own advice. It is generally admitted, indeed, that it will be impossible to keep the tax rate down to the level of last year without reducing it, unless substantial relief is granted by the Provincial Government.

Mayor Porter, who opposed this recommendation, remarked when discussing the matter this morning: "If the aldermen who made this proposal can keep the rate down they are welcome to do it. Let them show us the way by all means. Our hope lies in the Government. We have been hanging on and delaying our estimates until we have got to act immediately, but we have had no word as to what relief we can expect in the way of increased revenue."

OBITUARY RECORD

The death occurred last evening at his home, 324 Menzies Street, of Frank Allan Dunbrack, beloved husband of Mrs. Maude Dunbrack, born in St. John, N. B., and a resident of this city for the past ten years. He resided on the West Coast for some time before coming to Victoria, and the news of his untimely death will come as a great shock to his many friends. He is survived by his widow, of this city; two sisters and one brother, Mrs. F. E. Holman, Miss Winifred Dunbrack and Charles Dunbrack, all residing in St. John, N. B., and two brothers in the United States. The funeral will take place on Friday at 2 o'clock from the Sands Funeral Chapel. The Rev. Joseph McCoy will officiate, and the interment will be made at Ross Bay Cemetery.

The death occurred on Monday evening at the home of her daughter, Mrs. H. McKenzie Cleland, M.D., 1470 Rockland Avenue, of Catherine Chambers, aged 87 years, a native of Kingston, Ontario, and a resident here for the past six years. She is survived by one son, Dr. W. J. Chambers, of Toronto; Mrs. W. L. Holmes, of Victoria, and Mrs. H. McKenzie Cleland, M.D., of Victoria. A funeral service was held yesterday afternoon from the Thomson Funeral Home Rev. H. S. Osborne officiating, after which the remains were forwarded to Port Elgin, Ontario, for interment, Dr. Cleland accompanying the remains.

The funeral of Emma Denholm, who passed away last Saturday at the Isolation Hospital, took place yesterday afternoon from the Sands Funeral Chapel. The service was largely attended by relatives and friends and the numerous beautiful flowers testified to the high esteem in which the deceased young lady was held. Rev. S. Cook conducted an impressive service and the hymns sung were "Nearer, My God to Thee," and "Jesus, Lover of My Soul." The following acted as pallbearers: J. Godfrey, R. W. Whaley, E. A. Gallup, George Ozard, Lee Adamson and M. C. Sands. The interment was made at Ross Bay Cemetery.

The death occurred last evening at the Royal Jubilee Hospital of Charlotte Ethel Duplain, beloved wife of Alfred Duplain, of 2639 Blanshard Street. She was 21 years of age, born in Victoria and is survived by her husband and an infant daughter of this city, and her parents, Mr. and Mrs. A. C. Grayson, and three brothers and two sisters, all residing in Vancouver. The funeral will take place on Thursday at 10.30 o'clock from the Sands Funeral Chapel. The interment will be made at Ross Bay Cemetery.

The funeral of the late Miss Jean Hears took place yesterday afternoon from the B. C. Funeral Chapel, where an impressive service was conducted by the Rev. Mr. Thompson. There was a very large attendance and a beautiful floral offering covered the casket and hearse. Two hymns were sung, "Jesus, Lover of My Soul" and "Forever With the Lord." Among those attending were employees of The Daily Times, where Miss Hearns was employed up till the time of her death. The remains were laid to rest in Ross Bay Cemetery. The following gentlemen acted as pallbearers: Albert Richmond, Frank Richmond, Lawrence Quarmby, Harold Quarmby, Thos B. Dempster and H. Lauder Ramsay.

The funeral of Mrs. Florence Smith, who passed away at her home last Thursday, took place yesterday afternoon at 3.30 o'clock from the Sands Funeral Chapel. The service, which was conducted by the Rev. Robert Connell, was largely attended by relatives and friends and the casket was covered with a profusion of beautiful flowers. The hymns sung were "Nearer, My God, to Thee," and "Jesus, Lover of My Soul.' The following acted as pallbearers: F. Ivings, J. Clark, J. Bayliss, J. G. Dobbs, W. E. Hall and J. H. Lewis. Interment was made at Ross Bay Cemetery.

BRIEF LOCALS

Girls' Corner Club.—There will be no meeting of the Girls' Corner Club this week on account of the prevailing sickness. The members expect to have a rally or reunion meeting later.

☆ ☆ ☆

Meeting Postponed.—Owing to the prevalence of sickness it is deemed advisable to postpone till a future date the lecture by Prof. Stevenson, announced for to-morrow evening in the Temperance Hall at Keating.

☆ ☆ ☆

Prairie Reunion to be "Mammoth."—No more blizzard reunions of Prairie people will be held here until health conditions improve, it was decided last night at the meeting of the Prairie Club, attended by Commissioner McAdam of the Victoria and Island Development Association. The next reunion after things clear up a bit, is to be "mammoth" it was announced.

Paardeberg Day—To-morrow evening, Thursday, the tablet in the Armory dedicated to the memory of those who fell at Paardeberg will be decorated with all ceremony by the British Campaigners' Association. Mr. Winkel and Rev. A. G. Wells will deliver addresses.

☆ ☆ ☆

To Enliven Meetings.—At the same time that they signified their intention of discussing political matters, the local branch of the G.W.V.A. decided to form a Mock Parliament. It was also suggested that the organization form a debating society, which was left over to a later meeting.

☆ ☆ ☆

Elect Further Officers.—Comrade Lorne Ross was elected chairman of the Pensions Committee of the G. W. V.A. last night, while Comrade Axon was given the lead of the Resolutions Committee. Three committee men required "From the Floor of the House" were chosen as follows: Comrades Holmes, Scott and Clearihue.

ABSCONDING CASHIER ARRESTED AT BOISE

The fugitive cashier of the Provincial Police Department at Vancouver, Joseph C. Cook, has been arrested at Boise, Idaho.

Departing from the Terminal city last January with defalcations alleged to amount to $3,500, Cook left a wife and family behind him. A reward of $1,000 was offered for information leading to his arrest.

Deputy Attorney-General Johnson received word this morning that Inspector Owen left Vancouver at 9.30 last night to go to Boise for Cook, whose identity has been firmly established it is stated. Cook was arrested by Inspector Tweedale at Boise.

☆ ☆ ☆

New Civic President.—Frederick V. Ramsdale has been elected president of the Civic Employees' Protective Association in succession to Isaac Byers. Mr. Byers voluntarily abandoned the presidency, and accepted the post of secretary-treasurer.

☆ ☆ ☆

Roof Fire This Morning.—A roof fire at 980 Heywood Avenu gave the department a run this morning. The blaze was quickly subdued, and very little damage resulted. The epidemic of false alarms has ceased for the present.

☆ ☆ ☆

Information Sought.—Anyone having information as to the whereabouts of Edward James Murphy, of Barrie, Ontario, is requested to get in touch with his mother, Mrs. Murphy at 40 Bay Street, Barrie, Ontario, who is seeking news of her son.

☆ ☆ ☆

In the City Courts.—James Barclay, charged with having liquor in other than a private dwelling, was remanded in the police court this morning; a second charge of assaulting a police officer was also held over. Gordon Temple and Frank Turker, both charged with having beer of over legal proof percentage, were fined $50 each. Mr. J. A. Aikman entered a plea of guilty in both cases, the principals not being in court. David Murray charged with having spirit of over legal proof, was dismissed, it being proved that on further analysis the spirit was within the regulations of the law. The case of Christopher Thomson and Mrs. Andrews was remanded again for a period of a week. The session this morning lasted but three minutes. Magistrate Jay is confined to his bed with a cold, and his place was taken by W. W. Northcott, J. P.

GOOD PROSPECTS FOR FOURTH FAIR

Netherlands Exhibition Will Be Representative of Dutch Industry

The fourth annual industrial fair of The Netherlands will be held early this Spring. The fourth is the first to be held in the permanent building especially erected for the purpose of holding these fairs in the future, as the three previous ones have been so successful as to leave no doubt that these fairs will be held from year to year.

Third Fair at Utrecht.

The third industrial fair was held at Utrecht, from February 24 to March 8, 1919. There were 690 exhibitors in 1917; this number was increased to 1,269 in 1919, and almost every branch of the Dutch industry was represented.

The fair had a strictly national character; only products of Dutch manufacture were admitted. Strong measures were taken against the appearance of foreign articles. The factories of all participants were visited by a special committee of inquiry, and a register of complaints was kept. When a justified allegation was brought to their attention, the delinquent was, in several cases, immediately removed.

The high quality of the products exhibited was obvious. The "substitutes" of the war industries, which had emerged as mushrooms during war time, had withdrawn at the approach of peace; only those which were so perfected that they could withstand world competition were represented.

On account of the prevailing conditions of the times, the uncertainty of the general market and the expectation of a general drop in prices, the business done amounted to only $15,000,000, as against $12,000,000 the year before (the same thing occurred a few months later at the fair of Basle). The comparatively small increase in business was largely set off by the numerous relations made especially for foreign trade.

Many Foreign Visitors.

The number of visitors from abroad was estimated at 2,000; catalogues in different languages were especially prepared for them. Several of the foreign countries were officially represented by their commercial attaches, and show rooms were placed at their disposal, to be used as offices, in the so-called "Rhue des Nations." Among the countries represented were France, Switzerland, Sweden, Romania, Norway, Brazil, Japan and China.

To build up closer foreign relations, a service bureau of information was opened at the second fair, in 1918, which has answered thousands of inquiries, besides giving the official statistics.

Conerning all these circumstances the third annual fair was looked upon as very successful and satisfactory to its participants, and therefore great success and enthusiasm are expected for the fourth annual fair.

BEARINGS

Over 700 New Bearings—none re-made kept in Stock.

The very extent of this stock precludes the possibility of you ever being disappointed when you require a certain bearing for your car or truck. We have a size and style of bearings to fit every car or truck in Victoria and vicinity. Among the makes of bearings to be found here are:

Timken, Hyatt, New Departure, Bock and Bower Roller Bearings.

All Fat People Should Know This

The world owes a debt of gratitude to the author of the now famous Marmola Prescription, and is still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. Marmola Prescription Tablets can now be obtained at all drug stores, or by writing direct to Marmola Co., 864 Woodward Ave., Detroit, Mich., and their reasonable price ($1 for a large case) leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal proportions.

DR. TOLMIE RECOVERS FROM ATTACK OF "FLU"

Hon. S. F. Tolmie, Minister of Agriculture, was able to venture out of doors to-day for the first time after a severe attack of influenza, which followed his recent illness from diphtheria. Dr. Tolmie has been confined to his home for over a week with the "flu," and has been obliged to postpone his return to Ottawa for another week. He was taken ill the second time on the eve of his departure for the Capital. During his stay in the city the Minister has been able to attend to a large volume of public business connected with his Department.

Relaying Sidewalk.—The City Engineer's Department is relaying a large portion of the sidewalk on the west side of Douglas Street between Yates Street and View Street.

GOVERNMENT READY TO CREDIT TIME OF SOLDIER STUDENTS

A deputation from the Soldiers' Civil Re-establishment Commission waited upon Premier Oliver this morning for the purpose of discussing the placing of returned men upon training farms.

The Premier made the announcement that the deputation maintained there were more students than could be taken care of, by placing them with individual farmers.

The Government would, therefore, he said, endorse the agreement that the time spent by returned soldier students upon an institutional farm under the care of the Soldiers' Civil Re-establishment Commission, provided that farm was under reasonably efficient management, should be considered the equivalent of the time spent by such students with individual farmers.

Has Recovered From Influenza.—Miss Kathleen O'Rourke, Mayor Porter's popular secretary, has recovered from a severe attack of influenza, and has resumed her duties.

☆ ☆ ☆

be a meeting of parents of boys in the Naval Brigade in the ships' office, basement of the Pemberton Building, to-morrow at 3 p. m. It is hoped that there will be a large attendance, as important matters are to be discussed.

"Do you think it is safe to trust money to mails?" asked Mrs. Gabb.

"A blame sight safer than trusting it to the females," growled Mr. Gabb.—Cincinnati Enquirer

CRIME IN TORONTO SHOWS INCREASE

Toronto, Feb. 18.—Crime in Toronto in the last year was greater than in 1918, according to a report made public yesterday. Chief of Police Grasett accounts for the increase in crime as a natural reaction of the war and he points out there has been an increase of crime all over the world.

There were five murders in Toronto last year, as against three in 1918. The number of house and shop breaking cases was 1,039 last year, an increase of 483.

TWO BIG PASSENGER SHIPS IN TO-MORROW

Makura and Empress of Japan Will Dock Early; Manila in Later

When the morning light appears to-morrow two big liners will be tugging at their cables off William Head awaiting the favor of Dr. Nelson, the quarantine officer. The Makura, of the Canadian-Australian fleet, inbound from the Antipodes, and the Empress of Japan, flying the Canadian Pacific houseflag, will both reach the Head during the night, according to latest radiograms received from them to-day.

The Makura is steaming north from Auckland, N. Z. Owing to the disastrous strike at Sydney the officials of the line ordered the ship to stop at Auckland and prevent any attempt to tie her up at the New South Wales port. The Makura is bringing a fairly large passenger list, the Australian passengers crossing over to Auckland on one of the smaller Union steamers.

The Empress of Japan is logging an ordinary Winter passage from the Far East. She has both a light passenger and freight list. After a short stay at this port the white liner will steam on to Vancouver.

Manila Maru in Later.

The third deep-sea arrival to-morrow will be the Manila Maru, of the Osaka Shosen Kaisha. She reported by wireless last night that she would be in port in the afternoon. The Manila has a large cargo to discharge at this port and will not be away before early Friday morning.

On Friday two Osaka liners, the Arabia Maru and the Chicago Maru, will leave port for the Far East laden to their capacity with passengers and freight.

SEATTLE GETS RID OF NINE WOODEN VESSELS

Seattle, Feb. 18.—Nine wooden steamers recently sold by the United States Shipping Board to the National Oil Company, New York, are to be fitted with engines and equipment at the Seattle plant of the Meachem & Babcock Shipbuilding Company.

The Meachem & Babcock plant, which has been closed and is in the hands of a receiver, is to be opened for seventy days to install the machinery. About 300 men will be employed.

OLD SKIPPER DIES

Seattle, Feb. 18.—Capt. Walter Ferguson, who for several years before the Seattle fire of 1889 commanded boats sailing between this point and British Columbia ports died in San Francisco February 11, according to word received here today. Capt. Ferguson was a veteran of Nome and Ruby, Alaska points, and for several years was United States Commissioner.

VANCOUVER FIRM TO REPAIR DREDGE AJAX

Public Works Department Putting Local Dredge Into Commission

Victoria shipyards failed to land the contract for repairing the dredge Ajax, which the Public Works Department has decided to put into commission. The B. C. Marine Co., of Vancouver, underbid the local firms considerably, and there was no alternative but to let the dredge contract cross the Gulf.

The tug Point Grey with the genial Capt. Jim Fletcher in command, arrived here this morning from Vancouver to tow the dredge across the Gulf. The Grey with her tow will depart to-night.

It is expected that a month will be spent in repairing the dredge. She has been laid up for some time at the Marine Department's dock, where the dredging fleet moored when the Public Works Department decided to cancel all dredging work for the duration of the war.

Several Big Jobs.

Several big dredging jobs await the scoop of the Ajax. There is a large patch of mud and rock at William Head, which has to be removed. The dredge Fruhling from New Westminster attempted the work, but could do nothing with the bottom. Nanaimo Harbor is in need of certain dredging, and the people at Powell River want their harbor cleaned of several obstructions.

Victoria harbor needs attention. No dredges have been operating here for several years, and considerable sediment has been swept into the harbor.

The time used is Pacific Standard, for the 120th Meridian West. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot, above the average level of lower low water.

DID SPLENDID WORK IN CHARTING WATERS

Lieut.-Commander P. C. Musgrave Passes After Spending 13 Years Here

After thirteen years of faithful and successful work as head of the Dominion Hydrographic Survey in British Columbia, Lieut.-Commander Philip C. Musgrave died suddenly yesterday at his residence, 634 Admiral's road, Esquimalt. The deceased was a victim of heart failure. His death came as a sudden shock to his numerous friends, who believed the commander to be in good health.

Commander Musgrave has performed a splendid service to British Columbia, bringing the once treacherous waterways to a position where they can be navigated with a great degree of safety. While on his annual cruises the late officer charted numerous waters and located hundreds of submerged pinnacles of rocks, which have been marked by aids to navigation, and no doubt have saved some ships from disaster.

Joined the Navy.

Commander Musgrave decided to follow the sea, and joined the Royal Navy as a cadet. He spent ten years in the service, and on resigning his commission of lieutenant came to Canada. For some time he was employed under Capt. Tooker, now a resident of this city, in charting the waters off Newfoundland. In 1907 the late seaman was sent to this coast by the Ottawa Government to take charge of the local hydrographic branch. For a short time he carried on his work with small craft, but in 1908 received the fine steamer Lillooet, fresh from the B. C. Marine yards, for his big task.

Immediately Commander Musgrave started to survey the approaches to Prince Rupert Harbor and Dixon's Entrance, owing to the fact that at that tie the northern port was expected to develop into a great terminal. Commander Musgrave also surveyed Granby Bay and Alice Arm and the Victoria and Esquimalt harbors. He usually spent about eight months away from port in the Lillooet.

After the outbreak of the late war Commander Musgrave was placed on the emergency list of naval officers with the rank of Lieut.-Commander.

Commander Musgrave, who was fifty-four years of age, is survived by one son, Sub-Lieut. A. Musgrave, who is serving with the Royal Navy. Mrs. Musgrave pre-deceased her husband several years ago.

Naval Funeral.

Arrangements have been made to hold a naval funeral. It will take place on Friday afternoon at 2.30 o'clock from the B. C. Funeral Parlors, and at 3 o'clock from the Naval Hospital at Esquimalt. The remains will be interred in the naval cemetery at Esquimalt. Rev. W. Baugh Allen will officiate.

GOT FAIR CATCH OFF COAST DESPITE GALES

Seattle, Feb. 18.—Bringing the first large catch of halibut to reach Seattle this year from the fishing banks off the west coast of Vancouver Island where the storm king holds carnival during the Winter season, the schooner Pacific arrived in port yesterday. The vessel brought 20,000 pounds of halibut. The western shores of Vancouver Island are the storm centre of the whole North Pacific and the Seattle fleet usually operates in more protected waters than those off the island at this season of the year.

The vessels of the Seattle halibut fishing fleet, the schooners Eidsvold, Republic and Daily, left for the banks yesterday. The Daily is a new vessel and is on her first cruise.

BOARD OF TRADE SYMPATHIZES WITH OVERTAXED CITIZENS

VANCOUVER ISLAND NEWS

Nanaimo Kennel Club.

The annual meeting of the Nanaimo Kennel Club was held on Saturday evening. The following officers being elected.

Honorary president, Hon. William Sloan, Minister of Mines; hon. vice-presidents, Senator A. E. Planta, J. C. McIntosh, M. P. P., Mayor H. McKenzie, T. H. Weeks, J. Hunt, T. R. Jackson, Judge Barker; hon. vety. surgeon, Dr. Ross; president, Harold Kneen; 1st vice-president, R. W. Watson; 2nd vice-president, Jack Cottle; secretary-treasurer, H. Hickling; assistant secretary, Miss L. H. Hickling.

Reorganized Board.

The officers of the reorganized Cumberland Board of Trade are: President, G. W. Clinton; vice-president, Wesley W. Williard; secretary, John Walton; treasurer, Thos. H. Carey; executive committee, Thos. H. Mumford (chairman), Edward W. Bickle, Roy L. Rideout, A. C. Lymn, W. G. Marshall, H. B. Conrod, W. H. Youhill

The Dansant at St. Paul's.

The entertainment which was given in St. Paul's Institute, Nanaimo, Monday night in aid of the choir fund, and which took the form of a The Dansant, drew a capacity audience which thoroughly enjoyed every item on the programme, while the dancing, which was interpersed between the numbers and was also continued after the concert was concluded, was entered into with zest.

Political Meeting.

A large audience was present in Gould's Hall on Sunday evening to hear addresses by Major R. J. Burde, member for Alberni, and J. H. Hawthornthwaite, member for the Newcastle riding, the meeting being held under the auspices of the newly-formed branch of the Independent Labor Party. Both speakers were listened to carefully and critically several questions being presented to the speakers at the close of the speeches.

Nanaimo Schools.

The estimates for the schools of the city as handed in at Monday night's meeting of the Nanaimo City Council by the Board of School Trustees, provide for a quite considerable increase in the amount of salaries to be paid this year to the teachers, past years figures having been $38,356, while the estimated amount necessary to be expended in salaries this year amounts to $49,000. The estimates in addition to the sum mentioned for salaries, call among other things for an expenditure of $1,700 on fuel, $237 for insurance, $155 for supplies for the Domestic Science School, $225 for supplies for the Manual Training School, $1,000 for general school supplies, $550 for medical examinations, and $1,600 for general repairs, the total amount of estimated expenditure being $55,646.

Then in addition to the general estimates for the schools of the city, the Board of School Trustees brought down a special estimate for the cost of purchase of the ground and buildings of the Nanaimo Agricultural and Horticultural Society, which it is proposed to purchase and turn into a High School Building. The total of this estimate is $5,300, made up of two items, viz., $5,100 for the actual purchase of the grounds and buildings and $200 for the renewal of insurance premiums during the year.

HIS ANCESTRY.

The New Zealand forces contained quite a large number of natives and one of the dark-skinned warriors waited on Sir Thomas Mackenzie, claiming that he was a Scotsman.

"Why do you claim to be a Scot?" asked Sir Thomas.

"Well," replied the Maori, "I've Scottish blood in my veins. My grandfather ate a Scots Presbyterian minister."—Pearson's Weekly.

BUT SHE TRIED.

I cannot sing the old songs,
Those of a bygone day;
But neither can the lady
Who lives across the way!
—Cartoons Magazine

Healthy Mothers Healthy Babies

Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when 7 months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. Pearl Montman, Mitchell, Ind.

Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound

LISTEN TO THE PLUMBER—

Why is it that my hot air heating system gives such an odour?

My dear lady, those floor and wall registers are only cuspidors for germs to gather. You then heat them up and get the foul air from same. If you are going to instal a heating system, get an economical hot water heating system. It will pay you in the end. Remember, good health is worth all the money you ever had.

Leader of Opposition Delivers Customary Critical Observations

Mr. Bowser Claims Excessive Borrowings—Contends Surplus Is Bookkeeping One—Expects Failure of Soldiers' Co-operative Settlements

Legislative Press Gallery
February 17.

W. J. Bowser, K.C., Leader of the Opposition, spoke for two and one-half hours to-day in his arraignment of the Government. There was nothing of a constructive nature offered which would assist the executive in the solution of pressing provincial issues. Instead Mr. Bowser devoted much of his speech to show that the financial statement issued recently by the Hon. John Hart was erroneous, and to sharp criticism of the soldier co-operative settlements at Merville and Creston.

With regard to the financial situation he claimed that instead of the borrowings of the Government being $9,770,000 the actual figures were between $14,000,000 and $15,000,000. He declared that it was impossible to be more precise on account of the new system of book-keeping recently instituted. The surplus of $1,043,000 claimed on the past year's current expenditure should be really a deficit of $1,181,000, which he stated had been made charging $2,224,000 up to capital account.

On the Merville settlement scheme, he claimed that his prophecy of failure would be justified by time, while at Creston they had the example of the late superintendent now in Victoria "with a kick."

Financial Credit.

Taking up the question of who set back the credit of this Province, the Leader of the Opposition declared that never since the days of Confederation had British Columbia witnessed such a record for borrowing as had been set by the Oliver administration. He was exercised, he said, over the fact that the Minister of Finance had not brought in answers to certain questions asked sooner. These were with regard to the borrowings of the Government since it took office, he continued, and went on to say that Mr. Hart had used the answers to the questions asked as a political document—a sugar-coated, honeyed pill, handed to the Government newspaper in advance.

"I again say this is against the rules of the House," exclaimed the Leader of the Opposition. "If my honorable friend, the Premier, would delve into the question of parliamentary procedure he would find that the Legislature is legally entitled to all such information before it has been given to the press."

A Vast Difference.

Mr. Bowser said he had been "digging" through the Order-in-Council patiently, trying to find out about certain expenditures, but he had looked in vain. Still, he computed the borrowings of the Finance Department, he said, at between $14,000,000 and $15,000,000, instead of $9,770,000, the figure given by the Finance Minister. He maintained that the Minister had apparently lost sight of $4,800,000, the amount owed the bank on account of the Pacific Great Eastern Railway. This amount, he went on, was not included in the list of provincial liabilities, and yet it was as surely owed as any other debt of British Columbia.

Mr. Hart here interrupted to say that this was a legacy from the old Government.

Should Be Shown.

"Legacy or not," retorted Mr. Bowser, "you owe it, and have misled the people in not including it in your statement of funds borrowed.

"Is it any wonder," he continued, "that I cannot trust the statements of my honorable friend?"

The speaker compared the borrowings of the present administration with those of former administrations, saying that the entire amount borrowed by all Governments from 1871 up to 1916 was $18,136,000, while in three years, he said, the present Government had borrowed almost that much. If you had assets to show for that it would not be so bad," he went on.

The Auditor's Report.

He went back to the report on provincial assets prepared by Price, Waterhouse & Company, official accountants, and claimed that a clean "bill of health" had been given the former Government in this regard. In fact, he averred, the report had shown that there existed assets valued at $16,000,000. The assets had since that time dropped $3,000,000.

"Oh, my, the Premier will cry: 'Curse the Liberal who suggested that Price, Waterhouse report!'" he exclaimed.

Mr. Bowser then referred to the complimentary remarks he had made with regard to the apparent improvement in the public accounts report. He said there certainly was an improvement in some regards, but there was also a change for the worse in connection with the showing of the whereabouts of detailed expenditures. These, he continued, could not now be found, and it was impossible to check up petty expenditures. He claimed that the report on special warrants should have been tabled within seven days after the opening of the House.

"Most Reprehensible."

"I wish to congratulate the Premier on his promptness in answering questions on the order paper directed to his own department," continued the Leader of the Opposition, "but I think the conduct of the Minister of Finance in withholding answers most reprehensible."

"And now as to this $1,043,530 surplus," he commented. "Where is it? It is a financial 'smoke-screen,' and the so-called surplus exists for the reason that $2,224,544 has been credited to capital account when it has no business there."

He stated that the expenditures of the Government had been $12,112,285, and the revenue $10,931,279, which meant that instead of there being a surplus there actually was a deficit of $1,181,006.

Financial Procedure.

Mr. Bowser—The Premier stated to a certain delegation the other day that there was no money, and he would be ashamed to say how much was owed to the Bank of Commerce.

Premier Oliver—Oh, now, come off.

Mr. Bowser—Then there is the matter of sinking funds. Fancy considering interest on these as revenue!

Mr. Hart—That is an old practice.

Mr. Bowser—Not correct.

Mr. Hart—Indeed, yes.

Mr. Bowser—Turn to your rules and read and you will see that you cannot credit interest on your sinking fund to revenue. There I have you on either horn of the dilemma.

Mr. Bowser then referred to the Premier's statement regarding owing the Bank of Commerce $1,680,000.

"I wish that was all we owed the bank," interjected Mr. Oliver.

"One way of admitting the serious condition you are in," rejoined the Leader of the Opposition.

Mr. Speaker Keen, hearing remarks and laughter from the gallery, hereupon warned those there assembled that unless perfect order was kept he would be forced to clear the galleries.

Mr. Bowser referred to newspaper reports commenting upon the record of the Government. He said these were most glowing, and the natural inference was that the sheriff of the Minister of Finance had been assiduously knocking upon the doors of every taxpayer. He expressed the opinion that if the Minister of Finance would express himself oftener on the floor of the House that the Opposition and the public would have a better idea of what was what.

"But the Minister is as dumb as an oyster," he remarked, "except once a year when he brings down the budget."

He further objected to the Finance Minister including as assets some $2,000,000 of taxes which could never be collected.

To the Sur-Taxed Farmer.

He then spoke rather sceptically of what he termed was the so-called "equitable distribution of taxes."

"Tell that to the sur-taxed farmer," he exclaimed, "and see what he thinks."

Premier Oliver—We are making some of them pay for the first time in 18 years.

Public Works.

Mr. Bowser turned to a consideration of matters pertaining to the Public Works Department, saying he failed to understand why the department had not adopted some comprehensive policy of public works so as to have obviated the present unemployment. If this had been done, he said, there would have been no recent delegation approaching the Government for alleviation of their difficulties.

"Next week, next month, next year," seems to be the method," he caustically remarked.

Mr. Bowser declared it was costing 200 to 300 per cent more for administration now than in the days of the former administration.

Iron Ore Development.

He next touched upon mining matters, and expressed the hope that the Minister of Mines would retain his regained health so that the House could get down to the consideration of mining legislation, which he felt was badly needed, he said.

He congratulated the member for Saanich upon his address on iron ore, and recommended that the Government spend some money in research work, suggesting that the department endeavor to find the body and extent of the iron ore and encourage its development.

Land Settlement.

The Leader of the Opposition then turned to discuss the administration of the Land Settlement Board, digressing for a moment to speak of what he caled a disease with the Government, namely, the amending of bills. He said it seemed impossible for the Government to bring in a bill which they did not have to amend the following year.

Going on with his criticism of the Land Settlement Board, he characterized it as a "complete failure from start to finish."

He reviewed his visit to Camp Merville, claiming that his remarks anent that undertaking might still prove that he was something of a prophet with regard to the length of time the soldiers would be able to stay there and earn a living.

He called upon Premier Oliver to drop the building of railways for a time and leave that matter to competent engineers, while he turned his attention to land development, something, he contended, the Leader of the Government knew a great deal about.

"You were stampeded into this thing," he said, "and proper consideration was not given it. It was much the same as the way the soldiers stampeded the Government into the establishment of a department of industries, which," he added, "the senior member for Vancouver had taken great credit for."

Forced Into Action.

Forty soldiers had forced that situation, said the speaker, and they had taken possession of a room in the Parliament Buildings until their views were met.

Premier Oliver—May I draw the attention of my honorable friend to the fact that he is libelling a body of men who cannot come on to the floor of the House and speak for themselves.

Mr. Bowser—They will deal with me in my own constituency.

Chorus of voices—You bet they will.

Mr. Bowser—And I will promise you I will be back here in the next Legislature.

The speaker went on to say that the Land Settlement Board had not taken the precaution to investigate the qualifications of the soldiers who were placed upon the land at Merville, and that no arrangement had been made with the Dominion Government for loans. It was impossible, he continued, for the soldiers to do anything with these loans, and the result had been that failure had been the result. He maintained the cost had been excessive, stating that the land was costing to clear considerably over $200 per acre, and that in his opinion and the opinion of men he had talked with, the land was not good enough for the purpose. He continued that the soldiers had not been able to find out what their land was to cost them, and this was worrying them not a little, he said.

The member for Comox hereupon interrupted to state that the land was good, and that the price to the men would be $160 per acre, considering the deduction of $500 to each returned man as a discount from the Government.

Amount Expended.

He spoke of a $60,000 overhead charge which should have been added, but apparently, he said, the soldiers were not going to have to pay this. However, he added, the taxpayers would. He said the amount already expended upon that undertaking was $330,000.

"If you want to be honest with the returned soldier, tell him now," he admonished, "while there is still time for him to get away."

(Concluded on page 17.)

A Blood-Food Discovered That Entirely Overcomes Anaemic Weakness

CAREFULLY INVESTIGATED REPORTS ESTABLISH TRULY WONDERFUL RESULTS.

Heretofore it has often been a hopeless task for a thin-blooded person to gain either strength or weight. Neither food or medicine in many instances had beneficial effect.

What is practically a perfect blood-food, containing such elements as Iron, has at last been produced, and when taken after meals will put new life and vigor into people that have despaired of ever being strong again.

This truly wonder-working treating consists of taking two small chocolate-coated Ferrozone Tablets at the close of every meal.

This wonderful blood-food supplies nourishment, vim, energy—sends a stream of vigorous, strength-making blood to every nook and corner of the body, makes every muscle and fibre sing, with new found life and health.

That gnawing tiredness leaves you—Ferrozone drives it away. Sleepless nights are turned into periods of rest, and you pick up fast. Day by day your appetite improves—this means more food is transformed in nutriment that will build and energize weak organs. The inclination to worry passes away because Ferrozone imparts nerve tone and bodily strength that prevents depression.

Think it over—Ferrozone is a wonderful tonic, in fact it is more than a tonic, because it establishes health that lasts. Thousands use it and thereby cleanse and restore the entire system to a perfect condition. You'll feel the uplifting power of Ferrozone in a week—it's bound to help you if you only give it the chance. Sold by all dealers, 50c. a box or six boxes for $2.50; be sure of the name Ferrozone. Forwarded by mail to any address if price is remitted to The Catarrhozone Co., Kingston, Ont.

Canada's Great Wheat and Barley Food—

Grape-Nuts

enjoys increasing sales as more people become acquainted with its delightful taste, real economy and high qualities of nutrition.

Remember please: Grape-Nuts is unlike the ordinary cereal food in that it does not need the addition of sugar to make it pleasing to taste.

Grape-Nuts has its own sweetening, a true sugar developed from its grains; not added in making.

Grape-Nuts Saves Sugar

Made by CANADIAN POSTUM CEREAL CO., Ltd., Windsor, Ontario

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

A Dress Suit and a Shave Won't Do It

To *be at* your best, you must *feel* at your best. The man that is magnetic, popular, successful—is the one who radiates vigor and health. Nothing pulls a man down more surely—more insidiously—than constipation. The poisons arising from the decaying intestinal matter take the color out of your face and the "pep" from your stride. Keep clean—*inside* as well as out.

By an *entirely new principle* Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol *prevents* constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in sealed bottles only bearing Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."

SPORTING NEWS

Amateur Hockey Camp in Whirl of Excitement Over Big Game

Elks Out to Stop Senators' Championship Aspirations at the Arena To-night—Juniors Also Start Titular Series

The amateur hockey camp was in a buzz of excitement this morning over the suddenly sprung announcement that to-night will see the Elks and the Senators engaged in a championship battle for the city title. The Senators, with the lead at present, see visions of the British Columbia title if they can take to-night's game, and then after the series with Vancouver they play in the Allan Cup elimination series if they can first secure the British Columbia title.

The Elks' burning ambition is to become British Columbia champions. If they can come out on top after to-night's fray they are tied with Straith's septette and the city league schedule will be completed as originally arranged. A Victoria team will not in that event take part in the Allan Cup games, although the British Columbia championship series will be played. While not wishing to spoil the prospects of a Victoria team competing for the Allan Cup, the Elks quite reasonably claim that with the race so close they cannot be expected to make a present of the title to any other team, and if the antlered puckchasers put it over there is a chance of a lot of switching of positions before the city title is finally tucked away.

If the Senators come out on top on to-night's game, which starts at 8.15 and goes the full distance of professional hockey, they play the Towers in Vancouver Friday and in Victoria Monday. On the 25th and 27th the Calgary team will play Straith's men in Victoria if the Senators win the series with the Vancouver men. If the Vancouver men win the Calgary puckchasers will play on Mainland ice. The winners of the series will journey to Regina ready for the deciding games.

The Teams.

Teams for to-night's game are announced as follows:

Alex. Straith .. goal.. .. ...Gravlin
Christy .. .. r. defence ... .Cook
Wickson (capt.) .l. defence ...George
H. Burnett.. .rover .. Irwin (capt.)
Dowd .. .. .. center .. ..Spence
H. Smith .. .. right.. .. .. E. Smith
Hamm .. .. .l. defence ..J. Stewart
Quinn .. .. .. utility .. .. King
Fitzsimmons ..utility .. ... Boucher
Straith .. .. .. utility .. .. Glazen

Junior Championship.

An added feature will be another championship game, the junior title being at stake. The game will follow the Elks-Senators game. The Bays and Snipers are in line for the title, both having won five games and lost none. When the two teams met a tied game was the result. The Bays have scored 25 goals and have not had a tally registered against them. The Snipers have registered eighteen times and have had two goals scored against them. A series of games will be played before the crown is finally awarded. The teams are as follows:

Bays—Hank Campbell, Tom Moffatt, T. Ryan, Rebel Mowat (capt.), Buck Temple, Fred Kenny, J. Steenson.

Snipers—G. Gerger, D. Carter, H. Goodacre, J. Adams, J. Wright (capt.), T. Moody, F. Sutton.

Capt. Dunsford will referee the Senator-Elks game. The captain is an old Eastern player, having played in Toronto and in the Winnipeg Senior League and is well qualified to handle the game in a satisfactory manner.

WINNIPEG SOCCER TEAM WANTS GAME IN CITY

Charles F. Earle, City Passenger Agent of the Grand Trunk Pacific Railway, has received a wire to the effect that the Winnipeg Selkirks, who have already made arrangements for a game with the Vancouver soccer men, are anxious for a game with a Victoria team. The party will arrive on the coast March 15. Mr. Earle has notified Secretary A. C. Hill that the Winnipeg players desire to play here, and the local players will no doubt meet their request.

LEAGUE STANDING IN SCHOOL BASKETBALL

Crusaders, Belmonts and First Presbyterians Running Close

To-night's games in the Sunday School Basketball League are as follows:

Intermediates, 8 p. m.—St. Andrew's vs. St. Mary's. Seniors, 8.45 p. m.—First Presbyterian vs. Congo-Centennial. 9.30 p. m.—Metropolitans vs. St. Mary's.

All three games to-night should prove fast exciting tussles, as the teams are all evenly matched.

There wil be no ladies' games until February 25, when it is hoped that the games in this series will be under way once more. Games for re-opening of the ladies' schedule will be announced later.

The Senior League standing is now as follows:

	W.	L.	Pts.
Crusaders	4	0	8
Belmonts	4	0	8
First Presbyterians...	3	1	6
Mets	2	2	4
St. Mary's	2	2	4
On-We-Goes	1	4	2
Congo-Centennial	1	4	2
Veterans	0	4	0

MEEKING NOT THE "BAD MAN;" JOHNSON TAKES THE TITLE

It has developed that Harry Meeking, the Victoria puckchaser, is not quite as bad as he has been painted in so far as penalties in the P. C. H. A. are concerned. Meeking had been charged with two majors but Referee Mickey Ion points out that only one should be registered against the player. "At Seattle recently Meeking committed a foul which warranted a major but on enquiry I learned that there remained but four minutes to play and I gave him the rest of the game instead of making it a major," Ion explained to-day. As records stand now "Moose" Johnson leads with twenty-two minutes off. Meeking has been ruled off three times for a total of seventeen minutes and has also been mulcted $10.

CHANCE FOR VICTORIA SKATING EXPERTS

Under its arrangement with the Canadian Skating Association, the Connaught Skating Club of Vancouver will conduct its annual competition for the figure-skating championship of British Columbia and the Columbia Cup (trophy) on the evening of March 12 or 15 at the Vancouver Arena. Entries should be addressed to Major Scudamore, secretary, 1601 Yew Street, Vancouver. The programme will consist of four minutes' free skating to music preceded by the following compulsory figures:

1. Inside back eight, I. S. U. Fig. No. 4.
2. Double-three eight, I. S. U. Fig. No. 10.
3. One-foot forward eight, I. S. U. Fig. No. 24a.
4. Right forward-change-bracket, I. S. U. Fig. No. 32a.

Each year the Columbia Cup has been competed for it has been won by other than a Vancouver city resident, and outside entries are particularly encouraged.

HOCKEY PRESIDENT WILL VISIT CALGARY

Vancouver, Feb. 17.—Frank Patrick is going to Calgary to see the Big Four play-off, to get a line on what brand of hockey is played there, to see how the play-off system is managed, and probably to pick a few suggestions that may be used to advantage in the Pacific Coast Hockey League. He says he is always eager to find ideas that will be useful to the interests of the game here.

INTER-CITY SOCCER AND CUP TIE GAMES ARE ON THE CARDS

First Cup Games Set; Vancouver Seeks Return Engagement

Play will start next Saturday in the H. H. Brown soccer cup competition in which each of the ten teams entered meets every other club once. Saturday's games will be as follows:

Comrades vs. Yarrows, at Beacon Hill, lower ground.

Victoria Wests vs. Metropolis, at Beacon Hill, upper ground.

Wards vs. Foundation, at the Willows.

K. of C. Hut vs. Army and Navy, at Royal Athletic Park.

Great War Veterans vs. Harbor Marine, at Central Park.

Referees will be selected later.

At the meeting of the Victoria and District Association, held last night, a letter was read from Dave Leith, of Vancouver, asking for a return inter-city game, to be played in Victoria on Saturday, February 28. This challenge will be accepted and Chairman Mesher last night appointed the following committee to select the team which will represent Victoria: Jack May, of the Harbor Marine; Geo. Williamson, of Yarrows, and Tom Briggs, of the Foundation. The committee appointed to make the necessary arrangements for the match is composed of G. A. Beck (chairman), Jas. Mesher and Jack May. E. R. Lock will referee the game and Mr. Oliver will be the Victoria linesman.

The association elected G. A. Beck as their third delegate to the local branch of the B. C. F. A. in place of Mr. Purser, who regretted he was unable to accept the appointment.

FORMALLY ACCEPT LIPTON'S CHALLENGE

Shamrock IV. Will Be Matched Against Either Resolute or Vanite

New York, Feb. 18.—The New York Yacht Club announced late to-day acceptance of Sir Thomas Lipton's challenge for the America's Cup. The series of best three out of five races will be held over the Sandy Hook course, beginning July 15. Races will be held July 15, 17, 20, 22 and 24, weather permiting, or until the challenger or defending yacht has won three races.

Sir Thomas will attempt to win the world-famous yachting trophy with his challenger Shamrock IV., while the New York Yacht Club will defend the cup won in 1851 with either the Resolute or Vanitie, launched for that purpose in 1913.

FOOTBALL MEETING.

There will be a meeting of the Comrades Football team to-night at 8 p. m. To be held at the rooms of the Comrades of the Great War. All players are earnestly requested to attend this meeting, and any one who is interested in the team.

CHANGE IN RACING RULE

Chicago, Feb. 18.—A change in the "win race" rule was adopted by the American Trotting Association at its annual meeting yesterday. The revised ruling provides that a horse with a "win race" be allowed, whether raced or not, two seconds for each calender year until he reduces his time, or wins a race in faster time than the class to which his time allowance made him eligible. The old rule allowed only one second for each year. The rule also declares that a horse winning a race in faster time than the class to which his time allowance makes him eligible shall thereafter be considered as having acquired a new "win race."

A "win race" was described as "the fastest time made by a winner either in the first or second position."

VICTORIA HAS LOST POPULAR SPORTSMAN

Through the death of Captain W. H. M. Roberson, which occurred at the early age of 40 years, Victoria has lost a sportsman who will be especially missed in cricket circles. The captain has been identified with cricket in the city for the last twelve years. He captained the Garrison eleven for several years, but for the last two seasons had been a member of the Victoria Cricket Club. He only played one game last season, appearing on the Victoria I. Zingari eleven, which took part in the Red Cross tournament. He was a safe, steady bat, and also very capable in the field.

Captain Roberson was also a member of the United Services Golf Club, a clever billiard player, and took an interest in most branches of sport. He was a member of the Pacific Club.

BEAT THE BOHEMIAN

Harrisburg, Pa., Feb. 18. — Joe Stecher, champion heavyweight wrestler, threw Franz Solar, claimant of the Bohemian mat title, twice here last night. Stecher won the first fall in 43 minutes with a body scissors and arm lock. The second fall came after 11 minutes. Stecher again secured his scissors hold.

STILL IN THE RACE

Regina, Sask., Feb. 18.—Regina Vics stayed in the running for the championship of the Saskatchewan Hockey League last night by beating Moose Jaw Maple Leafs 3 to 2 in a hotly-contested game which was undecided right up to the last minute.

PICTOR WON FEATURE.

New Orleans, Feb. 18.—Pictor, at 8 to 1, owned by C. W. Clark, millionaire copper man, won the Mardi Gras handicap with $5,000 added money, the feature of to-day's racing card at the Fair Grounds track. Slippery Elm was second and Damask third. Pictor also won the Crescent City handicap January 31.

FOUNDATION SOCCER.

Foundation soccer men will hold a practice at the Foundation Hall Thursday night at 7.30. Players are requested to take the opportunity of getting into shape for the cup tie games

Dollar Day Sale of Used Bicycles

HONESTY BEST POLICY.

The honest provision dealer looked positively annoyed this morning. A man of keen business acumen, he expected his assistants to emulate him in all matters pertaining to his commercial and, incidentally, financial advancement.

Glaring savagely at Henry, the new assistant, he growled:

"Look here, didn't that lady who has just gone out ask for fresh-laid eggs?"

"Ye—yes, s—sir," replied the confused young man.

"And you actually said we hadn't any," indignantly fumed the old man.

"Y—yes, s—sir; that is quite true."

"True, you idiot!" thundered the now infuriated dealer. "Didn't you see me lay these eggs on the counter myself about ten minutes ago. Take a month's notice. I'll have no prevarication in this establishment."

SCOTTISH FOOTBALL.

London, Feb. 18.—(By Canadian Press).—Clyde defeated the Hibernians by 2 to 0 in a Scottish League football game yesterday.

CHIEF MEYERS RETIRES.

New Haven, Conn., Feb. 18.—John "Chief" Meyers, one time star catcher of the New York Nationals, has retired from baseball, it was learned last night.

LAST WORD, AS USUAL.

Mr. Titewadd—Seems to me that a woman's Christmas shopping is never done.

Mrs. Titewadd—And it seems to me that some men's Christmas shopping is never begun.

ALMOST IMPOSSIBLE TO SUPPLY ENORMOUS DEMAND FOR TANLAC

Although Huge Laboratories Turn Out 36,000 Bottles Daily, Thousands of Dealers Cannot Be Supplied

40 CARLOADS SOLD IN JANUARY ALONE

After Shipping 838,400 Bottles of Celebrated Medicine in One Month, Factory Is Still 380,000 Behind With Orders

Although the big Tanlac laboratories at Dayton, Ohio, and Walkerville, Canada, have been running at top speed for months, it has been a physical impossibility to supply the phenomenal and ever increasing demand for this celebrated medicine.

During the first ten weeks of last year One Million Three Hundred and twenty-seven thousand bottles of Tanlac were sold, breaking all World's record for the sale of proprietary medicines up to that time. This record now pales into insignificance, however, as orders received during January alone of this year reached the astonishing total of One Million Two Hundred and Twenty Thousand bottles, showing an increase of approximately one hundred per cent. over the corresponding period of 1919.

To say that Tanlac now has the largest sale of any medicine of its kind in the world expresses it mildly. It does not begin to tell the story—for no other preparation has ever even approached the marvelous record that is now being made by Tanlac; and it is now conservatively estimated that the sales for the present year alone will amount to from seven to ten million bottles.

Of the orders received during January it was possible to ship only eight hundred and thirty-eight thousand bottles, and thousands of dealers scattered throughout Canada and the United States have been unable to obtain the medicine for weeks.

"Phenomenal and Bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Tanlac.

"We know that the day of miracles has passed, and we all know that there are no unfathomable mysteries in the drug business, but this Tanlac proposition smacks of both" writes another leading wholesale druggist, whose firm has sold over 34 car loads, or an average of nearly one car load per month since they began handling Tanlac a few years ago. Thousands of similar letters and telegrams have been received, but for lack of space they can only be referred to briefly.

Most proprietary medicines are sold by the dozen or by the gross; a few are bought by the trade in quantities of from ten to twenty gross; a very few are sold by the car load, and then only to the largest jobbers, covering extensive territories. The fact therefore that scores of jobbers in Canada and the United States have a demand sufficient to justify them in ordering not one car load, but two to three car loads of Tanlac at a time makes Tanlac's pre-eminence in the field of medicine all the more noteworthy. It is the biggest thing of its kind in the world and nothing like it has ever happened in the drug trade before.

Think of one retail firm selling one-third of a million bottles of any one medicine right over the counter direct to consumers in only two years' time! It seems incredible, but such is the record made by the Owl Drug Company, through their retail stores on the Pacific Coast.

Think of one retail firm in a single city of 200,000 population, selling approximately eighty-eight thousand bottles, an average of over two bottles for every family, in only four years' time! Such is the record of the Jacobs' Pharmacy Company, of Atlanta.

Think of one retail firm giving a single order for an entire car load, twenty-three thousand and forty bottles and agreeing to pay cash for the goods promptly on arrival. Such an order has been received from the Lewis K. Liggett Company, of Winnipeg, Canada.

Another big Canadian retail firm, G. Tamblyn, Limited, Toronto, Canada recently gave their order for one hundred gross, amouting to $10,800.00.

Orders from retailers for from fifty to seventy-five gross are not uncommon, and practically all of the leading retail firms buy Tanlac in from ten to twenty-five gross lots to supply their normal demands.

When the magnificent uew laboratories at Dayton, Ohio, and Walkerville, Canada, with a combined floor space of seventy thousand square feet and a combined capacity of thirty-six thousand bottles were completed, it was thought that the production would be sufficient to supply the demand for years to come. It is now apparent, however, that additional facilities must be provided if the supply is to keep pace with the demand. And this is true in spite of the fact that there are now on the market from fifty to one hundred preparations claiming similar therapeutic value.

Tanlac has now been on the market for five years. It has stood the acid test of time. It is known and honored in every city, town, village, and hamlet on the American Continent from Key West, Florida, to the Northern wilds of Canada, where even the Indians and Fur Traders have learned of its wonderful powers as a medicine.

Its enormous and ever-increasing popularity is the one great outstanding proof of its wonderful merit. No medicine, no matter how extensively advertised, could sell and continue to sell and establish new world's records year after year, if it did not produce actual and positive results.

Tanlac is composed of the most beneficial roots and herbs known to the scientific world. The formula conforms with all National and State Pure Food and Health Laws of both the United States and Canada, and although Tanlac's claims for superiority are abundantly supported by leading authorities, it is the people themselves who have made Tanlac what it is. Millions upon millions have used it and have told other millions what it has done for them.

That is why Tanlac has become the real sensation of the drug trade all over America.

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and R. C. Lang, Esquimalt Road.

SPORTS

SEES HER FIRST HOCKEY GAME AT EIGHTY-FIVE; BECOMES A FAN

Mrs. Elmira Smith, 1403 Fernwood Road, grandmother of Eddie Oatman, the Aristocrats' centre forward, is possibly the oldest hockey fan in Canada. The strangest part, however, about Mrs. Smith's enthusiasm for hockey is the fact that she became a fan in one night, and that not until her eighty-fifth birthday. Mrs. Smith celebrated the anniversary by watching Victoria hand the Mets their biggest defeat in two years. Although she lives in a hockey atmosphere in the same home in Victoria as Eddie Oatman of the professional game; Russell Oatman, of the Two Jacks, and has another grandson who plays hockey, Mrs. Smith had not seen a hockey game until last Friday, when Captain Eddie reserved for his grandmother a comfortable seat behind the press box.

"Now," says Mrs. Smith, "I am going to see the rest of the games this season. Ed says there are only three more, so I wish I had gone earlier."

"They told me I would find it cold," she remarked, "and I took a lot of wraps along, but I found I did not need them all. I got very interested in the game and didn't notice the rink was cold, although I expected it would be."

Mrs. Smith declares she enjoyed every minute of the game "and I could follow it quite easy," she remarked. "I wore my glasses but next Friday I am going to see if I can't follow the game without them, just to see if I can do it."

The old lady was delighted with her little birthday party. The Aristocrats' captain played the best game he has played this season, scored the goal which tied the score in the first period and then scored one of the most spectacular goals ever recorded to put his side ahead. Later he got a couple of assists. Naturally Oatman was the idol of the fans, and the spectators were in the best of humor at the way things were going. Mrs. Smith confesses to reveling in the reflected glory and pride she felt at hearing three thousand people cheering for her grandson at the top of their voices.

The Aristocrats' captain, like a lot of other sportsmen, has a certain amount of faith in good luck tokens. Before he left home he asked his grandmother "to rub a couple of goals" into the stick he was going to use. The eighty-five year young enthusiast complied with the request and, he points out, "I got a couple of goals." Mrs. Smith says she intends seeing next Friday's game when the Millionaires are here.

NEWS AND NOTES OF THE MINES

Saskatchewan is generally regarded as an agricultural province. However, Hon. Charles Dunning, in a recent speech in the Legislature, puts it in a new light. He said it was his firm belief that many of the purchases of copper and gold in Northern Saskatchewan and Manitoba were being made to prevent development, but this speculative development was inimical to the welfare of the people of the province.

The Government, Mr. Dunning continued, did not intend to go out prospecting in order that under federal regulations speculative development might result, but rather to carefully analyse the known resources, and to interest industries capable of developing them and manufacturing them within the province. It was the intention to give specific, carefully prepared information to interested industries regarding resources which interest them, always with a view to industrial rather than speculative development.

Sodium Sulphate Enquiries.

In illustration as to what might be done, Mr. Dunning referred to the deposit of sodium sulphate recently discovered in the southwest of the province, which is estimated to contain six million tons 96.36 per cent. pure. Already, he said, nearly every paper mill in Canada had written for information respecting this deposit. Another illustration was afforded in the valuable clay deposits which were only as yet being developed to a very small extent. With the increase in the cost of lumber, the way was being opened for the more extensive use of brick as a building material in this province, and these deposits would be developed for the manufacture of brick, pottery and other clay deposits.

Wealth in Ores.

A well known mining engineer, Alfred C. Garde, of Vancouver and Prince Rupert, is responsible for the statement that 'The wealth to be obtained from the mineral riches of British Columbia would be more than enough to pay the whole of Canada's national debt and leave plenty more to carry on with." In speaking of the importance of establishing an iron smelter and iron works, where ore, coal, water and transportation facilities are to be found, he says: "I have spent ten years in the North, and the new fields along the Grand Trunk Pacific Railway, which is popularly known as the Copper River District, is very rich in all the necessary ores for the establishment of a smelter and iron works. The ore is of superior quality."

Slocan Activity.

Slocan City mines are busily active, and with the opening of Spring a great increase in activity may be expected, Thomas McNeish, the well known merchant of that community, stated at Nelson to The News.

The Ottawa, which shipped nearly 400 tons of ore last year, is being actively worked by A. L. McPhee and Pat Maguire, under lease from the Consolidated company, and ore is being hauled down to Slocan City for shipment. Over 10 tons has already passed through the smelter this year from the Ottawa.

Earl Hyde is developing the Anna, which he recently took over from Kurt Zimmerman on a lease and bond. Mr. Zimmerman, who recently returned to California, is up at the mine, taking a hand himself. The Anna is near the Ottawa.

After nearly a year of driving, the long Meteor crosscut is still going forward steadily. W. A. Buchanan bought this property from George H. Aylard and associates, and started to drive before the snow went off. The last shipment was in August and nearly 100 tons of ore went to Trail last year, representing earlier development.

J. T. T. Tipping, of Slocan City, is working two properties. He and Pat Maguire have the Republic under bond, and are getting out a car of ore. Mr. Tipping is also working the Black Prince in a small way during the Winter months.

The Tamarack is being worked by Malcom Cameron and George Nicol under a lease and bond.

Development of the Evening Star, owned by Hugh Sutherland, has reached the point where the drift is under the winze with which it is intended ultimately to connect. Manager William Moore is now arranging to unwater the shaft.

J. J. Malone, who took over the Twelfth of July group last fall, and did a little development work, is preparing to resume operations in the Spring.

Alice Arm.

Despite the fact that Winter has the district in its grip at the present time, winter activity this year is many times greater than ever before in the history of the camp. There are nearly 100 men steadily employed in mining operations alone, forty of these working on the Dolly Varden mine which is shipping on the average of 2½ tons per day to the beach by dog team and horses for shipment to the Selby smelter at San Francisco. Besides the ore being actually shipped the dump is increasing and by the time trains are again in operation there will be plenty of ore to keep them all running at full capacity, making as many trips per day as possible.

Trail Shipments.

Receipts of ore and concentrates at the Trail smelter for the week ending February 7 were unusually heavy, amounting to 8,057 tons. In this total ninety-two tons was concentrates. The total receipts since January 1 amount to 34,278 tons of smelter feed, of which 1,407 tons was concentrates and 32,871 was raw ore.

The three big factors thus far in the tonnage are the Rossland properties of the Consolidated, with 11,818 tons, the Sullivan, with 11,423 tons of zinc ore and a little lead, and the Emma, in the Boundary, with 5,105 tons.

MUM'S THE WORD.

You know how much noise the other fellow makes without saying anything, don't you? Well why not keep your own mouth shut?—Cincinnati Enquirer.

FRUGAL.

"Well Silas I hear you got married recently. Where did you go for your honeymoon?" "We went down to the village an' seen a movin' pitcher o' Coney Island."—Judge.

Dollar Day at Cary's
Next Thursday
In addition to the following bargains for Dollar Day, there will be your choice of the highest grade overcoats made at half price. Also the balance of our suits, mostly blues, at less than cost price, and men's pants, regular to $7.50 for $4.95
Men's Hose—All $1.50 lines for.... $1.00
All my $1.50 Ties for $1.00
All my 35c Collars 4 for $1.00
All Handkerchiefs, regular 25c, 6 for $1.00

Extra Special Bargains in Boys' Clothes
DOLLAR DAY
To-Morrow, Thursday 19th

Suits! The one item of boys' apparel that calls for the greatest investment—it is the item in which we have decided to effect the biggest bargains. One particular range of suits in Norfolk and pinch-back styles; hard wearing, durable tweeds; two pairs of bloomers. Sizes 37 and 38 only
Dollar Day $10.00
BLOOMERS—Strongly-sewn Bloomers of durable tweed. Sizes 34 to 38. Dollar Day, $1.75
SUITS—Other smart Tweed Suits, in Norfolk styles; sizes 34 and 35. Dollar Day $7.50
Youths' First Long Pants Suits, in smart semi-fitting styles, with patch pockets; size 36 and 37. Dollar Day, $12.00
10% Off All Suits and Overcoats (Reefers Only Excepted)
SHIRTS
Extra quality blue chambray Shirts for boys. All sizes. Dollar Day ..... 85¢
Boys' Shirt Waists in button or sport collar styles. Fitting 7 to 16 years. Regular to $2.25. Dollar Day $1.00
Boys' and Youths' Shirts in sport collar styles. Special Dollar Day $1.00
STOCKINGS
Boys' Cotton Stockings, sizes 5½ to 9½. Dollar Day, 3 pairs for $1.00
SWEATERS
White All-Wool Cashmere English Sweaters. Sizes 28 to 30. Dollar Day $2.50
Worsted Sweaters, sport collar; smart colors; all sizes. Dollar Day $2.00
OILSKIN CAPES
Black only, excellent quality.
Sizes to 27, Dollar Day $2.25
Sizes 29 to 37, Dollar Day $3.00

ISSUE LAW FOR AIR TRAFFIC IN CANADA

Air Board Sets Regulations to Control Aeronautical Development

The Air Regulations for the Dominion of Canada, 1920, are now to hand, and contain many surprises. The Air Board Act, the Convention Relating to International Air Navigation, and a full list of directions and conditions for the licensing and operation of aircraft in Canada are included in the publication.

Amongst some thirteen clauses that set forth the activities and powers of the Air Board—the following two are most important: "It shall be the duty of the Air Board (b) to study the development of aeronautics in Canada and in other countries, and to undertake such technical research as may be requisite for the development of aeronautics, and to co-operate with other institutions in carrying out such research; (c) to construct and maintain all government air stations, aerodromes, including all plant machinery and building necessary for the upkeep." The eleven other clauses are relative to incidentals, and provide for conditions that may arise later.

Clause (b) in the above would presuppose the institution of a government branch of experimental aerial research work. Such a branch would normally follow the advancement made by other countries in types and speeds of aircraft and at all be times be of the utmost value from a stragetical view-point. The latter clause (c) gives promise of government aerodromes and works throughout the Dominion, which points to the fact that the Air Board will institute a department of flying operations for the various departmental flying to be performed.

Follows Marine Lead.

By these regulations adequate provision is made for the licensing of aircraft operators, registration of machines, establishment of airharbors, inspection of aircraft, regulation of all flying operations, the conditions under which mail, passengers and freight may be carried by air, aerial routes—their use and control, and customs regulations.

In general the Air Board takes to itself the right to control absolutely, all aeronautical matters in Canada and exercise a strict supervision on all private or commercial aviation.

Aircraft are to carry registration marks indicating nationality and origin, just as vessels, will also carry log books showing data on all facts required by the Air Board, including number of engine, maker, operator, license number, registered carrying capacity and performance. Aircraft found carrying over the load at which they are registered will suffer, similarly to vessels overloading past the Plimsoll mark.

Indeed the whole situation as applied to aeronautical development and aerial traffic is on all fours with marine navigation.

A large section of the regulations deal with the rules of aerial traffic, riding lights and signals by day and night; proceedure in meeting opposing aircraft, and how to pass aircraft. Flying over prohibited areas is of course forbidden, and the means of notifying the offending machine's very ingenious—smoke "shells" are discharged into the air alongside the machine—similar to the old-time "Archie" in the war days- and if the pilot refuses to land he will be fired upon.

Points of Landing.

The regulations affecting "Air-Harbors" and the control of customs stations and the like are very complete, and adequate provision has been made to take care of any international flying that Canada is likely to see for the next few decades. The customs regulations are strict of course, and not dissimilar to the rules affecting automobiles in crossing the border.

The provision and marking of public air-harbors is also well covered and it is evidently expected that the various municipalities will construct their own, but they are advised to leave the operation and control of them in commercial hands. The user of a modern air harbor will pay dues and storage much as at a garage to-day.

Certificates of competency, airworthyness and all kindered matters are treated in detail, and the flying that is done in Canada in the next decade or so will be thoroughly safe to the "Man-in-the-Street" as well as to the flying men themselves. One provision, very necessary in effect but comical to speculate upon—is that only fine sand and water will be dropped from aircraft while in flight. That is fine sand and water may be used on airships and balloons for ballast.

Looking ahead a few years it is not hard to imagine legal action arising out of the fact that on such and such a flight airship NCBP4 did unlawfully drop two cut glass tumblers and hard-covered books upon the lawn of Mr. So-and-so. Forced landing—that is aircraft making land at other points than their destination or home aerodrome—have been carefully provided for, and here again one turns to the local policeman. The pilot of 1920 who has engine trouble and lands across the border can make things alright by getting the ear of the local constable, and "telling him the tale."

Sngnalling.

Commercial aircraft, plying along established government aerial routes, will in future carry flags of the international signal code, wireless, and a plentiful supply of Very's lights (for the benefit of the uninitiated a Very's light is a miniature firework that can be had in any of the established colors of the rainbow). These Very's lights will be the means of signalling by day and night and the color of the signal will convey the meaning intended.

Examination of personnel and aircraft, and the periodical re-examination of the same has been amply provided for, and there will be no danger of unfit pilots or unsound craft taking the air with the lives of the public at their mercy. Another very satisfying provision to all wartime aviators is that no type of explosive may be carried by air and certain commercial articles and liquids are also banned.

The provisions in relation to international flying between Canada and the United States are very complete, and the customs supervision will in all cases approximate that system now in vogue with shipping. Clearances will have to be obtained at customs air-harbors before departure and after arrival, and forced landings in a country outside that of the registered country of the aircraft, is to be reported immediately to the customs officers and should take place if at all possible at a customs air harbor.

Accurate logs of the types of machines flying time, routes followed and meteorological data will have to be kept by all operators of aircraft, and these logs are open to inspection at all times. The various ramifications of the published regulations will be found upon inspection to contain clauses to cover all forms and activities of aeronautical development for the next few decades.

B. C. APPLES ARE IN GREATER DEMAND

Old Country Importers Becoming More Anxious For Fruit of Province

British Columbia apples are becoming better known and are in greater demand in England than formerly because higher grade stock is being imported. Indeed, if British Columbia shippers continue to send their best apples to the Old Country markets it will not be long before the product of this Province will be among the most popular in the United Kingdom.

Information to this effect has been conveyed to this city by letter from Thomas Walker, who is acting as secretary to Agent-General F. C. Wade. K. C. Mr. Walker quotes from a letter from J. Forsyth Smith, Canadian Government Fruit Trade Commissioner, Liverpool, as follows:

A New Departure.

"This year, however, has been an entirely new departure. Very greatly increased quantities, with some of the best pack and quality, have come forward, and have marked the first step towards British Columbia assuming that important place in the apple market which the superior quality of her apples entitles her to occupy.

"Unfortunately, from some standpoints, a considerable proportion of these have been No. 2's, as the maximum control price of 20s 10d per box has been so low that very little inducement of their kind, and the No. 1's generally have left nothing to be desired.

"Including, besides actual arrivals, some lots that are definitely expected, the total shipments this season are 196,171 boxes, or over 300 standard cars, an immense stride in advance as compared with twenty-five to eighty-five cars in previous years. It is quite likely there may be some increase in this before the season is over.

"Already the effects of the season's shipments are seen in the greatly enhanced reputation of the British Columbia product, and, if our Province continues and develops her present policy of shipping large quantities of her best packs regularly to the four principal apple markets in this country, Liverpool, Manchester, Glasgow and London, no long period will elapse before British Columbia apples are generally recognized, as they are already in many quarters, as among the best received in the United Kingdom.

Varieties Favored.

"With regard to varieties, I may say that Yellow Newtons are especially appreciated, and that Cox's Orange, little appreciated on the home market, are prime favorites over here, bringing the very highest values when of good color and medium size, and when the market is unrestricted. British Columbia has a great advantage over her American competitors in the production of this popular English variety, as it is scarcely shipped at all from Washington and Oregon.

"The fact that it has been planted in fair quantities in British Columbia is probably due to the fact that our English settlers have carried across with them their preference for a variety that stands first among the products of English orchards, in the estimation of the consumer, as it is not especially appreciated on the American and Canadian markets.

"The Jonathan, which is the variety most largely grown in British Columbia, is very highly thought of, on account of its attractive red color, and apart from the Cox, which is only received in limited quantities, has attracted most attention among apple buyers. The McIntosh Red, ranked higher than the Jonathan on the home market, is not yet fully appreciated in the United Kingdom, as this is the first year in which considerable quantities have been received in the box pack (Washington and Oregon not producing this variety) and the barrel pack usually fails to arrive in satisfactory condition. So far it has generally failed to secure the values brought by the Jonathan, but I am confident that its outstanding quality will eventually secure due recognition for it. The Delicious, regarded in British Columbia as one of the best varieties produced, has only reached this market in small quantities, and it will surprise our shippers that it has so far fetched 1s to 2s below the Jonathans, though comparative values on the home market may be illustrated by the fact that when Jonathans No. 1 are sold at $1.25 f.o.b., a corresponding value for the Delicious is $2 to $2.25.

"It may be of interest to state that this year, representations made to British importers as to the rapid development of the British Columbia industry were instrumental in inducing a considerable number of them to visit that Province for the first time, where they have been successful in forming promising connections."

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Parmint (double strength), and add to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

FAMILY MATTERS.

"I shall complain to the floor-walker about you," said the irate shopper.

"I have no doubt he will agree with everything you say," answered the saleslady, wearily.

"Ah! Then he is acquainted with your shortcomings?"

"He thinks he is. He's my husband."—Birmingham Age-Herald.

PROFESSOR GILL IS SATISFIED WITH VISIT

Professor L. W. Gill, Director of Technical Education to rthe Federal Government, who left for the East last evening after interviewing the Provincial Government and local authorities on the subject of establishing technical schools in this Province, stated that all difficulties have been settled and from now on all the work should be clear sailing.

"I find the people of British Columbia very enthusiastic about technical education and fully alive to its importance in the industrial development of the Province, and my interview with the Provincial Government was very satisfactory," said Professor Gill in speaking of the proposition of the Dominion Government to give the sum of $43,000 toward furthering technical education in the Province this year. He explained that this amount was part of the Dominion grant of $10,000,000 to extend over a period of ten years. This will be given on the understanding that the Provincial Government puts up a like amount and agrees to conduct technical education along the lines laid down by Ottawa. These conditions provide for technical education along vocational lines for students as well as high school grades, but not for those who have reached a university standing. They also provide that the money shall be spent for manual training which is a part of the ordinary school course. Roughly fifty per cent. of the time devoted by the teachers employed under the scheme must be devoted to vocational training."

Frail Sickly Children

Gain Strength Rapidly on Vinol

Vinol is successful because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Hypophosphites—but no oil—the very elements needed to build up strength and robustness. Children love to take it.

The Wonderful Efficiency of Vinol is proven by these letters

"My little daughter, 13 years old, overworked and was run-down, tired all the time, nervous, had headaches, couldn't eat and had to stay out of school. Vinol has built her up. She has a good appetite, no more headaches and has returned to school." Mrs. L. Andrews, Bainbridge, N. Y.

"My little boy was weak, puny, and tired all the time, did not want to do anything. Vinol was recommended and it built up his strength and made him healthy. Now he romps and plays like other children. We certainly believe in Vinol for children." —Harley Clay, Williamson, W. Va.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Your money will be returned if Vinol fails—Leading Druggists.

Vinol Creates Strength

LEADER OF OPPOSITION DELIVERS CUSTOMARY CRITICAL OBSERVATIONS

(Continued from page 13.)

He referred to the trips to Ottawa of Lieuts. Walker and Kirchner, and later to the fact that they had been discharged from their positions with the Land Settlement Board. Then, he said, there was Colonel Lister, after whom the Creston settlement had been named. He had quit, and was now in Victoria with a grievance.

"And need I refer to DeHart," he asked. "And what about Maxwell Smith? Need I refer to that gentleman?"

"Oh, yes, tell it all," commented the Premier.

"Well, the next man that should go is Mr. Nelems," said Mr. Bowser. "If he is incompetent he should go as well as the rest."

The Leader of the Opposition then referred to the arrangement under which he said Capt. Rant, Superintendent, had been engaged. He stated this official was receiving $200 per month salary, and it was understood he also got five per cent. on the payroll.

Hon. E. D. Barrow, Minister of Agriculture, denied that Capt. Rant received this.

Mr. Bowser—Not now, perhaps.

Mr. Barrow—Not since he started. He received $200 salary.

Mr. Bowser—How about Jones & Rant then?

The Minister did not deny this, whereupon the Leader of the Opposition exclaimed: "See, they all have it. This side-stepping. The honorable minister should be ashamed to answer me in this way. He is ashamed of the contract Nelems entered into."

He next commented upon the Christien Ranch settlement, and computed the cost of bringing the Christien property under cultivation as $96,000, and said the soldiers had been deceived. There was no chance of securing water and the work was hopeless.

No Continuity of Effort.

He went on to say that there appeared to be a free fight on in the Land Settlement Board, and that there was no continuity of effort, and no peace among the directors. He then read from a report submitted to the Vancouver G. W. V. A. and accepted by them from their special committee. This contained a statement that the Land Settlement Board had had sufficient information on hand to enable them to proceed with the work of settling returned soldiers, but this work had not been accomplished.

Mr. Bowser then read a resolution from the Creston G. W. V. A., in which he said the members criticized very severely the administration of the Lister settlement.

He next read a letter said to have been written by Colonel Davies, a director of the Land Settlement Board, to the soldier settlers at Merville. This letter, said the speaker, was of an intimidating nature, and told the men that if they tried to take advantage of public opinion to get certain things for themselves they would be promptly dealt with.

"This colonel thinks he is still in France,' said Mr. Bowser. "And an autocratic statement of this kind seems to have been upheld by this Government."

Sumas Project.

The speaker then touched upon the Sumas project, claiming that insufficient information had been secured, and that the Government should go further into the matter before the contract was let. He said he thought the consulting engineer called in, a Mr. Cartwright, had more experience as a railway engineer than as a reclamation expert, and that probably the Premier himself could better judge of the merits of the case. If he was wrong he would welcome correction, he said.

Premier Oliver—Life is too short to correct all my friend's mistakes.

Mr. Bowser—The Premier cannot treat this matter in that jocular way. I am dealing with an estimated expenditure of $1,500,000, which may easily increase to twice that amount.

The speaker went on to accuse the Government of "quibbling" about C. N. R. matters, and touched upon the P. G. E. question.

Mr. Hart—That is your subject.

Mr. Bowser—The greatest railway in British Columbia. And what about putting through loans for this line?

Premier Oliver—You wrote recommending this.

The Leader of the Opposition took exception to this remark of the Premier, which he contended was a breach of confidence.

He then delved into the plugging scandal, speaking of the alleged operations of Scott, Cook, et al and making a reference to Scott having been brought in from Edmonton by M. A. Macdonald, K.C.

"No," exclaimed Mr. Macdonald.

The response was that the member for Vancouver was instrumental in his coming.

"Then when I asked about Woodford the other day," he continued, "there was 'no information.' And yet he is supposed to be working under Mr. Gillespie, of South Vancouver, an official of this Government."

Returning to Cook, he said that employee was 43 when employed, which was a breach of the Civil Service Act, which placed the age limit at 35. This man, he continued, had won a job by participating in the plugging game, and recently he had walked off with public money.

"Fill up with Cook's, Scott's and Woodford's and then watch them go flying in the night," he remarked.

The speaker referred to the visit of the Attorney-General to England and France last year, and said the trip had shown that Mr. Farris was not needed on any of the matters in question except one, the laws enacted by Mr. Bowser himself, when Attorney-General, being so strong as to ensure the Privy Council's action in upholding him.

Election Promises.

Mr. Bowser reviewed the alleged promises of the Government as outlined in their election platform of 1916. He read from one of the little election cards which he said had been so plentiful in Vancouver. First came the initiative. This had been brought in, he said, but never exercised. He maintained it was unworkable.

Next was the Referendum. This, he averred, would not work either, since the exercising of the recall would put all the Liberals out of office.

Proportional Representation was read as another plank. What had become of his, he queried.

Then came a "Non-partisan Civil Service,' he continued.

The Premier interrupted the speaker to say that the creating of a non-partisan civil service would mean firing about 1,000 employees of the former Government.

"The next is a White British Columbia," continued the speaker. "Are we any whiter?' he asked.

Mr. Oliver—Sure.

"And what about the next plank—Government Control of Public Utilities?" he asked, and answered by saying that as soon as the Act was passed everybody interested went to Ottawa to get under the wing of the Federal authorities.

"And the last plank is Abolition of One-Man Government.' The speaker contended that never before had the Government been so completely a one-man government.

Prohibition and the Doctors.

Dealing with the remarks made by Dr. Sutherland, member for Revelstoke, pertaining to prohibition, Mr. Bowser reiterated the views of George Bell, Liberal member for Victoria, to the effect that the doctor member from Revelstoke was not expressing the views of the best element of the medical profession when he said he did not blame the doctors for making as much money out of prescriptions as they could. He was surprised, he said, at the expressions given voice to by Dr. Sutherland because of the fact that he was a past president of the British Columbia Medical Association.

"I have a high regard for the doctors of British Columbia," commented Mr. Bowser, "and I should be sorry to think that they were taking advantage of the administration of the act."

Mr. Bowser concluded his remarks by appealing for sane legislation.

Major Burde adjourned the debate.

Yes dear a busybody is a person who wastes a lot of valuable time pointing out the duties of others.

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL

Says Editor of "Physicians' Who's Who."

Take plain bitro-phosphate is the advice of physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 23 and 27 pounds, respectively, through the administration of this organic phosphate; both patients claim they have not felt as strong and well for the past twelve years.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health.

Physicians and hospitals everywhere are now recognising its merits by its use in ever increasing quantities. Frederick Kolle, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensatory, says: "Let those who are weak, thin, nervous, anaemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensatory as being an excellent tonic and nervine and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-Phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION:—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh growing properties it should not be used by anyone who does not desire to put on flesh.

SOMETHING TO CROW ABOUT

We are the largest Poultry Dealers on the Pacific Coast; contractors to His Majesty, King George, Royal Canadian Navy, Canadian Ocean Service, C. P. R. and Grand Trunk Pacific S.S. Co.

A Few Remarks About EGGS AND POULTRY

Eggs have been an important article of diet from the earliest ages. No article of food is more commonly eaten or served in a greater variety of ways than Eggs and Poultry. They are the most palatable of foods. Eggs and Poultry possess the most disease-resisting powers. Therefore, they are essential to your daily requirements. They are absolutely essential to a high degree of public health.

IF YOU WANT THE BEST SEE THAT YOU GET ROCKSIDE YESTERLAID EGGS AND POULTRY.

Some give up their pleasures for life,
Some rotters quit keeping a wife;
But a joy that's unshaken
Is Ayrshire Roll Bacon,
And the ROCKSIDE BRAND banishes strife.

CHARLEY MULLIN HAS QUIT PRO. BASEBALL

Charley Mullen, who played with the Victoria professional baseball team last year and who later managed the Seattle Coast League Club and played first base toward the end of last season, is now in the responsible position of cashier of a title insurance company in Seattle, and, so he says, will give up the game of professional baseball for good.

"I have thought this thing over," said Charley, "and I believe that I shold give up baseball and stick with business. I understand I have been spoken of in connection with the management of the Vancouver club of the new Northwestern League, and, while I appreciate the sentiment of the league boosters, I believe it will be to my best interests to remain where I am in the future."

Charley is popular with a large number of ball fans who will regret to learn of his decision.

Pathfinder I. on Trip.—The weather clearing considerably at noon to-day, the Pathfinder left on her aerial journey to Sooke Harbor. The machine was piloted by W. H. Brown, and will land at a large field near the harbor. Passenger-carrying will be the main function of the machine while at Sooke. Unless the influenza man is declared invalid before to-morrow the general meeting of the Aerial League will take place on Thursday at eight o'clock at Suite Three, Arcade Block, the main question for discussion being the recent enactment of legislation affecting aeronautical development in the Dominion.

H. B. THOMSON BACK; ENDS WAR SERVICE

Former Canadian Food Controller Says England Recovering Rapidly

Henry B. Thomson, food controller of Canada during the last two years of the war and for the last year with the Canadian Trade Mission in London, returned home to Victoria to-day. He is staying with his mother at the Dallas Hotel.

Mr. Thomson will likely be in Victoria for some time. It is his first visit for more than a year. He is now occupying no official position. For some time he will be kept busy attending to his private affairs, whch have been without his personal attention for more than four years while he has been engaged on national work.

Butter Scarcity in England.

England, according to Mr. Thomson, is not being pinched severely through food shortage, except in the case of butter.

"Butter in England is very scarce," says Mr. Thomson. "Just imagine what it would be like to have to exist on one ounce of butter a week, as much as you here in Victoria use at each meal. That is the quantity the people in England have to get along on now. Canada was looked to for butter, but this country is not producing enough to meet her own wants."

Conditions Improving.

Mr. Thomson explains that the meat supply is not worrying England much as she has on hand enough to last her for seven months.

"The drop in sterling exchange is also not worrfying the English people much," he said. "Conditions are growing continually brighter. The adverse exchange rate with each successive drop is reducing the importations into England from the United States and increasing the exports.

Restricting English Investments Here

"The adverse exchange against England will limit emigration from England to this country and reduce English investments here, as investors will be willing to send their money to Canada when the pound sterling is at so great a discount.

"If Canada will only follow the lead of England and cut off non-essential trade with the Unied States this country will have little to worry about.

"When I was at Ottawa three years ago we recommended to the Government the absolute need for placing an embargo on the importation of luxuries from the United States. We could easly eliminate $150,000,000 worth of these imports each year without hardship and bring about the distribution of that money among the manufacturers and people of Canada."

MR. BARROW TO TAKE FLOOR TO-DAY

Premier's Address Delayed by Desire of Minister of Agriculture to Reply

Premier Oliver announced this morning that he would not take the floor this afternoon to complete the debate on the address in reply to the Speech from the Throne. Major Burde adjourned the debate Tuesday, and it is known that Hon. E. D. Barrow, Minister of Agriculture, desires to address the House, replying to statements made by the Leader of the Opposition on Tuesday regarding the affairs of his department, and particularly the Land Settlement Board branch of that department.

PRELIMINARY WORK ON BRIDGE STARTED

Boring on Bridge Site Has Commenced; One Hole Sunk to Bed Rock

Boring on the site of the new Johnson Street bridge has commenced under the direction of City Engineer F. M. Preston.

The diamond drilling is being done by Captain Robinson, whose firm conducts all the diamond drilling for the C. P. R. west of Winnipeg and a great part of the drilling along the whole Pacific Coast.

In all ten holes will be sunk on the bridge site for the purpose of ascertaining the character of the harbor bottom. Already one hole has been sunk through the mud and into bedrock. It is expected that boring will continue for three weeks or a month. Holes will be sunk on the site of each of the ten cylinders.

VETERANS AND POLITICS.

It was resolved at the meeting last evening that in the opinion of the Nanaimo branch of the G. W. V. A., it was not advisable to form a soldiers political party, nor advisable to affiliate with any political party already existing, members being thus left to use their own discretion when voting on any political issue.

At the same time the local branch went on record as being distinctly in favor of the deletion from the Constitution of the Association of the clause which prohibits discussion at meetings of the Association of political subjects.

NO BAN UNTIL FRIDAY LIKELY

Matter Is For Decision of City Council, Whose Members Are Divided

It is not likely that Victoria will be put under an influenza ban until Friday, at the earliest, if indeed a ban is put on at all.

Acting on instructions from the City Council, Dr. Price, city health officer, has applied to the Provincial Government for permission to close theatres and schools in the city and to prohibit dances. It was not expected that this application would be dealt with until a late hour this afternoon or to-morrow. When power to put on the ban has been secured it will be for the City Council to decide whether it will exercise this power. It is improbable that the Council will be able to consider the matter before to-morrow night, so that if a ban is established it will not come into effect until Friday.

The whole matter rests with the City Council, the members of which are divided on the question. While most of the aldermen are in favor of following out Dr. Price's recommendations in all other respects, a majority probably would be against closing the schools. Some of the aldermen, too, feel that some of the best ventilated theatres in the city should be allowed to remain open. Mayor Porter is doubtful whether a ban would be effective and states that the medical men of the city are divided on the question. It is thought that the proposal to quarantine all homes affected with influenza would meet with considerable support.

More Nurses Needed

"We have simply asked for the power to put on a ban," Dr. Price stated to-day. "Whether we use that power or not will depend upon the Council. It may not be necessary to put the ban on at all if people will only avoid crowds and carry out the instructions which have been published so often. We are in desperate need of nurses at present," Dr. Price stated. "I simply cannot get enough nurses to take care of the pressing need. We must have more volunteers quickly."

Dr. J. P. Vye, Saanich Health Officer, states that if the people of the municipality do not refrain from unnecessary crowding and do not keep away from social gatherings he may find it necessary to adopt more stringent measures. The influenza situation in Saanich, he states, is slightly improved.

BOYS' NAVAL BRIGADE; WEEKLY ORDERS

Saturday, Feb. 21, 2 p.m.—Parade at ship's office with both bands for route march to Oak Bay recreation grounds. Dress: No. 3s, with gaiters.

Sunday, Feb. 22, 10.30 p.m.—Church parade at the ship's office with both bands. The different denominations will be dispersed to their services, and will be inspected by the Lord Bishop after the services. Dress: No. 3s, with gaiters.

W. M. HOTHAM,
Lieut. R.N.V.R., commanding officers, Victoria division, Boys' Naval Brigade.

OBITUARY RECORD

The funeral of Mrs. Florence Martha Wallis, who passed away on Monday at St. Joseph's Hospital, took place this afternoon, the cortege leaving the Sand Funeral Chapel at 3.20 o'clock. A service was conducted at St. Barnabas Church by the Rev. Mr. Smith. The interment was made at Ross Bay Cemetery.

The funeral took place yesterday afternoon of Sidney Charles, the two-weeks-old son Mr. and Mrs. Ernest Joseph Constable 24 Maquinna Road, Fowl Bay. The cortege left the Sands Funeral Chapel at 12.50 o'clock and a service was conducted at St. Andrew's Cathedral by the Rev. Father Leterme. The interment was made at Ross Bay Cemetery.

A BEDTIME STORY

UNCLE WIGGILY AND SAMMIE'S SHINER

Copyright, 1919, by McClure Newspaper Syndicate. (By Howard R. Garis.)

"Mother, is my lunch put up?" called Sammie Littletail, the rabbit boy, one morning, as he hurried here and there around the underground burrow house.

"Hasn't Sammie gone to school yet?" asked Uncle Wiggily, who with Nurse Jane Fuzzy Wuzzy, his muskrat lady housekeeper, was living with the Littletail family for the reason I have told you before.

"Oh, I'm not going to school to-day," said Sammie, as he took the little package his mother gave him.

"Then why do you take a lunch?" asked the rabbit gentleman.

"Oh, that's for a scouting trip," Sammie answered. "You see Jackie and Peetie Bow Wow, the puppy dog boy and Johnnie and Billie Bushytail, the squirrel chaps, they all belong to the same Animal Scout Society that I belong to, and we're going for a hike in the woods to-day. Don't you want to come, Uncle Wiggily?"

"Indeed and he does not want to go chasing off over the hills with you boys!" exclaimed Nurse Jane, as she came in the room just then.

"Oh, but I do want to go!" cried Uncle Wiggily. "I was going to ask Sammie to let me go, but I thought perhaps the boys wouldn't want to be bothered with an old rheumatic uncle."

"Oh, but we'd love to have you!" said Sammie. "Here, mother! Please put up a few more carrot sandwiches for Uncle Wiggily!" called the rabbit boy. "And some of that lettuce pudding."

"All right," answered Mrs. Longears. "I'll get him such a fine lunch as never was!"

"Well, as long as he's made up his mind to go, nothing will stop him," sighed Nurse Jane. "I only hope the fox doesn't get his souse."

"Oh, I guess he won't," said the rabbit uncle, casual like and easy.

Soon he and Sammie were on their way, hopping in the snow over the fields and through the woods. The sun was shining brightly, and pretty soon Sammie stopped on top of a hill, put down his package of lunch and took something out of his pocket.

"What are you going to do?" asked Uncle Wiggily. "You aren't going to eat now, are you? This isn't any hike at all, and we haven't met Johnnie and Billie or Jackie and Peetie."

"I know it," spoke Sammie. "I'm going to call them now, and tell them we're coming. They're away over on that other hill," and he pointed to a distant one.

"Then they can't hear you, no matter how loudly you shout," said Uncle Wiggily. "They're so far away you can't even see them."

"No, but they can see my shiner," said Sammie. "I can talk, or signal to them with this," and he took a little round looking glass from his pocket and flashed it in the sun. A bright beam of light darted over the snow.

"This is how we Animal Scouts talk to one another when we are far apart," said Sammie. "We signal with a shiner. Now you watch!"

Sammie flashed his shiner in the sun. The light from the mirror shot across the snow-covered valley to the far-off hill. Pretty soon, from the hill, another light flashed.

"Oh, I saw it!" cried Uncle Wiggily.

"That was Jackie and Peetie and Billie and Johnnie," said Sammie "They saw my shiner and they answered with theirs. Now they'll wait for us."

"Do they know I'm coming?" asked Uncle Wiggily.

"No, I didn't tell them that, though I could have if I had wanted to," Sammie said. "I'm keeping that a surprise."

"My, it's great to be an animal scout, and have a shiner," thought the bunny gentleman. "We didn't have such fun when I was a young rabbit."

So he and Sammie skipped on, and soon they reached the distant hill where the squirrel and doggie boys waited for them.

"Oh, why didn't you tell us Uncle Wiggily was coming!" barked Jackie.

"I wanted to surprise you," laughed Sammie. Then they all went on a long hike, or walk, and had a lot of fun. And they told Uncle Wiggily how they could talk to one another with their shiners. So many flashes meant the letter "A" and other flashes meant the letter "B," and so on. They could spell words to one another.

"Well, after a while the hike was over, and when they had eaten lunch they all started for home, but they had not gone very far before, all at once, there was a loud howl behind them, and Sammie, looking back, cried:

"Oh, it's a bad old wolf; he's chasing us."

"Yes, to get my souse, I suppose!" sighed Uncle Wiggily. Oh' let's hop!"

So they all hopped and ran as fast as they could, but the wolf came hopping along faster, and he was almost up to them when Sammie took his looking glass shiner from his pocket.

"What are you going to do, Sammie?" asked Uncle Wiggily. "It won't do any good to stop and talk to the bad wolf in Animal Scout signal fashion. Don't do it!"

"I'm not going to!" laughed Sammie. "I'm going to shine the sun in his eyes so he can't see to chase us."

"Oh, we'll all do that!" cried Jackie and Peetie and Johnnie and Billie. Out came their glasses. Soon five broad beams of glaring light shot into the eyes of the chasing wolf, and he was so dazzled and blinded that he couldn't see which way to run. He stumbled into a deep snow bank and he may be stuck there yet, for all I know.

But Uncle Wiggily and his friends were saved, all because Sammie had his shiner with him. And if the electric light doesn't get so heavy that it falls down stairs with the can opener and spills carpet tacks all over the door mat, I'll tell you next about Uncle Wiggily and Susie's vaccination.

"Well, James, and how are you today?" asked the Scottish minister of one of his flock.

"Fairly weel, sir," replied the man sadly; "but I've been a bit unfortunate."

"How's that?" asked the minister.

"Well, ye-see, Ah had a bit letter this morn frae a lawyer to say ma cousin McLoshie has deed and left me twa hundred pound."

"I shouldn't call that unfortunate!" smiled the minister.

"Mebee no," replied the villager; "but the lawyer didna put enough stamps on his letter an' Ah had to pay the postie twa bawbees excess."

VETERANS WEATHER "POLITICAL" STORM

Will Discuss Politics, But From a Safe Distance

A communication from the Provincial Executive of the G. W. V. A. was the subject of three hours' solid discussion last night at the local branch of the Association. The letter took the form of a questionnaire and read in part as follows: "If section 78 be deleted from the constitution, (a) Are you in favor of an independent party? (b) Are you in favor of a soldier party, (c) Are you in favor of a coalition party, and if so in coalition with what party or parties?" Another question relative to the admission of ex-service men who had not been out of Canada was appended to the questionnaire.

As a result of the final decision of the meeting last night, the Victoria local has added its quota to the whole as being in favor of the free and open discussion of political questions affecting the returned man, but their recommendations cannot of themselves change the constitution which can only be done by the Dominion executive.

Of Great Importance.

President O'Halloran, in opening the discussion, stated that this communication brought up a point of supreme importance to the Association. Section 78 of the constitution read that the chairman should not permit any discussion of matters pertaining to political or religious subjects, nor any matters not relative to the welfare of the Association. All the local branch could do in this matter would be to recommend that the section be deleted or otherwise, having no power to change the constitution itself. For his part he thought that open discussion of political questions would be a benefit to the Association, but that any attempt to ally their membership with any political body would be against the best interests of the organization.

It was time to cut the trimmings and get down to practical business, continued Mr. O'Halloran. In the past the representations of the Dominion-wide G. W. V. A. had not been listened to by the authorities, and the Association had not obtained that measure of relief for the widow and orphan that it had pledged itself to do. The question of securing adequate provision for the dependent of the fallen was a debt of honor, but at the same time it could not and should not be made a political football to be kicked about as political expediency dictated.

If the G. W. V. A. joined issues with any political party that is exactly what would happen. It would be just what the politicians themselves were looking for, he added. The questionnaire looked like a trap to him, even if they voted in favor of the deletion of the section prohibiting the discussion of mathers of political color, they were not necessarily bound to form any party within the confines of the G. W. V. A. membership, and indeed if they did form such a party the organization would be split into a thousand pieces. Mr. O'Halloran's stirring address started the discussion.

Speakers for and against deletion, speakers for and against tying up with a party in politics, all were heard, and much excellent oratorical talent was discovered.

Against Change.

Comrade Hart spoke as being strongly against any change in the constitution. It was the thin end of the wedge that would eventually split the G. W. V. A., he announced. The association had been formed to stand together and continue the friendships formed overseas, and to secure the adequate provision for the dependents of the fallen. None of these purposes would be served by entering the political canter—in fact the reverse would be the case. Not only would they be unable to get any satisfaction, in competition with the old-time political parties, but they would fail to accomplish even the little they had already done.

Major Macdonald spoke in support of Mr. Hart, and pronounced himself as being in favor of letting the constitution remain as it was. The Association had been formed under definite rules and with definite principles, one of which was the abstention from all discussion of a party-political nature. The support so generously given by the public had been accorded to the organization on the assumption that it was what it stated itself to be and not a collection of individuals whose purpose was to add to the political chaos of the present day.

Make the constitution square with the facts claimed another, politics was discussed anyway—they could not keep it out of their councils, and why not make it legally right to discuss questions, pertaining to the welfare of the association, which pertained to the welfare of the state. The returned citizens were a power in the country, and anything relative to the welfare of the returned men would also be in accordance with the best interests of the State.

Fear of Split.

And so the discussion waged for and against until gradually the general feeling of the assembly boiled down to the point where they favored the deletion of the restraining portion of the section, but most emphatically declined to form any type or shade of alliance with any political body in the country. The feeling of the meeting was that if the returned soldier wanted to enter politics as a game he could do so as an individual, but as a body of returned men in the G. W. V. A. their ranks were not going to run the risk of being spit on the rock of political expediency.

Comrade Leighton's motion finally passed by a tally of sixty-nine to eighteen, reading, "Be it resolved that we recommend to the Dominion executive that the words 'Political or' be deleted from section 78 of the constitution, if a clause be added, "That this Association shall not ally itself with any political organization.'"

The questions "a, b and c" in the questionnaire were answered in a flat negative, it being stated that part of the paper seemed to be an effort to determine the bulk of the soldier vote. On the question of admitting ex-service men who through no fault of their own had not been out of Canada in the late war, the association went on record being in favor of admitting such to the G. W. V. A. if they had joined the forces voluntarily, and been granted an honorable discharge. Comrades Tait and Berry added able addresses on the question of political aspirations, and in all about fifteen speakers were heard, ranging from all sides of the discussion and embracing many matters.

GEE, I'M HAPPY—MY CATARRH ALL GONE

Suffered Like a Boob For Years—Got Relief in Ten Minutes.

Catarrhozone Did Cure

That's the way hundreds of the boys around town are talking since Catarrhozone got into the drug stores. Nothing on earth like Catarrhozone to really cure Catarrh, Colds or Bronchitis.

"Catarrhozone"—it isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhozone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. All dealers sell Catarrhozone, large size which lasts two months price $1.00; small size 50c; sample size 25c.

DOLLAR DAY TO DRAW BIG CROWDS

Stores Busy To-day Preparing to Meet Demands of Bargain Hunters

Victoria's first 1920 Dollar Day will be on Thursday.

Since July, 1914, Dollar Days have been semi-annual features, even bright spots, in Victoria retail merchandizing. Anxious for a big turnover in cash and to force heavy sales, merchants heap their counters with goods for the bargain hunters.

Anything and everything goes for a dollar bill. Articles normally selling as high as $10 are put on the counters, and early shoppers take them home for 100 cents.

Dollar Day is the one day in each half-year period when the Victoria shopper rises early and is in town ready to start business before the stores open. Men and women line up in queues before the doors are unlocked like people before a popular theatre ticket wicket.

Saturday used to be the Dollar Day and clerks after the joyful selling rush that ended only at nine o'clock in the evening were glad that the next day was Sunday. With Saturday night shopping now eliminated in Victoria, it has been decided to switch the day to the middle of the week.

To-morrow there will be few things that a dollar will not buy in Victoria.

REJECTS OAK BAY SCHOOL ESTIMATES

Council Sends Them Back to School Board For Further Information

Oak Bay School Board estimates for extraordinary expenditures this year were disapproved by the municipal council last night. The total sum involved amounted to $16,200, of which $10,000 was for additions to the Oak Bay High School and the remainder for purposes not explained in the estimates. As the Council was informed that provision might be made whereby no additions to the High School would be necessary, it decided that it would not be wise to include such a large sum which, perhaps, would not be spent. The estimates will go back to the School Board and detailed information will be requested.

The ordinary estimates for school purposes totaled $46,832.45, and were passed without discussion. The greatest increase in these estimates is the sum of $13,600, which goes into the interest and sinking fund for schools.

The Council discussed the question of fire protection and referred the matter to a committee of the whole. So far the representatives of the municipality have been unable to conclude a satisfactory agreement for the further use of the city's Duchess Street Hall. It is possible that the municipality will decide to establish a hall of its own. The city asks Oak Bay to pay for the protection afforded by the Duchess Street Hall half of $13,077.21, which is the annual cost of upkeep.

The Council was informed that it would have to pay slightly more for the use of the Victoria Public Library than in the past, as there has been a slight increase in the number of Oak Bay residents who use the institution.

Councillor Macfarlane was appointed to represent the municipality at the annual convention of the Good Roads League.

A BOY OF METHOD.

It was the week before little Willie's birthday and he was on his knees at his bedside petitioning Divine Providence for presents in a very loud voice.

"Please send me," he shouted, "a bicycle, a tool chest, a——"

"What are you praying so loud for?" his younger brother interrupted. "God ain't deaf."

"I know he ain't," said little Willie, winking towards the next room, "but grandma is."

The Crown of Womanhood

is motherhood. But many women face the ordeal of maternity without sufficient preparation. At such times and later—the mother should take a vegetable tonic, sold by druggists and known in almost every home as Doctor Pierce's Favorite Prescription. Thousands of women have testified as to its efficacy as does the following:

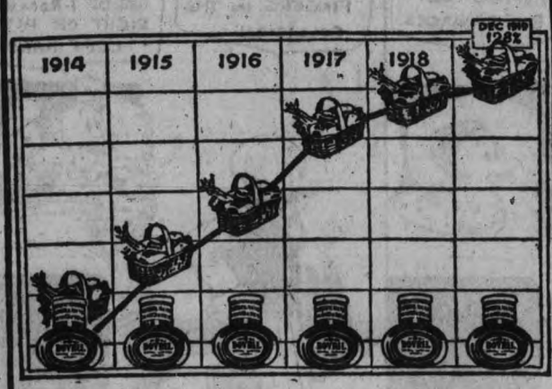

TILLSONBURG, ONT.—"I found Doctor Pierce's Favorite Prescription very beneficial during expectancy. I felt quite poorly, was nauseated and sick, could not eat anything and I was extremely nervous and weak. I took 'Favorite Prescription' and it soon stopped the nausea, my appetite returned, also my strength, and I was soon feeling fine and strong. My baby was strong and healthy, and has always been so. I consider 'Favorite Prescription' a great help to the expectant mother, and am glad to recommend it."—MRS. AMOS MILLS, Box 238.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, also double it's beauty. You can have nice, thick hair, too.

The RISE in The Price of FOOD

No Rise in the Price of BOVRIL

WHILE practically all the things you put in your shopping basket have doubled in cost. Bovril remains the same price as in July 1914, and it is not only the price; *it is the same quality.*

Bovril Ltd. have succeeded in their determination not to increase prices. A smaller profit per bottle on increased sales, and skill in keeping down the cost of production, have enabled them to achieve what probably has not been achieved in the case of any other popular food—namely, the maintenance of pre-War price and quality.

Yet people would have paid almost any price for Bovril. There were times when it could have been sold for a sovereign a bottle. But the policy of Bovril Ltd. was *not* to take advantage of the people's necessity, but to *help* in that necessity and to consider it as a National Trust. That is why the price of Bovril is the same as in July, 1914.

That is why
Bovril did not Profiteer

The Body-building Power of Bovril has been proved by independent investigation to be from 10 to 20 times the amount taken.

Bovril Limited, in Canada as in England have made no advance in price since the war began.

Soft and Comfy

That's the way to keep baby's things. His little under shirts, his stockings, his tiny sweater, his cap, coat, leggings, even his white boots and his go-cart robe, can all be fearlessly washed again and again. How? With the creamy, copious, instantly-made

LUX

lather—gently cleansing and as harmless as pure water itself.

LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

The Quick Way to Stop a Cough

This home-made syrup does the work in a hurry. Easily prepared, and saves about $2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2½ ounces of Pinex (50 cents worth) in a 16-oz. bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

How to Kill Dandruff So It Won't Return

By a Specialist

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well-known fact. We appreciate, therefore, the importance of any agent that will destroy its power. For this reason it is a pleasure to give herewith the prescription which a famous scalp specialist states he has found after repeated tests, will completely destroy the dandruff germs in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of partial baldness. This prescription can be made up at home, or any druggist will put it up for you—6 ounces Bay Rum, 2 ounces Lavona de Composee, one-half drachm Menthol Crystals. Mix thoroughly, and after standing an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add 1 dracham of your favorite perfume. While this preparation is not a dye it is unequalled for restoring gray hair to its original color.

22 Lots Sold Yesterday

of those advertised in Sunday's Colonist and Saturday's Times.

Full Page Ads.

If you missed them read one of them Now. We are selling lots of one acre and up at one-tenth to one-quarter of their former prices.

$35 to $300 Per Acre

for cultivated lots at Tatlow Station on the B. C. Electric car line. Church, school, store, free mail delivery on the property. Electric Light and Telephone

Available.

We sold a lot of 1¼ acre, cultivated, for $474, for which the former price was $1,575. There are other blocks of 1 acre lots, some of which are all heavy black soil with timber all removed, for only

$65 Per Acre

This is just two blocks from the railway station or about five-eighths of a mile. Remember that thi ssubdivision is only Ten Minutes' Walk From the

"Chalet" at Deep Bay

that favorite Summer resort. Single lots are advertised at $500 each for waterfront. For ordinary sized lots this equals about $2,500 per acre. Get one of the lots we advertise at such snap prices for a

Summer Home

and cultivate it. Make it pay for itself and your grocery and meat bills as well. Men live on this property who will clear the wooded lots for you. Phone 1340 or 6737, or call for plans and full particulars. But do it

To-day

To-day there will be 50 people looking over the land, if all who called yesterday go to see it. Remember that we

Sold 22 Lots Yesterday

Buyers came in at 5 o'clock and found their selection had been sold earlier in the day. They must take their second choice. This is positively the

Cheapest Productive Land

anywhere near Victoria markets and other advantages of electric car line, etc., mentioned above. You can still buy 1 acre cultivated lots, 1 minute's walk from the station for

$300

for which the former price was $1,050. Plant loganberries there this year and reap the $1,200 per acre next year as so many Saanich farmers did in 1919. Get Saturday's Times for fuller details, or better still call at the office—NOW.

FINANCIAL NEWS

RECESSION TO-DAY IN CHICAGO GRAINS

Chicago, Feb. 18.—Corn and oats futures were for sale throughout the session to-day, the average trader being inclined to play for a reaction in prices. Commission houses were the principal sellers, especially toward the close of the session. The cash position remains the chief bullish argument, while bears contend that immediate bullish factors have been discounted in view of the recent rise.

TO-DAY'S TRADING IN WINNIPEG MARKET

Winnipeg, Feb. 18.—The cash markets again were quiet to-day with small offerings and not much improvment in the demend. There was a somewhat better demand for lower grades of oats, with spreads reported unchanged to 1½ cents better. There was no change in barley, flax and rye.

Oats closed ½ cent down for May and July ⅞ cent lower. Barley ⅞ cent lower for May. Flax 4 cents and ½ cent lower for May and July respectively. Rye 2⅜ cents down.

NEW YORK SUGAR.

New York, Feb. 18.—Raw sugar easy, prices nominal; fine granulated, $15 to $16.

STRONG UNDERTONE IN NEW YORK STOCKS

Great Interest in Rails; Good Recovery in Oils and Steels

New York, Feb. 18.—A decidedly better undertone was apparent throughout to-day's session of the stock market. The rails were in good demand, being influenced by the expectation of early action on the railroad bill now pending in Washington. Petroleum issues were generally in favor and scored substantial gains, while steels were accumulated by those who have been preaching better conditions in the steel industry for the past few weeks. Closing prices showed the advances of the day well sustained and a cheerful feeling prevailing.

ALLIED NOTE IS IN GERMAN HANDS

Berlin, Feb. 17, via London, Feb. 18—The Allied note to Germany on the extradition question was handed to the Government at noon to-day. In the absence of Premier Bauer, who is in the Ruhr district engaged in negotiations with the miners, the note was presented by Lord Kilmarnock, the British Charge, to Foreign Minister Mueller.

Berlin, Feb. 17, via London, Feb. 18—Commenting on the Allied note to Germany making concession regarding the trial of Germans accused of war crimes, The Tageblatt to-day says:

"The awakening of the democratic spirit in England and Italy has had its effect in inducing the leaders of the Entente to recede from their previous attitude on the extradition issue."

Vorwaerts says the note is in no wise free from traps which are likely to lead to complications later, but it declares the document represents "the victory of sanity."

The Vossische Zeitung thinks the Entente will do well in abstaining from interference with the trials Germany is to hold, as the Allies will thus be spared the "ignominious defeat awaiting them in case they attempt to reaffirm their charges before an unbiased court."

The Pan-Deutsche Zeitung finds the note unacceptable.

No Discussion

London, Feb. 18.—The Allied reply to President Wilson's note on the Adriatic situation having been dispatched, the Adriatic question was not a topic of discussion in the Supreme Council to-day, so far as could be learned. Confirmation was given, however, of the statement made in Washington that President Wilson's memorandum informed the Allies that if they proceeded with their Adriatic plans without the consent of the United States, President Wilson might feel constrained to withdraw the Treaty of Versailles from the Senate, and also refrain from giving effect to the agreement into between France and the United States.

European Investments

Leading authorities consider that European exchange has passed the low point, and that the trend of British, French, Belgian and Italian currencies will now be upward.

For long-term investments, the possibilities of large returns from the war bonds of Great Britain, France, Belgium and Italy are excellent, and in this regard Canadian currency, which is at a premium in the countries referred to, will buy from 20% to 120% more than in normal times.

These European war loans are of the same class as our Victory Bonds; direct obligations of the governments of the countries concerned, representing the very foremost securities which Great Britain, France, Belgium and Italy have to offer.

We will purchase for your account at the closest market prices, any of the following bonds:

	Nominal Value.	Present Approx. Cost here.
100 British National War Loan, 5%, due 1922	$487	$406
100 British Victory Loan, 4%, due 1920	$487	$376
1000 Franc French Victory Loan, 5%, due 1931	$193	$ 75
1000 Franc French Govt. Loan, 1917, 4%, due 1945	$193	$ 63
1000 Franc Belgian Restoration Loan, 5%, due 1934	$193	$ 90
1000 Lire Italian 5th War Loan, 5%, due 1932	$193	$ 60

Further lists of European bonds, procurable through our investment department, will be submitted upon application.

Births, Marriages, Deaths

BORN.

MILLER—On 16th inst., at 101 Simcoe Street, to Mr. and Mrs. S. Miller (nee Netta Donaldson), a son.

DIED.

MOLONY—On the 16th inst., suddenly, Harry Herman Molony, aged 53 years; born in New Jersey, U. S. A., and a resident of this city for the past 21 years. He is survived by, besides his widow, of this city, two daughters, Mrs. C. C. Clementson and Mrs. Benson, both of Prince Rupert.

The funeral will take place on Thursday, the 19th inst., at 3.30 o'clock from the Sands Funeral Chapel. Interment at Ross Bay Cemetery.

NOURY—On February 16, 1920, at the residence, 2942 Bridge Street, James John Noury, a native of Guernsey, Channel Isles, aged 73 years. The deceased is survived by his widow and four sons, James (Duncan, B.C.), Edward John, Walter and William, of Victoria. He was a member of the A. O. F.

The remains are reposing at the B. C. Funeral Chapel, 734 Broughton Street, from whence the funeral will take place on Thursday at 2.30 p. m. Interment in Ross Bay Cemetery.
(St. Thomas, Ont., papers please copy.)

ROBERSON—On the 16th inst., at his home, 3728 Fifth Street, Capt. W. H. M. Roberson, aged 40 years; born in London, England, and a resident of this city for the past fourteen years. Deceased was the beloved husband of Mrs. Beatrice Roberson, and is survived by, besides his widow, one daughter and one sister, Mrs. A. Mortimer, of this city; also a father, one brother and three sisters in London, England.

The funeral will take place on Thursday, the 19th inst., at 2 o'clock from the Sands Funeral Chapel. Rev. J. G. Inkster will officiate. Interment will be made at Ross Bay Cemetery.

DUPLAIN—On February 16, at the Royal Jubilee Hospital, Charlotte Ethel Duplain, beloved wife of Alfred Duplain, of 2629 Blanshard Street. Deceased was a native daughter, aged 21 years, and is survived by, besides her husband and infant daughter, of this city, her parents, Mr. and Mrs. A. C. Grayson, and three brothers and two sisters, all residing in Vancouver.

The funeral will take place on Thursday, the 19th inst., at 10.30 o'clock from the Sands Funeral Chapel. Interment will be made at Ross Bay Cemetery.

LLOYD—On Tuesday, Feb. 17, at the Isolation Hospital, Violet A. Lloyd, aged 32 years and 2 months, daughter of M. B. Lloyd, 1454 Begbie Street.
The funeral will take place to-morrow afternoon, leaving the Thomson Funeral Home at 2 p. m. Services will be held at St. Mary's Church, Oak Bay, at 2.15, the Rev. G. H. Andrews officiating. Interment at Ross Bay Cemetery.

MUSGRAVE—On February 17, 1920, at 634 Admiral's Road, Esquimalt, Commander Philip C. Musgrave, R. N., aged 54 years; born in England.

The remains are reposing at the B. C. Funeral Chapel and will remain there until Friday at 2.30 p. m., when they will be conveyed to the Naval Hospital, Esquimalt, from whence the funeral will proceed to the Naval Cemetery for interment on Friday at 3 p. m. Service will be conducted by Rev. W. Baugh-Allen.

CODY—On February 12, 1920, in Seattle, Arnum Beverley Cody, aged 24 years; born in La Pere, Michigan, U. S. A., and a resident of Seattle for the past year. The deceased was the only son of Mr. and Mrs. E. F. Cody, of 944 Madison Street, Victoria, B. C. Besides his parents, he leaves an only sister, Miss Leta Cody, to mourn his loss.

The funeral took place in Seattle on Monday, Feb. 16, at 1 p. m., from Bonney-Watson's Funeral Parlors to Lake View Cemetery. Rev. Mr. Morgan officiated. (Vancouver, Moose Jaw and Brandon papers please copy).

DUNBRACK—On the 17th inst., at his home, 334 Menzies Street, Frank Allan Dunbrack, beloved husband of Mrs. Maude Dunbrack; born in St. John, N. B., and a resident of this city for the past ten years. He resided on the West Coast some time prior to coming to this city. Deceased is survived by, besides his widow, of this city, two sisters and one brother, Mrs. F. E. Holman, Miss Winnifred Dunbrack and Charles Dunbrack, all residing in St. John, N. B.; also two brothers residing in U. S. A. He was highly respected and his many friends will learn with regret of his untimely death.

The funeral will take place on Friday, the 20th inst., at 2 o'clock from the Sands Funeral Chapel. Rev. Joseph McCoy will officiate and interment will be made at Ross Bay Cemetery.

CARD OF THANKS.

Mr. Walter B. Smith and family, Mr. and Mrs. J. Maycock, also sisters and brothers, take this opportunity to express their heartfelt thanks to many friends for the kind words of sympathy and beautiful flowers sent during their recent sad bereavement.

CARD OF THANKS.

Mr. James Petticrew and the brothers of the late John Petticrew wish to thank all friends for their kind words of sympathy and beautiful floral tributes, especially the employees of the V. M. D., Boilermakers' Union, Shipbuilders and Helpers, and the Street Railway Employees' Union.

SCHOOLS OF PROVINCE SHOW MUCH PROGRESS

Annual Report For 1919 Indicates Educational Advancement

The number of pupils enrolled in 1919 in the public schools of British Columbia was 72,006, (35,954 boys and 36,052 girls) an increase of 4,490 over the enrolment of the previous year, says the annual report of the Minister of Education. The average daily attendance was 56,692 or 78 per cent of the enrolment; 2,332 teachers were employed of whom 197 were in charge of High School classes, 957 of city graded schools, 549 of rural municipality schools, and 629 of rural schools. The enrolment in the High Schools was 5,806; in city graded schools, 35,090; in rural municipality schools, 17,869, and in rural and assisted schools, 13,241.

The expenditure by the Government on education proper was $1,694,447.04. The cost of constructing new school houses was $96,706.43. The total cost to the Provincial Government was $1,791,153.47. In addition to the amount expended by the Government, the cities, rural municipalities and rural districts spent $2,437,566.45 on their schools, making a total cost for education for the year of $4,228,719.92, of which the Provincial Government contributed 43 per cent. If we include the University the Government's contribution would be 47 per cent.

The average salary paid male teachers holding Academic Certificates and employed in High Schools was $2,192, and female teachers $1,619; male teachers holding First Class Certificates and employed in city public schools were paid an average salary of $2,032, and female teachers $1,171; male teachers holding First Class Certificates and employed in rural municipalities received an average salary of $1,777; second class male teachers in these schools received $1,424 and those holding Third Class Certificates $940. The average salary paid to the teachers, male and female, of the Province was $1,162.

There were 45 high schools and 16 superior schools in operation, employing in all 236 teachers. Two hundred and twenty-nine students of the high schools took a course in agriculture and 870 the commercial course, 221 the boys' chemical course and 52 girls took the household economics course. Of the 2,332 teachers employed during the year 1918-19, 376 held academic certificates, 453 first-class, 873 second class, 388 third-class, 102 special, 140 temporary. There were 86 more teachers in the service last year than during the preceding year, and 208 more than in the year 1916-17.

CHARGE OF FORGERY LAID IN CALGARY

Young Woman and Mother Held in Connection With Cheques

Calgary, Feb. 18.—Miss Joyce Laura Pearcy is under arrest here charged with forging cheques. Her mother is also held.

According to the police Miss Pearcy is alleged to have admitted a series of cheque forgeries in Calgary and Edmonton, her mother being connected with the alleged confession.

The allegation is made by the police that Miss Pearcy presented local stores yesterday four cheques signed with the name of Lowney & Company, and it is claimed that she had cashed three of them before she was arrested outside the fourth store she is alleged to have visited.

The alleged confession is said to implicate Miss Pearcy also in the disappearance of ninety-two cheques amounting to $3,000 which were missed from the paymaster's office at the armories here some months ago.

DEMONSTRATION COAL MINE PLAN

New York, Feb. 18. — A plea for "demonstration coal mines" along the same lines as demonstration farms maintained by the United States Department of Agriculture, was made before the 121st annual meeting of the American Institute of Mining and Metallurgical Engineers here to-day by J. J. Rutledge, of the United States Bureau of Mines. The object of these mines, which would be located in the principal coal areas, he said, would be to make experiments with various details of coal mining to discover the most effective local methods.

19,000 CANADIAN BOX CARS IN U. S.

Vancouver, Feb. 18.—If the 19,000 Canadian box cars now in the United States had been returned, as they should have been, there would be no occasion for the complaint of the Lumber Manufacturers' Association of inability to ship lumber across the border, according to P. W. Peters, general superintendent of the Canadian Pacific Railway, western division.

AUSTRIAN AGENTS WITH ALLIED GROUPS IN EAST AUSTRIA

Paris, Feb. 18.—The Council of Ambassadors has decided to allow Austrian delegates to be attached to the inter-Allied Commissions which are to be sent to Eastern Austria.

The Council also considered the authority which is to be invested in the commission on the circulation of rolling stock in Europe, but no decision was reached on this matter.

During the day the Ambassadors discussed the reply which is to be made to Germany's observations on the Allied regulations in the occupied territory along the Rhine.

JOHN FARNELL IS GIVEN NINE MONTHS

Convicted by Winnipeg Jury of Seditious Utterances and Sentenced

Winnipeg, Feb. 18.—John Farnell, a returned soldier, convicted by a jury in the Assize Court here of seditious utterances, was sentenced to nine months' imprisonment in the provincial jail by Mr. Justice Prendergast this afternoon.

Farnell's seditious utterances were made during a speech he delivered to a meeting of strikers and their sympathizers in the Market Square here during the general strike of June 20. He advocated holding a "silent parade" despite the proclamation of the Mayor prohibiting parades the following afternoon. It was during the formation of this parade on June 21 that a riot followed in which two men were killed and several injured.

Some of the statements attributed to Farnell were that "no authorities, civic or otherwise, would prevent us from holding a parade. Law and order has failed," and "the tactics used in the arrest of the strike leaders are Russian tactics."

Now Inquire Where Nicholas Romanoff Might Be Located

New York, Feb. 18.—Information as to how legal papers can be served on Nicholas Romanoff, deposed and supposedly executed Czar of Russia, has been asked of Supreme Court Justice Callighan by the Marine Transport Service Corporation, which holds a judgment for $117,540 against him.

TEXTBOOK SURVEY NOW UNDERTAKEN

Ottawa, Feb. 18—(Canadian Press.) Following a lengthy discussion, the National Council of Educationalists decided to-day to ask Queen's University, Kingston, to make a survey of textbooks dealing with literature. Toronto University will be requested to deal with history and McGill is to handle geography. Other universities in all parts of the Dominion, together with outside help, will assist. It was stated that the work might easily take one or two years.

ADVICE BY BLISS IGNORED BY WILSON

Washington, Feb. 18.—American troops were sent into Russia and Siberia by President Wilson against the advice of General Tasker H. Bliss while the general was a member of the Allied Supreme War Council, General Peyton C. March, Chief of Staff, testified to-day before a House Committee investigating medal awards.

"I don't suppose, however, that the President would disregard a strictly military proposal from General Bliss," General March added.

Promotion of officers by selection was urged by the Chief of Staff, who said the system of promotion by seniority usually placed inefficient officers in high positions.

COMMUNIST WOMAN TRIES TO GET INTO AMERICAN CONGRESS

Chicago, Feb. 18.—Mrs. Rose Pastor Stokes, brought here from New York to answer a charge of "advocating overthrow of the United States Government by force or other unlawful means," to-day announced her candidacy for Congress to succeed Representative F. H. Laguardia, Republican, of the 14th New York District.

Mrs. Stokes was indicted on January 23 with 166 other Communists and Radicals. She is at large on a bond pending appeal from a sentence to serve ten years in a Federal prison for obstructing the army draft.

ROBBERS ARE GIVEN FOUR-YEAR TERMS

Winnipeg, Feb. 18.—Four years in the penitentiary was the sentence imposed to-day on George T. Little and Alfred Harrison on charges of robbery. Stanley Zed, who pleaded guilty, was sentenced to three years.

Sir Hugh John Macdonald, in passing sentence, declared that if any other similar cases come before him he will impose the lash as part of the punishment. Men who went armed to rob, said the magistrate, had the intention of using their weapons if necessary.

George Budd, who pleaded guilty to six out of eight charges of robbery, but was unarmed, was sentenced to eighteen months.

These men were arrested several weeks ago in a roundup in which fourteen were taken on charges of robbery.

HUDSON'S BAY CO. EVENT IN VANCOUVER

Vancouver, Feb. 18.—Early in May a pageant symbolical of important Canadian historical events will be held here by local organizations to celebrate the 250th anniversary of the establishment of the Hudson's Bay Company, Sir Robert Kindersley, Governor of the Company, is expected to be present.

INVESTIGATION ORDERED.

Washington, Feb. 18.—Attorney-General Palmer to-day directed the Federal District Attorney at Portland, Ore., to make a "full and thorough investigation" of the charges made against M. H. Houser, of the United States Grain Corporation, by a Federal judge at Spokane.

W. IVENS MAKES APOLOGY TO COURT

Winnipeg Court Will Rule on Question of Contempt To-morrow

Winnipeg, Feb. 18. — (Canadian Press).—In a shaking voice, and at times on the verge of tears, William Ivens to-day admitted statements alleged to be in contempt of the court before which he is being tried, said he did not intend contempt and made an apology before a full court of King's Bench, consisting of Chief Justice Mathers, Mr. Justice Galt and Mr. Justice Prendergast.

The court's decision will be handed down to-morrow at 10 a. m.

Ivens had been called upon to show cause why he should not be committed for contempt for statements made at a meeting in the Columbia Theatre here on December 28. "Bob Russell was tried by a poisoned jury and poisoned judge and received a poisoned sentence," Ivens said. "If Tommy Metcalfe says that a general strike is illegal, then I say that he speaks illegally."

At the opening of the hearing, Ward Hollands, counsel for Ivens, told the Court Ivens felt the matter to be a personal one and wished to conduct his own defence. Ivens then read affidavits, one his own, in which he quoted a large portion of his speech and added explanatory matter, ending with an apology, and the other one that of William Bailey, a school principal, who had heard Ivens' speech.

Did Not Know.

"I did not know I had transgressed the feelings of this court or any other court," Ivens said, reading from his own affidavit. "When I mounted the platform at the meeting I was applauded and I said I did not wish to be applauded while I was outside and Bob Russell was inside prison paying the price."

Ivens then read portions of his address in the form of a sermon, leading up to the statement that Canada was undergoing a campaign of persecution.

"I have done my duty as I saw it. If I must go to jail for it, I will do so," said Ivens. He read his remarks on the "vicious attack" a newspaper had made on himself and the other accused.

He then read the statements about the poisoned jury, judge and sentence which had aroused the wrath of the Crown. "Before God, Russell is an innocent man," he quoted. "The strike was broken, but at a terrific cost. Our Parliament was prostituted, our Mounted Police discredited. I have always stood for political action; I never have breathed defiance to constituted authority.

An Apology.

"I did not think and do not think now that I was in contempt of this honorable court, but if the court decides that I was in contempt, then I make a full apology."

Mr. Bailey's affidavit was to the effect that Ivens' speech merely suggested that newspapers had so poisoned the minds of everyone that it was impossible for a jury and judge to take an impartial view of the case.

In rebuttal John Allen, Deputy Attorney-General, said that if those opposed to Russell had held meetings demanding that his sentence be made more severe there would be trial by public meeting, which was illegal.

PROOF OF RESOURCE OF LLOYD GEORGE

London, Feb. 18.—The Manchester Guardian, commenting editorially on the Allied note to Holland, says:

"Next in value to, wisdom which refrains from getting into a mess, is agility which serves to get out of it. If, in regard to the question of the war criminals the Allies displayed little of the first quality, they are to be congratulated on a remarkable and entirely satisfactory exhibition of the second.

"It is easy to recognize in this decision the resourceful mind of Premier Lloyd George. To him is chiefly due the whole project of these post-war trials; to him also should be due the skilful evasion of most of the difficulties involved.

"The fact is that the whole thing, which had never been thought out to begin with, has reached an impossible stage. We do not want the ex-Kaiser, though we may talk as though we did. If the Dutch Government still feels that it can do nothing with the ex-Kaiser except let him alone, we had better follow its example."

MARRIAGE IN LONDON.

Vancouver, Feb. 18.—The news that Mrs. Roderick Bell-Irving, formerly Miss Nora Benwell, is to be married in London to-morrow is contained in cable advices to friends in this city to-day. The bridegroom will be Colonel Frank Thomson, a well-known barrister of Hamilton, Ont., and partner of Senator Lynch-Staunton.

NOTHING TO HER.

Hostess (at party)—Does your mother allow you to have two pieces of cake when you are at home, Willie?

Willie (who has asked for a second piece)—No, ma'am.

"Well, do you think she'd like you to have two pieces here?"

"Oh," confidently, "she wouldn't care. This isn't her cake."—Pearson's Weekly.
